NOTICES TO MARINERS.

THE following Notices are published for general information

W A INGLIS,
Secretary, Marine Department

CALCUTTA, *the 1st September 1905*

NEW ZEALAND—SOUTH ISLAND, EAST COAST

Amuri Bluff—Breakers reported to the south-eastward

No 332 (first publication) —The British Admiralty has given notice (No 742 of 1905) that Mr Rolls, commanding the S S *Tarawera*, reports the existence of heavy breakers situated at a distance of about 10 miles S 16° E from Amuri Bluff

Approximate position, lat 42° 42¼′ S, long 173° 32′ E

These breakers were assumed to be identical with the 4-fathom shoal marked on the Chart about 3 miles to the southward of the above position, but until this locality has been examined both these dangers will be shown on the Chart

(*Variation 15° Easterly 1905*)

This Notice affects the following Admiralty Chart —Cape Campbell to Banks peninsula, No 2529 Also, New Zealand Pilot, 1901, page 272

EASTERN ARCHIPELAGO—BORNEO, NORTH COAST

Banguey island—Decreased depth on shoal to the eastward

No 333 (first publication) —The British Admiralty has given notice (No 746 of 1905) that the S S *Borneo*, drawing 13 feet, struck on the shoal shown on the Chart as having a depth of 4 fathoms over it, and situated at a distance of 13 miles N 61° E from the summit of Latoan island, Banguey island The 4 fathoms on the Chart has, therefore, been altered to 2 fathoms

Approximate position on Chart No 948, lat 7° 22¼′ N, long 117° 32′ E

(*Variation 2° Easterly in 1905*)

This Notice affects the following Admiralty Charts —China sea, No. 2660, Palauan island, No 967, Balabac strait, No 948 Also, Eastern Archipelago, part I, 1902, page 15 , and China Sea Directory, vol. II, 1899, page 197

CHINA SEA—Gulf of Siam.

Bankok river entrance—Outer beacon light established—Light-vessel withdrawn

No 334 (first publication)—With reference to Notice to Mariners No 266, dated 15th July 1905, issued by this office, the British Admiralty has given further notice (No 753 of 1905) that information has been received that the Outer beacon, at the entrance to the Bangkok river, has been erected in a position from which the Bar light (*white occulting*) bears N 32° W, distant 1¼ miles, and the Inner beacon N 17° E On this beacon, which is painted black, a *white flashing* light is experimentally exhibited

The light exhibited from the Inner beacon, which is painted white, has been altered from fixed to *white flashing*

The light-vessel three-quarters of a mile to the northward of the Outer beacon, from which red and white lights were exhibited, has been withdrawn

Approximate position, Outer beacon, lat 13° 27¾′ N, long. 100° 34½′ E

(Variation 2° Easterly in 1905)

This Notice affects the following Admiralty Charts.—Koh Ta Kut to cape Liant, No 2720, Menam Chau Fya, No 999 Also, List of Lights, part VI, 1905, Nos 644a, b, c, China Sea Directory, vol II, 1899, page 368, and Supplement, 1901, page 14

PACIFIC OCEAN—Hawaiian or Sandwich islands—Main

Lahaina roads—Light and buoy altered

No 335 (first publication).—The British Admiralty has given notice (No 757 of 1905) that on 20th June 1905, a *fixed* dioptric light, elevated 60 feet above high water, would be established in a pyramidal tower about 55 feet high, painted white, erected about 20 feet to the eastward of the former light, which would be discontinued The new light shows the following sectors—*red* from the bearing of N 36° W, through north, to N 20° E, *white* from N 20° E to East, *red* from East to S 48° E, the white and red lights being visible in clear weather from distances of 12 and 7 miles respectively

Approximate position, lat. 20° 52½′ N, long 156° 40½′ W.

Also, that the red anchorage buoy, situated at a distance of 5 cables S 45° W from the lighthouse, would be replaced by a can buoy painted in black and white vertical stripes

(Variation 9° Easterly 1905)

This Notice affects the following Admiralty Charts—Sandwich islands, No 1510, plan of Lahaina roads on chart No 1490 Also, List of Lights, part VII, 1905, No. 485, Pacific Islands, vol III, 1900, page 213, and Supplement, 1903, page 15

CHINA SEA—GASPAR STRAIT.

Pare Joie reef —Its approximate position

No 323 (second publication) —The British Admiralty has given notice (No 717 of 1905) that the Captain of the American S.S *Mississippi* reports that on 10th May his vessel passed a coral reef awash, in the northern approach to Gasper strait, in approximately lat. 2° 19′ S, long. 107° 08′ E

The position of this reported danger is about 3 miles eastward of the position assigned to the rock on which the ship *Pare Joie* struck in 1870, and remained 24 hours in a position from which Gasper island bore S ½ E, distant 5 miles The report from that vessel also stated that she was 4½ miles eastward of the rock marked E D, situated on the Chart in lat. 2° 19½′ S, long 107° 3′ E, or about 3 miles eastward from that given by the bearing, and in that now reported by the *Mississippi*

The first position of the *Pare Joie* and the E D position were unsuccessfully searched for by H N M surveying vessel *Hydrograaf* in 1876

It is quite possible that the three positions which lie in the same latitude, and nearly 3 miles apart from each other, may be one and the same shoal, and near the position assigned to it by the *Mississippi*, and where no soundings have yet been taken Pare Joie reef has therefore been transferred on the Chart to the position given by the *Mississippi* and the reef E D expunged

(Variation 2° Easterly in 1905)

This Notice affects the following Admiralty Charts —Eastern Archipelago, No. 941a, Banka and Gaspar straits, No 2149, Gaspar strait, No 2137 Also, China Sea Directory, vol I, 1896, page 461

From—J T RANKIN, Esq, Offg Secretary to the Board of Revenue, L P,

To—The Secretary to the Government of Bengal, Financial Department.

Member in charge
THE HON'BLE MR K G GUPTA, I C S

I AM directed to submit the following report on the state of the salt market for the first quarter of the year 1905-1906, comprising the months of April, May, and June 1905.

2. The quantity of salt of every description cleared during the quarter amounted to 34,29,653 maunds, as compared with 29,58,842 maunds in the previous quarter, and 32,52,118 maunds in the corresponding quarter of the previous year. The net amount of duty levied thereon was Rs 48,44,789, as against Rs. 52,70,595 in the previous quarter and Rs. 61,37,272 in the corresponding quarter of the previous year.

3. The subjoined Table (I) shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, as

compared with the figures of the corresponding quarters of the two previous years.

Extract (paragraphs 1 and 2) from the Proceedings of the Government of India in the Home Department (Public), under date Calcutta, the 8th December 1899

RESOLUTION

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students or others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed circumstances, are unable to complete their course of education

2 In order to enable the Secretary of State to deal with such cases satisfactorily, the Governor-General in Council has decided that it is necessary to press upon Indian students and others visiting England the desirability of providing themselves, before their departure from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency Town, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer (in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be

IRRIGATION DEPARTMENT

The 4th September 1905

No 22 —Notification —It is hereby notified for general information that the Hon'ble the Lieutenant-Governor of Bengal proposes, under the provisions of Sections XI and XII of Act V (B C) of 1864, to pass the following Rules in supersession of those now in force on the Nadia Rivers, with effect from the 15th November 1905 —

W A. INGLIS,*
Secy. to the Govt. of Bengal

PROPOSED RULES

The rules shall apply to the undermentioned navigable channels, which are included under the designation "Nadia Rivers," viz —

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly,
(2) the river Hooghly, from Nadia to its junction with the river Mathabhanga,
(3) the river Jalangi, from the Ganges to Nadia,
(4) the river Bhairab, from the Ganges to Nadia,
(5) the river Mathabhanga, from the Ganges to its junction with the Hooghly,
(6) such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jalangi and the Mathabhanga rivers, respectively

1 Every vessel entering, or making use of, the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable In case of any reasonable doubt, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel, notwithstanding that it was measured before

2 Vessels for the purposes of the determination of tonnage shall be divided into two classes, as follows —

Class I —To include all vessels of the usual native types of build

Class II —To include all steamers, flats, barges and other square-built boats

The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 and of these rules, be determined by the following measurements —

Class I —

(*a*) The product of one quarter the length of the vessel from stem to stern, measured outside and along the water-line, multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water line to the bottom of the vessel, is to be taken as the number of maunds on which toll shall be levied

(*b*) The measurement of the length is to be made in feet, rejecting inches The measurements of the breadth and depth are to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot

(*c*) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 25 maunds, rejecting any remainder of less than 25 maunds In the case of vessels exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds, rejecting any remainder of less than 100 maunds

Class II —

(*d*) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one-half For vessels of this class exceeding 5,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds

(*e*) In the case of steamers that have been surveyed under Act VI of 1884, the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement

In all cases, the gross tonnage of steamers, whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine-space

(*f*) For vessels of Class II which are furnished with reliable way-bills or manifests, the gross maundage of cargo shown by the manifest may, at the option of the employer of the vessel, be taken as the maundage on which toll shall be charged provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty In the case of steamers that have been surveyed under Act VI of 1884, tolls shall be charged on the cargo, as thus determined, in addition to the tolls chargeable on the net tonnage of the steamer itself provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause

3 Measurements shall be made daily, as soon as possible, after a vessel arrives at the toll station From the 1st April to the 30th September, measurements shall be made between the hours of 6 A M and 5 P M, and tickets under Rule 5 shall be delivered between the hours of 7 A M and 6 P M From the 1st October to the 31st March, measurements shall be made between the hours of 7 A M and 4 P M., and tickets under Rule 5 shall be delivered between the hours of 8 A.M. and 5 P M

EXISTING RULES

The following Rules having reference to the undermentioned navigable channels, viz —

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly,
(2) the river Hooghly, from Nadia to its junction with the river Matabhanga,
(3) the river Jallanghi, from the Ganges to Nadia,
(4) the river Bhairab, from the Ganges to Nadia,
(5) the river Matabhanga, from the Ganges to its junction with the Hooghly,
(6) such portions of the river Ganges as may be within 5 miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jallanghi, and the Matabhanga rivers, respectively,

have been passed this day by the Lieutenant-Governor of Bengal under the provisions of sections XI and XII of the "Canals Act, 1864" (No V, B L C), and will have effect from and after the 1st September 1879

1 Except as may be herein provided, every vessel, before leaving any toll-station, shall pay tolls in accordance with Schedule A appended to these rules

2 The tonnage of every vessel shall, for the purpose of the Canals Act, 1864, and of these rules, be determined by the following measurements —

(a) The product of half the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the water-line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied
(b) The measurement of the length is to be made in feet, rejecting inches, and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot
(c) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted, exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only, exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only, and exceeding 75 maunds as 75 maunds only Above 1,000 maunds no fraction of 100 maunds is to be charged
(d) In the case of steamers, the tonnage as determined by clauses (a), (b) and (c) shall be reduced by one-half as an allowance for engine and cabin space
(e) In the case of a steamer that has been surveyed under Act VI of 1884, the tonnage entered in the certificate shall be taken to be the tonnage of the steamer for the purpose of these rules, no further deduction being made for engine space

19 Measurement shall be made between the hours of 6 A M and 6 P M from April 1st to September 30th, and between 7 A M and 5 P M. from October 1st to March 31st Tickets under Rule 12 shall be issued within the hours of 7 A M and 5 P M. in summer and 8 A M and 5 P.M in winter

PROPOSED RULES

4 Every cargo vessel, immediately after entering the toll station limits, shall proceed to the measuring ghât or to such other place as the Toll Collector may direct, and shall remain there until it has been measured in accordance with these rules After measurement the vessel shall be removed from the measuring ghât without delay In any case the person in charge of a vessel shall place it in such situation as he may be required to by the Toll Collector

5 After measurement the measuring muharrir shall deliver to the person in charge of the vessel a pass in the form appended (Appendix E I) and shall inform such person verbally of the amount of toll payable by him The person in charge of the vessel shall then take the pass to the Toll Collector's Office, and shall there pay the toll demanded. The Toll Collector shall then deliver to him a ticket in the form appended (Appendix E II), which shall bear the stamp of the Toll Collector's Office, and the signature of the Toll Collector, or in his absence, that of the Toll Daroga The vessel shall then be entitled to proceed without further charge

6 The person in charge of a vessel conveying passengers, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which are liable to be injured by detention, shall not be required to attend at the toll office, but shall pay toll to the measuring muharrir at the rate of six annas per oar, as provided in item I of the schedule of tolls hereto annexed, and the muharrir shall deliver to such person a ticket in the form appended (Appendix E III) which shall entitle the vessel to proceed without further charge

7 (a) All tolls are payable on demand, and shall be paid as provided in Rules 5 and 6 before a vessel is allowed to proceed

(b) Provided that vessels belonging to individuals or firms specially approved by the Superintending Engineer of the South-Western Circle, which approval may be withdrawn for any just cause, may be permitted to proceed without prepayment

(c) The person in charge of a vessel approved as in clause (b) shall, on passing a toll station, stop and deliver at the station a form specifying such particulars regarding the vessel and its cargo as may be required by the Superintending Engineer, South-Western Circle

8 The tickets mentioned in Rules 5 and 6 must be kept on board the vessel, and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in Rule 2, and shall demand payment of toll, and unless and until toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of Section IX of the Act

9 If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to pass along any one of the Nadia Rivers, she may be permitted to pass along any other of the rivers without extra charge, except as provided in Rule 13 If the vessel be unable to pass along any of the rivers, the Toll Collector may at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel

10 The payment of toll at one toll station shall entitle a vessel to travel once along the whole length of the river on which that toll station is situated, whether or no the cargo is changed during the journey, except as provided in Rule 13

11 A vessel containing passengers, or used for fishing, shall pay toll only once in the same day provided that no passenger vessel shall be allowed this privilege unless returning empty, or conveying the same passengers as on the first trip The "day" to be reckoned from midnight to midnight

12 A cargo vessel, laden or empty, which has paid toll at a toll station, shall not be required to again pay toll if returning to the same toll station on the same day reckoned as in Rule 11, except as provided in Rule 13

13 A vessel which has been measured and paid toll accordingly shall, in case additional cargo is taken on board, or a part or whole of the original cargo is changed for a cargo on which a higher rate of toll is leviable, be subject to re-measurement whether on the same or another day, reckoned as in Rule 11, and to the payment of the amount by which the total toll leviable on the re-measurement exceeds that originally paid

14 Passenger boats having on board cargo other than what is necessary for the use of the passengers for the trip and which measure 25 maunds and upwards shall be dealt with as cargo boats

15 (a) Boats having on board only articles which are necessary for the use of the crew for the trip shall be dealt with as empty

(b) Empty jars, tins, casks, bags, or other receptacles used, or to be used only for the purpose of holding cargo shall not be considered as cargo

16 No cargo shall be taken out of any boat, whether measured or unmeasured, within toll station limits without the permission of the Toll Collector

17 Tickets and passes issued in respect of any vessel, boat, raft, or float are not transferable to any other vessel, boat, raft, or float

18. (a) Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls.

EXISTING RULES

10 Immediately after entering the chowkey limits, the manjee of every cargo vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement

11. After measurement shall have been duly effected, the measuring mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix E I), and shall inform the manjee verbally of the amount of toll payable by him

12 The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him He shall then receive a ticket in the form annexed (Appendix E II) which shall entitle him to pass the chowkey limits free of all further charge This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah.

13 The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the mohurir in charge of the chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the mohurir a ticket in the form annexed (Appendix E III) which shall entitle such vessel to pass chowkey limits without further charge

6 If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge If the vessel be unable to pass along either river, the Toll Collector may, at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel

7. Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours

8 An empty cargo vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time A vessel leaving the chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day

9 Boats or vessels which may have entered the Nadia Rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage

14 Passenger boats having on board cargo other than what is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats

15 Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip shall be considered as empty

16 No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector

17 Tickets and passes are not transferable

18 Passes collected at the chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled.

PROPOSED RULES

(b) In case the person in charge of a boat desires to have a duplicate of the ticket mentioned in Rule 5, in order to make over to the owner of the boat or cargo or for any other legitimate purpose not constituting an evasion or breach of these rules, the Toll Collector shall issue a duplicate at the time the request is made, whether at the time of issue of the original ticket or subsequently

19 Any vessel, raft float, or any number of vessels, rafts or floats fastened or connected together in any way, which, by reason of difficulty of proper control, or of excessive over-all length or breadth or depth, is of such a nature as, in the opinion of the Executive Engineer, Nadia Rivers Division, to be likely to cause unavoidable damage to the bandalling or other training or dredging works in the rivers, or to be likely to cause unavoidable obstruction to the traffic by grounding or sinking, is prohibited from passing into or along any of the channels comprised in the Nadia Rivers

20 A vessel which has been detained under these rules or under Section IX of the Act may not be removed from the Nadia Rivers without the order of the Toll Collector until the toll due has been paid During such detention the manji, owner or agent, must make arrangements for the safety of the vessel and cargo

21 All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Notification No 261, dated the 21st July 1890

22 The Supervisor may by written notice, to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the channels comprising the Nadia Rivers or on the banks

23 No person shall wilfully or negligently allow a vessel to sink in the channels comprising the Nadia Rivers without the permission of the Supervisor

24 In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same

25 When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the Toll Offices, or other prominent places, calling on those concerned to pay to the Toll Collector all toll which may be due, as well as the expenses incurred on the recovery of the vessel and cargo Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure prescribed in Section IX of the Act

26 The purchaser of a vessel sold under the provisions of Section IX of the Act shall have the right to take it out of the channels comprising the Nadia Rivers on the day of purchase, or within such time as may be allowed by the Toll Collector, without payment of tolls

27 When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay

28 If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 28 shall be effected by a notice exhibited in his office, and by advertisement in at least two local newspapers

29 All vessels, whether travelling or moored, in the channels comprising the Nadia Rivers, shall, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the lights prescribed above

EXISTING RULES

20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate Such application shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat

*22 No fleet of vessels or rafts lashed together and exceeding 150 feet in length or carrying or floating timber exceeding in all twenty in number, shall pass into or through any of the Nuddea Rivers at one time or abreast

23 No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea Rivers And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following

5 All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea Rivers, as well as boats used by Police Officers on actual duty, shall be exempted from paying tolls This shall not be held to apply to Police Officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation

* 21 Any officer of Government or other person claiming exemption under Rule 5 shall be supplied by the measuring mohurir with a certificate in the form annexed (Appendix E IV), and shall fill up and return such form to the mohurir who shall thereupon grant a passenger ticket in form (E III) In case of doubt as to the good faith of any claim to exemption from toll, the measuring mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector

25 Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand and on depositing such amount as the Board of Revenue may determine they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue

26 The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station The certificate shall mention the date of passing It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorised to receive payment thereof.

UNIVERSITY ENTRANCE EXAMINATION

PRIVATE CANDIDATES

1 A student who has not attended any H E School recognised by the University since the 1st September next preceding the Entrance examination, or who has been transferred after the 1st September to the school from which he appears without the consent of the Divisional Inspector of Schools will be treated as a private candidate

2 School teachers are classed as "Private candidates"

3 Private candidates desirous of sitting at the ensuing University Entrance examination must appear at a test-examination in one of the undermentioned schools —

(1) Dacca Collegiate School
(2) Mymensingh Zilla School
(3) Faridpur Zilla School
(4) Barisal Zilla School.

4 The test-examinations of the zilla schools will be held on the 8th January 1906 and the following days The date of examination of the Collegiate School should be ascertained from the Head Master of that school

5 Every private candidate must submit his application to the Head Master of one of the schools named above at least three weeks before the test examination, and satisfy the following conditions —

(a) that he has not failed at the test-examination of any Entrance school during the current session,

(b) that he has not left school from any class lower than the first, and

(c) that he has left the school in which he last read with a transfer certificate, or (in the case of a candidate who appeared at any previous examination) he is in possession of the Registrar's receipt

A school-master is required to produce a certificate from the Secretary of the school in which he has served as a *bonâ-fide* teacher for a period not less than six months, or if he has served in several schools, he must produce certificates from the Secretaries of each of them to prove that he has served as a *bonâ-fide* teacher in all of them

6 Every private candidate must pay a fee of Rs 2 to the Head Master of the school at which he appears for examination After payment of the necessary expenses, the balance of the fees will be paid to the examiners as remuneration

7 He must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, and satisfy him as to his character, otherwise he will not be admitted to the test-examination.

8 The Head Masters of the schools named above are requested to send to this office a statement showing the marks gained by each private candidate in each subject at the test-examination within a fortnight from the date of the said examination, and are authorised

to sign the application forms of eligible candidates, which should be forwarded to this office for countersignature and return in due time

9 Private candidates should arrange to remit their examination fees, together with the application forms, direct to the Registrar, so as to reach him on or before the 31st January 1906

10 The next Entrance examination begins on the 12th March 1906.

F A AND B A EXAMINATIONS

1 Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ-fide* teachers of recognised English schools will be admitted to the F A and B A examinations as private candidates, provided they have served in their respective capacities for a period of two academical years

Bonâ-fide teachers are those who hold paid appointments in English schools, teaching up to at least the Middle English standard

2 Exceptions to the above rule will be made in the case of those candidates who, after failure at a previous examination, have served for six months since the date of the last examination held by the University If, however, a candidate has not completed six months' service at the time of submitting his application, he must give a written guarantee that he will remain in his post until he completes six months' service before the examination

3. School-masters should submit, with their applications, certificates of character and length of service from the Secretaries of their respective schools, which will be retained, and also the University certificates, in proof of their having passed the Entrance or F A examination, as the case may be Candidates who have previously failed at the examination should produce the Registrar's receipt in addition

4 Applications must reach this office on or before the 7th January 1906

5 Fees should be remitted by the candidates direct to the Registrar of the University of Calcutta, together with the application forms countersigned by the Inspector of Schools, so as to reach the office of the Registrar on or before the 12th February 1906

6 Under section 19 of the Indian Universities Act, candidates who intend to appear at the F A, B A or M A examination of the University of Calcutta, other than as regular students of some affiliated college, are requested in the first instance to apply for and obtain the permission of the Senate Their applications cannot be accepted unless they are supported by the permission of the Senate

BILL

TO

Make certain provisions regarding the application of the law in force in the Province of Eastern Bengal and Assam and in certain territory transferred from the Central Provinces to Bengal

WHEREAS by Proclamation No 2832, dated the 1st September 1905, the Governor General, with the sanction of His Majesty, has been pleased to constitute the Province of Assam, being the territories mentioned in Schedule A, to be, for the purposes of the Indian Councils Act, 1861, a Province to which the provisions of that Act touching the making of laws and regulations for the peace and good order of the Presidencies of Fort St George and Bombay shall be applicable, and to direct that the said Province shall be called the Province of Eastern Bengal and Assam, and further to appoint a Lieutenant-Governor of that Province,

24 & 25 Vict c 67

and whereas by the said Proclamation the Governor General in Council, with the like sanction, has been pleased to declare and appoint that, upon the constitution of the said Province of Eastern Bengal and Assam, the districts mentioned in Schedule B shall cease to be subject to or included within the limits of the Bengal Division of the Presidency of Fort William and shall be subject to and included within the limits of the Lieutenant-Governorship of the Province of Eastern Bengal and Assam,

And whereas by Proclamation No 2833, dated the 1st September 1905, the Governor General in Council has been pleased to declare and appoint that the territory mentioned in Schedule C shall cease to form part of the Central Provinces, and shall be subject to and included within the limits of the Bengal Division of the Presidency of Fort William,

And whereas it is expedient to make certain provisions regarding the application of the law in force in the territories affected by the said Proclamations,

It is hereby enacted as follows —

Short title and commencement

1 (*1*) This Act may be called the Bengal and Assam Laws Act, 1905, and

(*2*) It shall come into force on the sixteenth day of October 1905.

Saving of territorial application of enactments

2. The Proclamations referred to in the preamble shall not be deemed to have effected any change in the territorial application of any enactment, notwithstanding that such enactment may be expressed to apply or extend to the territories for the time being under a particular administration

Construction of certain references in enactments in force in territory mentioned in Schedules A, B and C

3 All enactments, and all notifications, orders, schemes, rules, forms and by-laws issued, made or prescribed under enactments, which, immediately before the commencement of this Act, were in force in, or prescribed for, any of the territory mentioned in Schedule A, B or C, shall, in their application to that territory, be construed as if references therein to the authorities, territories or Gazettes mentioned in column I of Schedule D were references to the authorities, territories or Gazettes, respectively, mentioned opposite thereto in column 2 of that Schedule. [Cf Reg VI of 1901, s 6.]

Constitution and powers of Board of Revenue in Eastern Bengal and Assam

4 (1) There shall be a Board of Revenue for the Province of Eastern Bengal and Assam, to which the provisions of the Bengal Board of Revenue Regulation, 1822, and the Bengal Board of Revenue Act, 1850, shall, so far as may be, apply

(2) The said Board of Revenue shall discharge, in respect of the territory mentioned in Schedule B, all the functions which, immediately before the commencement of this Act, were vested in or exerciseable by the Board of Revenue for the Lower Provinces of the Presidency of Fort William in Bengal, and, in respect of the whole or any portion of the territory mentioned in Schedule A, such of the functions which at the same date were vested in or exerciseable by the Chief Commissioner of Assam as the Local Government may, with the previous sanction of the Governor-General in Council, delegate to it [III of 1822. XLIV of 1850]

Powers to Courts and Local Governments for facilitating application of enactments

5 For the purpose of facilitating the application to any of the territory mentioned in Schedule A, B or C of any enactment passed before the commencement of this Act, or of any notification, order, scheme, rule, form or by-law made under any such enactment— [Cf Reg VII of 1901, s 7.]

(a) any Court may, subject to the other provisions of the Act, construe the enactment, notification, order, scheme, rule, form or by-law with such alterations, not affecting the substance, as may be necessary or proper to adapt it to the matter before the Court, and

(b) the Local Government may by notification in the local official Gazette, direct by what officer any authority or power shall be exerciseable, and any such notification shall have effect as if enacted in this Act

Pending proceedings

6 Nothing in this Act shall affect any proceeding which at the commencement thereof, is pending in or in respect of any of the territory mentioned in Schedule A, B or C, and every such proceeding shall be continued as if this Act had not been passed [Cf Reg VI of 1901, s 34.]

Repeal

7 The enactments specified in Schedule E are hereby repealed to the extent mentioned in the fourth column thereof

Secretary, Marine Department.

Calcutta, the September 1905

PACIFIC OCEAN—New Guinea, north-east coast—New Hanover

Tench island—Existence of a densely-wooded island to the eastward

No 341 (first publication).—The British Admiralty has given notice (No 784 of 1905) of the existence of a densely-wooded, oval-shaped island, about one mile long and half-a-mile broad, situated in approximately lat 1° 41′ S, long 150° 46′ E It is not improbable that this island is identical with Tench island, which is shown on the Chart in nearly the same latitude and 15 miles to the westward of the above position.

This Notice affects the following Admiralty Charts —Pacific ocean, No 780, Australia, northern portion, No 2759a, North east coast of New Guinea, No 2766 Also, Pacific islands, vol. I, 1900, page 369, and Supplement, 1903, page 32

KOREA—SOUTH-EAST COAST—Pusan (Fusan) harbour.

Uno se—Light established

No 342 (first publication) —The British Admiralty has given notice (No 789 of 1905) that, on 10th June 1905, an unwatched *white fixed* light elevated 30 feet above high water, and visible in clear weather from a distance of six miles was established on a stone cylindrical beacon, painted in red and black horizontal bands, erected on Uno se (Channel rock) in the northern entrance to Fusan harbour

Approximate position on Chart No 1259, lat 35° 7¼′ N, long. 129° 3¾′ E

This Notice affects the following Admiralty Chart —Fusan harbour, No 1259 Also, List of Lights, Part VI, 1905, No 880, and Sailing Directions for Japan, Korea, &c., 1904, page 119.

CHINA—Pechili strait

Siau chu shan—Reported extension of shoal.

No. 343 (first publication) —With reference to Notice to Mariners No 404, dated 21st December 1903, issued by this office, the British Admiralty has given further notice (No 790 of 1905) that a steam-vessel drawing 15½ feet touched on the shoal extending

from the south point of Siau chu shan (Little Bamboo island) at a distance of one mile S 5° W from the south point of the island A depth of 2 fathoms has therefore been placed on the Chart in this position.

Approximate position lat 38° 0¼′ N, long. 120° 52½′ E

(Variation 3° Westerly in 1905.)

This Notice affects the following Admiralty Charts —Shangtung promontory, No. 1255, Pechili strait, No. 1392 Also, China Sea Directory, vol. III, 1904, page 574.

AUSTRALIA, SOUTH—Port Adelaide river

Beacon light altered

No 344 (first publication) —The British Admiralty has given notice (No 792 of 1905) that, on and after 1st July 1905, a *red fixed* light would be established in port Adelaide river on the red beacon with a rectangular topmark, situated at a distance of 2 cables N 35° E from No. 2 beacon, which would be removed in the process of deepening the channel.

Approximate position, red beacon light, lat. 34° 47′ S, long 138° 29′ E.

(Variation 5° Easterly in 1905)

This Notice affects the following Admiralty Chart —Port Adelaide, No 1750 Also, List of Lights, Part VI, 1905, No 1166 (Remarks), and Australia Directory, vol I, 1897, page 331

EASTERN ARCHIPELAGO—Java island, east coast

Surabaya strait, West Gat—Alteration in buoyage

No 345 (first publication) —The British Admiralty has given notice (No. 793 of 1905) that a light-buoy, painted white, exhibiting a *white occulting* light *every twenty seconds*, thus —light, *ten seconds*, eclipse, *ten seconds*, has been established in the northern entrance to the West Gat, Surabaya strait, in a position from which Jamuang reef tide pole bears N 28° E., distant $2\frac{1}{10}$ miles, and Gebang village S 82° E

Approximate position on Chart No 934, lat 6° 58½′ S, long 112° 42¼′ E

The white conical buoy, No 5, surmounted by a ball, and the light-buoy, No 6, exhibiting a white occulting light, formerly situated three cables to the northward and one mile to the southward respectively from the above position, have been withdrawn.

(Variation 2° Easterly in 1905)

This Notice affects the following Admiralty Charts —Java, No 1654, Surabaya strait on Chart No 934 Also, Eastern Archipelago, Part II, 1904, page 122

CHINA SEA—Gaspar strait.

Pare Joie reef—Its approximate position

No 323 (third publication)—The British Admiralty has given notice (No 717 of 1905) that the Captain of the American S S *Mississippi* reports that on 10th May his vessel passed a coral reef awash, in the northern approach to Gasper strait, in approximately lat 2° 19′ S, long. 107° 08′ E

The position of this reported danger is about 3 miles eastward of the position assigned to the rock on which the ship *Pare Joie* struck in 1870, and remained 24 hours in a position from which Gasper island bore S ½ E, distant 5 miles The report from that vessel also stated that she was 4½ miles eastward of the rock marked E D, situated on the Chart in lat. 2° 19½′ S, long. 107° 3′ E, or about 3 miles eastward from that given by the bearing, and in that now reported by the *Mississippi*

The first position of the *Pare Joie* and the E D position were unsuccessfully searched for by H N M surveying vessel *Hydrograaf* in 1876

It is quite possible that the three positions which lie in the same latitude, and nearly 3 miles apart from each other, may be one and the same shoal, and near the position assigned to it by the *Mississippi*, and where no soundings have yet been taken Pare Joie reef has therefore been transferred on the Chart to the position given by the *Mississippi* and the reef E D expunged

(Variation 2° Easterly in 1905)

This Notice affects the following Admiralty Charts—Eastern Archipelago, No 941a, Banka and Gaspar straits, No 2149, Gaspar strait, No 2137 Also, China Sea Directory, vol I, 1896, page 461

REPORT ON THE ADMINISTRATION OF THE SALT DEPARTMENT IN BENGAL, DURING THE YEAR 1904-1905

NOTIFICATION

No 402T.-S R —The 5th September 1905.—The following extracts from the Report of the Board of Revenue on the Administration of the Salt Department in the Lower Provinces during the year 1904-1905 are published for general information

F. A. GAIT,

Offg Secy to the Govt of Bengal

No 5434B, dated Calcutta, the 7th August 1905

From—H F SAMMAN, Esq, Offg Secretary to the Board of Revenue, L P,

To—The Secretary to the Government of Bengal, Financial Department

CHAPTER I —PRELIMINARY.

Administration

2 The scheme for the reorganization of the Salt Department has been sanctioned by the Secretary of State. The orders were not, however, received in this office till after the close of the year. The Commissioner of Excise and Salt, Bengal, has since made revised proposals in the light of changed circumstances and they have been submitted for the orders of Government.

There were no changes in the areas fixed for the employment of special police head-constables accompanying salt parties engaged in house-searches under section 18 of the Indian Salt Act, XII of 1882, except in the Matla Circle of the 24 Parganas, where they were revised at the instance of the Assistant Commissioner in communication with the Inspector-General of Police, Lower Provinces

The Salt Committee

3 As regards the bonding system the Government of India agreed generally in the conclusions of the Salt Committee They were of opinion that the system of inland warehouses offers a distinct convenience and economy to the trade, while on the other hand it involves some trouble and expense to Government They considered that in districts with water communication the advantages of the system outweighed its drawbacks In other districts, where the trade had been slow to take advantage of the warehouse system, the Government of India were disinclined to permit its introduction

With regard to the allowance for wastage on bonded salt, the Government of India accepted the conclusions of the Committee that a deduction from the duty payable should be allowed on account of actual wastage up to a maximum of 2 per cent on each consignment A notification was published in the *Calcutta Gazette* giving effect to these orders from the 1st January 1905

CHAPTER II —STOCKS, IMPORTS, AND CLEARANCES

Accounts of stocks and issues

4 The stocks of salt held at the commencement of the year in all *golas*, both public and private, were over $2\frac{1}{2}$ lakhs of maunds less than on the 1st April 1903, but the quantity of salt imported during the year under report increased by more than 10 lakhs of maunds The clearances were larger than those of the previous year by nearly $4\frac{1}{2}$ lakhs After allowing for wastage the closing balance stood at 27,55,364 maunds In addition to this, at the close of the year, there were 3,63,662 maunds of salt lying afloat in ships in the port of Calcutta against 1,75,680 maunds at the end of 1903-04

During the year under report the percentage on the total importations of salt bonded in the Sulkea and Kidderpore Dock *golas* amounted to 70 as against 68 in the previous year, it is probable that the figures would have been higher had more bonding accommodation been available.

Imports

5 The importations into Calcutta during the year shew an increase of 6 2 per cent, for which the United Kingdom, Salif, Aden and Bombay were mainly responsible The increase of over $1\frac{1}{4}$ lakh of maunds from the United Kingdom indicates that the popularity of Liverpool salt is well maintained Imports from Salif were the highest on record On the other hand, importations from the Persian Gulf are steadily dwindling with the disappearance of Arab sailing vessels The trade in Bombay salt, which fell off greatly last year, revived during the year under report when the importation was nearly up to the average of former years The increase shown last year in importations from Madras ports was not maintained, the reasons assigned being the competition of Bombay salt and the difficulty in obtaining freight A large consignment of Spanish salt arrived at the close of the year, but it is too early yet to say whether this venture will be a financial success.

In Chittagong the importations advanced by 89·5 per cent over those of the previous year This large increase is due to competition among the salt merchants and the greater facilities for transport afforded by rail.

Sales of imported salt from shipboard and bond

6. There was an increase of 3 7 per cent. in the sales of imported salt, 20 per cent. was sold from shipboard and 80 per cent from bond, against 21 and 79 per cent, respectively, in the preceding year. In Calcutta the sales from the importing vessels direct decreased by 7 9 per cent, but the sales from bond increased by 7 7 per cent Of the vessels carrying salt into Calcutta during the year, 94 per cent were steamers.

The increase in the total sales at Chittagong amounted to 14·1 per cent.

Transactions in the Sulkea and Kidderpore Dock *golas*

7. The total turn-over at the Sulkea and Kidderpore Dock *golas* for the last five years is shown below —

Years		Maunds
1900-01	... .	1,21,04,343
1901-02	.	1,49,52,131
1902-03	. ..	1,54,83,932
1903-04	.	1,50,05,754
1904-05	...	1,62,70,908

The turn-over at Sulkea was 1,06,35,902 maunds against 94,99,784 maunds in the previous year, at Kidderpore 56,35,006 maunds against 55,05,970 maunds

The Collector of Customs, Calcutta, reports that the turn-over was the highest on record, that the bonding space at both Sulkea and Kidderpore Docks was found inadequate to meet the demands of the bonders, and that notice had to be given to merchants to restrict importations. New sheds are now under construction at Sulkea, and by lowering the floors of the old *golas* additional space for about three lakhs of maunds has been obtained It is doubtful, however, whether these additions will satisfy the trade, as with the further reduction in duty, a great increase in importations is anticipated By remodelling the old *golas* at Sulkea additional space would be gained, but it seems advisable also to acquire the adjoining land for new sheds and other improvements The work at the Sulkea *golas* suffers not only from insufficient accommodation but also from want of facilities for handling salt. New railway sidings are urgently required and the *gola* premises should be intersected with lines so as to reduce the leads to a minimum The question of increasing the storage space and improving the facilities for landing and handling salt is engaging attention

The *golas* at Kidderpore were fully used during the year, but the buildings are falling into disrepair, and as the land on which these *golas* stand is likely to be required for other purposes, it is proposed to take immediate steps to secure another suitable site on the same side of the river.

Inland bonded warehouses

9 Licenses for four additional private bonded warehouses were issued, while one warehouse (at Dacca) was closed during the year under review At the close of the year there were in all 30 warehouses open, all of which, excepting two at Chandbali, were in Eastern Bengal

The quantity of salt despatched to these warehouses amounted to 13,18,024 maunds (9,86,762 maunds from shipboard and 3,31,262 maunds from the *golas* in Calcutta), as compared with 13,67,524 maunds (†9,22,614 maunds from shipboard and 4,44,910 maunds from the *golas*) in 1903-1904 There was thus a decrease of nearly 4 per cent, but it is to be noted that the preceding year had shown an increase of nearly 7 per cent over 1902 1903 The quantity of non duty-paid salt removed during the year from shipboard at Chittagong for clearance at Narayanganj was 64,499 maunds against 32,755 maunds during 1903-1904, showing an increase of nearly 97 per cent

† Revised figures

12. The quantity of Madras *karkatch* and refined salt imported into Orissa by land during the year under report was 10,15,292 maunds against 9,18,823 maunds in the previous year, showing an increase of 96,469 maunds or 10 5 per cent The Oriental Salt Company, Limited, continued to warehouse refined *karkatch* crushed salt imported by rail from Madras in their depôts at Cuttack and Jajpur Road in the district of Cuttack, and also at Balasore, Soro, Bhadrak and Chandbali in the district of Balasore.

Madras salt has more than maintained its hold on Orissa, though its advance towards Lower Bengal has been checked.

Imports of Bombay salt in the Tributary Mahals of Orissa

13 The figures given below show the consumption of Bombay salt in the Tributary States during the last four years If the year's imports of this salt are taken into account, there is an increase in consumption per head from 14·63 to 14 69 pounds, a figure which compares favourably with the standard of 10 lbs laid down for a rice-eating population —

	1901-1902	1902-1903	1903-1904	1904-1905

CHAPTER III.—CONSUMPTION AND PRICES

Consumption in Bengal

14 The total quantity of salt which passed into consumption in the entire Province of Bengal during the year under review was 1,11,89,602 maunds This is exclusive of 2,51,875 maunds, being the net exports by land, but inclusive of 15,594 maunds educed from saltpetre In comparison with the preceding year the figures show an increase of 3 41,271 maunds or 3 per cent Of the total quantity, the saliferous tracts (including the whole of Orissa) took 20,82,866 maunds, or 18 13 per cent, and the rest of the Province 94,06,736 maunds, or 81 87 per cent The resulting rate of consumption per head in the saliferous tracts including Orissa was 6 seers 4 chitaks, or 12 86 lbs, and in the rest of the Province, 5 seers 9 chitaks, or 11 44 lbs The corresponding averages during the previous year were 12 47 lbs and 11 18 lbs, respectively It will be noticed that in both years the average consumption in the saliferous tracts exceeded that in the remainder of the Province

The rates of consumption per head of the population in the Bombay and Madras Presidencies during 1903-1904 were 10 5 lbs and 16·5 lbs, respectively

	Mds
1900 1901	1 02,27,601
1901 1902	1,04 31,438
1902 1903	1 10 46,690
1903 1904	1,11 48 '31
1904 1905	1 14 89 602

From the figures noted on the margin, it will be seen that in Bengal there has been a steady yearly increase in consumption The figures represent the quantities on which duty was paid prior to delivery for consumption

Consumption of salt within the Salt Law limits

15 During the year under report the consumption per head within the Salt Law area showed a decline in all the districts except Chittagong, where the increase in the sales is ascribed to the vigilance of the Salt Preventive Force in detecting and suppressing illicit manufacture, as also to the cheapness of salt and increased facility of supply owing to direct import by sea The decrease in Midnapore, Howrah and Khulna is attributed to ordinary fluctuations of trade With regard to Midnapore, the decline is said to have been largely influenced by the migration of the population to the Sunderbans in the 24 Parganas, where there was a great demand for labour consequent upon a favourable rice crop

Messrs M. David & Co, who had opened a salt *gola* at the Noakhali railway station in the year previous and sold salt at a reduced price, closed their *gola* during the year Hence the decrease in the sale in Noakhali in the year under review.

Consumption of salt in the town of Calcutta

17. The quantity of salt consumed in the town of Calcutta during the years 1903-1904 and 1904-1905 amounted to 1,63,055 maunds and 1,52,281 maunds, respectively, giving an average annual consumption of 7 seers 8 chitaks and 7 seers, respectively, or of 15 and 14·4 pounds approximately per head of the population, calculated on the census figures of 1901 *plus* the usual allowance for annual increase

18 The reduction in the rate of duty from Rs. 2-8 to Rs 2 a maund had brought about a fall in retail prices which was generally maintained throughout the year, affording appreciable relief to the poorer classes The further reduction in duty from Rs. 2 to Re 1-8 a maund from the 22nd March 1905 produced no effect on prices during the year under review, as the wholesale vendors had to dispose of stocks on which they had paid the higher rate of duty It is anticipated that the further reduction will again lower prices and thus remove to a considerable extent the inducement to illicit manufacture. The average wholesale price for the whole Province, was Rs 3-1-5 per maund, as compared with Rs 3 2-10 in 1903-1904 and Rs 3-10 9 in 1902 1903. As compared with 1902-1903 the fall amounted to annas 9 4, or anna 1 4 more than the reduction in duty, the latter sum probably representing the marked reduction in the average wholesale price in Calcutta The Board have reason to believe that the retail purchaser of at least one seer or more has also benefited to the full extent of the reduced duty, and it is anticipated that the results will be more appreciable now that the reduction amounts to one rupee. The market has already made a decisive response and the purchasers, both wholesale and retail, have practically begun to appropriate the entire reduction

Prices of salt in Bengal generally

Exclusive of duty, the average wholesale price of Liverpool salt per hundred maunds as sold from the ship's side in the port of Calcutta amounted to Rs 48-10-2 during the year, as compared with Rs 53-11-5 in 1903 1904. Prices, which in 1903-1904 varied from Rs 50 to Rs 56-9-7, fluctuated in the year under report from Rs 46-6-6 to Rs 51 5 4

CHAPTER IV—PREVENTIVE MEASURES.

19. As in the previous year, operations for the prevention and suppression of illicit manufacture of salt were carried on in the districts of the 24-Parganas, Midnapore, Howrah and Khulna under the immediate supervision and control of the Assistant Commissioner, and in Chittagong under the Collector, who has been vested with the powers of an Assistant Commissioner under the Indian Salt Act, XII of 1882 The proposals for the entertainment of a regular preventive staff for the districts of Howrah and Noakhali made by Mr Inglis, late Commissioner of Excise and Salt, Bengal, in April 1903, have been sanctioned by the Secretary of State The sanction has been received after the close of the year, and steps are being taken to give partial effect to the scheme during the present year

Preventive operations in the saliferous districts

20 Illicit salt was attached, released and confiscated in 830, 1 and 886 cases, respectively, during the year under report, as against 1,135, 7 and 1,510 in the previous year, to the extent of 86 maunds 10 seers and 101 maunds, against 3,272, 3,157 and 189 maunds during the year 1903-1904 There was thus a decrease of 3,186 maunds in the quantity attached and of 88 maunds in the quantity confiscated This is an indication that illicit manufacture has been brought under control, and that very little illicit salt now enters the market

Attachments releases and confiscations in the saliferous districts, including Orissa

21 During the year under review, the number of seizures and unsuccessful house searches was 563 and 8, respectively, as against 909 and 19 in the previous year There were no unsuccessful house searches in the districts of Balasore, Puri, Khulna, Howrah and Chittagong, while in other districts the number of such cases was small The general percentage of unsuccessful house searches to seizures was 1 4, against 1 9 in the previous year

Number of seizures and unsuccessful searches

22. There were 423 prosecutions during the year, against 577 in 1903 1904. Out of 526 persons arrested and brought to trial, 502 were convicted, showing a percentage of 95 4. Cases of illicit manufacture of salt (section 9, Act XII of 1882) numbered 331, as compared with 500 in

Number of cases instituted under Acts VII (B C) of 1864 and XII of 1882

the previous year. The proportion of persons convicted of this offence was 95 per cent of those brought to trial. The decrease in the number of cases was shared by all the districts, and is generally ascribed to the vigilance and systematic patrolling of the Salt officers, to the prosperous condition of the agriculturists, and also to the cheapening of salt on account of reduction of duty. No cases were reported by the police under Act XII of 1882, nor were any cases lost owing to the failure of the special police head constables to attend house searches. During the year 20 opium cases were detected by Salt officers as against one in the previous year. In the districts of the 24-Parganas, Chittagong and Cuttack, information of excise cases was also given by Salt officers either to the police or to Excise officers. The Commissioner of Excise and Salt reports that there is now practically no salt crime in Orissa.

Fines, forfeitures and rewards

23. The fines and forfeitures realised during the year amounted to Rs 3,780, while Rs 3,992 were disbursed as rewards. The corresponding figures for the previous year were Rs 4,991 and Rs 6,193. The decrease was due to the smaller number of cases.

CHAPTER V.—FINANCIAL RESULTS.

Receipts and charges

25. The financial results of the administration of the Salt Department for the year, as compared with those of 1903-1904, show an increase of Rs 5,60,562, or 2·6 per cent, in the receipts, and a decrease of Rs 15,304, or 3·09 per cent., in the charges, giving a net revenue of Rs 2,18,93,051, which exceeds that of 1903-1904 by Rs 5,75,866, or 2·7 per cent. It is to be noted that the charges do not include a proportionate share of the cost of the Customs Preventive Service, which is largely employed in safe-guarding the salt revenue. The increase in receipts occurs mainly under the two heads of Import duty on salt and Rent of warehouses. The increase under these heads was due to a large increase in the quantity of salt imported and bonded during the year under report. The increase of Rs 2,722 under the head "7.—Value of stamps on application for rawanas" was caused by the Imperial share of stamp revenue having been raised from one-fourth to one half, with effect from the year under review.

There was a decrease of Rs 5,016 and Rs 10,501 in the charges under the heads "Refunds of Customs duty on salt" and "Charges of the Salt Department," respectively, but a slight increase, viz, Rs. 213 under the head "Salaries, ware houses and rewards."

Charges of the Salt Department

26. The charges during the year under report amounted in all to Rs 2,33,685, against Rs. 2,36,120 in the previous year, showing a decrease of 1·03 per cent.

CHAPTER VI.—MISCELLANEOUS.

Trade in saltpetre.

29. The quantity of salt educed in the manufacture of saltpetre and removed from all the refineries in the Province on payment of duty during the year was 15,594 maunds, as compared with 22,276 maunds similarly removed in 1903-1904.

The number of licensed saltpetre refineries at work in Calcutta and its environs was three against four in the previous year, the decrease being due to the abolition of a refinery at Kakurgachi in August 1904. The refineries were situated at Soorah, Kakurgachi and Ultadingi. At Soorah and Ultadingi eduction of salt was carried on, at Kakurgachi no salt was educed in the process of refinement.

The quantity of refined saltpetre produced in the refineries was 25,953 maunds, against 38,687 maunds, and the quantity of salt educed was 2,518 maunds, against 2,999 maunds in the previous year. The quantity of salt excised was 1,260 maunds, against 2,560 maunds, and the *sitta* or impure salt produced was 2,130 maunds, against 2,252 in the preceding year. The decrease of 12,734 maunds in the outturn of refined saltpetre is attributable to the abolition of the refinery at Kakurgachi, to the small work done in the

Ultadingi refinery after October 1904, when the licensee received a notice from the owner of the land to quit the site which was required for the purpose of a market, and to general depression in the trade The decline of 1,300 maunds in the quantity of educed salt that was assessed to duty was a natural consequence of the diminished outturn. The educed salt was used locally in the manufacture of soap and for freezing purposes

The total receipts from license fees and duty realized in Calcutta on the salt educed in the process of manufacturing saltpetre amounted to Rs. 2,670 against Rs 5,320 in the preceding year, showing a decrease of Rs. 2,650 which was due to the causes above mentioned

Conclusion

38 Mr K J Badshah was in charge of the office of the Commissioner of Excise and Salt from the 1st April to the 3rd November 1904, from the afternoon of which date Mr E. Geake held charge till the close of the year, and the Board desire to express their thanks to these officers for their efficient administration of the Department. Mr. L. F Morshead, Collector of Customs, Calcutta, was on furlough from 30th April till January 1905, when he was placed on deputation with the Government of India Mr. B Foley acted for him from 5th May 1904. Mr J A Stevens took over the office of the Superintendent, Preventive Service and Salt *golas*, Calcutta, from Mr. A S Judge on the 30th April 1904, and remained in charge until the close of the year

RESOLUTION REVIEWING THE REPORTS ON THE WORKING OF THE LODGING-HOUSE ACT DURING 1904-5

MUNICIPAL DEPARTMENT—SANITATION.

Darjeeling, the 8th September 1905

RESOLUTION No 2393T—M

READ—

The Reports from the Commissioners of Divisions on the working of the Puri Lodging-House Act, IV (B C) of 1871, as amended by Act II (B C) of 1879, and I (B C) of 1884, during the year 1904-5 in the various places to which it has been extended

Read also—

The Resolution reviewing the reports on the working of the Act during the year 1903-4

The Reports on the working of the Lodging-House Act are due to Government on the 1st June, but none of them was received by that date, while the report from the Patna Division was not received till the 28th August. The Lieutenant-Governor must insist on the punctual submission of these reports in future

2. During the year 1904-5 the Act was extended to the town of Naihati in the district of the 24-Parganas, to the villages of Khandiabund and Rautarapur in the district of Puri, and to a portion of the village of Moranpore in the district of Gaya. A small amendment was made in the Model Rules of Business framed under section 38 of the Act to provide for the appointment of the members of Lodging-House Committees by Commissioners of Divisions instead of by the Lieutenant-Governor

3 The number of licensed lodging-houses fell from 2,045 in 1903-4 to 1,842, but the number of persons for whom accommodation was provided was about the same, viz, 67,328 against 67,863 There was a smaller attendance of pilgrims at Sitakund, where the previous year had been unusually auspicious for pilgrimage On the other hand, there was an increased attendance at Gaya, and the number of persons for whom accommodation was provided rose from 26,055 to 28,180 The variations elsewhere were unimportant

4 The income of the funds during the year was Rs 79,5?7, which is larger by Rs 9,830 than that of the previous year, if the munificent gift of Rs 33,648 made in that year by Babu Kanai Lal Bogla of Calcutta for the construction of a rest-house at Puri be left out of account The increase is due principally to the larger attendance of pilgrims and stricter supervision of lodging-houses at Gaya, where the license fees rose from Rs 26,287 to Rs 28,306 and the fines from Rs. 730 to Rs 4,962 The total expenditure was Rs 1,01,990 against Rs 1,01 708, and the closing balance was reduced from Rs. 58,030 to Rs 35,533 The Puri Fund has, in addition to its closing balance of Rs. 4,910, a sum of Rs 30,000 invested in Government promissory notes.

5. The health of the pilgrims was generally good, and there was no serious outbreak of epidemic disease In Puri there was a most gratifying absence of cholera, the total number of persons admitted to hospital on account of this disease being only 46 Much, however, remains to be done for the sanitation of this town before it can be considered free from all danger of a cholera epidemic Reform is required in respect of drainage, water supply and the introduction of an improved type of private latrine. A scheme for the drainage of the town was completed during the year, and has been carefully considered by the local authorities A small committee has now been appointed by the Lieutenant-Governor to decide finally as to the site for the main outfall and the treatment of the existing Baradand drains As soon as these details are settled, work will be commenced and continued as funds permit. A rough scheme for the provision of a pure water supply has been prepared by the Sanitary Engineer, but want of funds seems likely to delay its introduction The Health Officer has been successful in securing the provision of impervious latrines in all the lodging houses, and in this way the danger of

pollution to the well-water has been minimized. The Commissioner of Orissa has under his consideration a proposal to increase the rate at which the license fees are levied, in order to meet the heavy expenditure entailed by the drainage and water-supply schemes. The Lieutenant-Governor awaits the submission of his report.

6. The Act has worked well during the year, and the thanks of the Lieutenant-Governor are due to the local officers responsible for its administration.

ORDER.—Ordered that a copy of the Resolution be submitted to the Government of India in the Home Department, and that copies be forwarded to the Commissioners of the Burdwan, Presidency, Chittagong, Patna, Bhagalpur and Orissa Divisions for information.

Ordered also that a copy of the Resolution be communicated to the Sanitary Commissioner and to the Sanitary Board, Bengal, and that it be published in the *Calcutta Gazette* for general information.

By order of the Lieutenant Governor of Bengal,

E. A. GAIT,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, AND OF THE BENGAL VETERINARY COLLEGE FOR THE YEAR 1904-1905

REVENUE DEPARTMENT—AGRICULTURE

Darjeeling, the 9th September 1905.

RESOLUTION—No 2943T—R

READ—

The Annual Report of the Civil Veterinary Department, Bengal, and of the Bengal Veterinary College for the year 1904-1905

The report was due on the 1st July 1905 and was received on the same date.

2. *Veterinary Instruction*—The number of students who attended the Bengal Veterinary College throughout the year under review was 85, practically double the number of the preceding year. The results of the examinations are, in the opinion of the Lieutenant-Governor, highly creditable to the Principal and teaching staff On account of the rapid development of the College, sanction has been accorded to proposals which will effect great changes. An additional area of 106 bighas 19 cottahs, at a cost of Rs 2,15,948, was acquired by Government during the year, and a programme has been drawn up for the construction of buildings, including hostels for students, isolated boxes for diseased horses, a dissecting room, a lecture theatre, and other important works, all urgently required, at an estimated cost of Rs 4,00,000. As the Government of India have recently allotted extra funds to the Government of Bengal for the development of agriculture, including the veterinary department, this Government will now be in a position to complete the buildings more rapidly Proposals are also under consideration to appoint a separate Imperial officer as Principal of the College, as the work of superintendence will in future take up the whole of one officer's time The Lieutenant Governor attaches much importance to the development of this scheme, especially as the College is the recruiting ground for veterinary graduates not only for Bengal but also for Assam

3. *Treatment of Disease*—One hundred and eight horses against 57 of the preceding year were treated in the Belgachia Contagious Diseases' Hospital for glanders and farcy, of which 17 recovered In the whole Province 447 deaths from this disease were reported, of these 413 were diagnosed in the 24-Parganas district. The Glanders and Farcy Act will shortly be brought into force in Calcutta, and thus the prevalence of the disease will be brought more closely to the notice of the horse-owning public

4. The number of deaths of cattle from contagious diseases shows a considerable increase over that of the year 1903-1904, the number having risen from 9,529 to 15,108 The increase was principally due to rinderpest, the number of deaths from which rose from 7,456 to 11,363, this disease was particularly prevalent in Shahabad, a district which scarcely suffered at all in the preceding year Of this number (11,363) only 183 had been previously inoculated. Altogether 13,276 animals were inoculated with the anti-rinderpest serum against 9,454 during the year 1903-1904 These good results are doubtless due to the measures taken by the Superintendent to disseminate the knowledge and value of the use of the serum, by the deputation of Staff Veterinary Assistants to different districts, and by the training of local Veterinary Assistants at Bareilly in inoculation for rinderpest. Foot-and-mouth disease was most prevalent in Ranchi, anthrax in Mymensingh, and hæmorrhagic septicæmia in the Sonthal Parganas Specially good work is reported to have been done in Darbhanga and Saran by Veterinary Assistants on tour in the treatment of cattle for contagious diseases, and the number of deaths reported from these two districts were very small compared with the large number of animals treated

5. *Veterinary Dispensaries and Assistants*—The total number of dispensaries, excluding the Bengal Veterinary College, working at the close of the year under review was 21 against 22 of the preceding year Though the number of patients is apparently less than last year, there has actually been an increase. The Superintendent explains that this is due to the fact that in one dispensary last year each visit of an out-patient was

reckoned as that of a new patient, and the error has now been corrected Of the dispensaries established during the previous year, the Dinajpur Dispensary has had no in-patients owing to the difficulty in acquiring land for the necessary buildings, but it has done good work amongst out-patients. The Noakhali Dispensary had unfortunately to be closed owing to the impossibility of securing the services of a qualified Veterinary Assistant, and in Purnea, owing to the fact that its dispensary was placed on a bad site, which will be changed, little or nothing was done The difficulty experienced at Noakhali the Lieutenant-Governor hopes to overcome by the scheme which is now under contemplation for the complete reorganization of the Veterinary Department including the creation of a graded service. The scheme cannot be brought into force at once, but with the rapid extension of the Bengal Veterinary College, and with the improved prospects which will be opened out to officers of the Department, His Honour is confident that in future there will not be the present difficulty in meeting the demands of the various districts for Veterinary Assistants, and that ultimately every subdivision in Bengal will have its own itinerant as well as stationary Veterinary Assistant The difficulties encountered at Dinajpur and Purnea foreshadow others that may be met with in the development of the Department To cope with them, His Honour looks to the District Boards and Municipalities for their loyal support in the matter of the improvement, construction, and extension of Dispensary buildings Sir Andrew Fraser has noted with pleasure the action taken in this respect by the Gaya and Ranchi District Boards The thanks of Government are due to the Committees who have supervised the management of the different dispensaries during the year.

6 *Bengal Veterinary Hospital (Belgachia)*—The infirmary continues to do excellent work 2,982 cases were treated and 759 operations performed against 2,819 and 723, respectively, of the previous year. The number of cruelty cases in which animals cruelly treated were sent by Magistrates for treatment dropped from 278 in 1903-04 to 83 A qualified Veterinary Assistant has now been appointed to watch these cases in Court and to advise the Magistrates as to whether the animal should be sent to the infirmary for treatment or not The development of the infirmary forms a portion of the larger scheme for the development of the Bengal Veterinary College.

7. *Breeding Operations*—It is too early as yet to express any opinion on the result of the cattle-breeding farms at Pusa and Sripur It has been decided to drop the proposal to establish bull-acclimatization depôts For the present, it is proposed to send a few bulls from the above farms to Belgachia and to one or two other farms and, if after the period of acclimatization is over, it is found that they are more useful than young bulls imported direct from Pusa and Sripur, the question of establishing depôts may be again revived Several purchases were made during the year for Pusa out of the grant of this Government amounting to Rs 50,000 for bull breeding

8. *Fairs and Shows*—There were 10 fairs and shows during the year against 7 of the preceding year. New fairs were opened at Sripur, Midnapore and Comilla It is to be regretted that, owing to the poor specimens of indigenous breeds of cattle exhibited, it was not possible to distribute the whole prize fund. The Lieutenant-Governor trusts, however, that with a fuller advertisement of the fairs and of the policy of Government in regard to improvement of the best local breeds by the grant of prizes these fairs will attract exhibits by the *bonâ fide* cultivator, as well as by the richer classes, and encourage the breed of better cattle by selection from the best specimens of the best local types.

9. The Lieutenant-Governor has much pleasure in acknowledging the zeal and ability with which Major Raymond during the first half of the year and Captain Trydell during the latter half have managed the Department, and considers that they deserve great credit for the progress which has been made in its development

By order of the Lieutenant-Governor of Bengal,

R W. CARLYLE,

Offg. Chief Secretary to the Govt of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE WORKING OF THE CO-OPERATIVE CREDIT SOCIETIES IN BENGAL FOR THE YEAR 1904-1905

REVENUE DEPARTMENT—LAND REVENUE

Darjeeling, the 9th September 1905

RESOLUTION No 3032T.—R.

READ—

Government Order No 966T.—R., dated 27th May 1904, regarding the establishment of Co operative Credit Societies under Act X of 1904, and its enclosures

Read also—

A report No 3790 C S, dated 12th August 1905, from the Registrar of Co-operative Credit Societies, Bengal, on the working of the Co-operative Credit Societies in Bengal for the year 1904-1905

As this is his first annual report the Registrar has given a short account of the history of the co-operative credit movement in India from the enquiries made by Sir Frederic Nicholson in 1892 to the passing of Act X of 1904.

2 Before Mr Gourlay took over charge of the duties of Registrar, he was permitted to take leave in order that he might acquaint himself with the principles under which Societies had succeeded in western lands Mr Gourlay was enabled to visit Ireland, Germany, Austria, Hungary, Italy and Egypt, and thus to go to the centres in which co-operation has succeeded, and to see for himself the working of successful societies in the villages themselves The information which he collected was recorded in a note which was submitted to the Board of Revenue on his return.

3 Before Act X of 1904 came into force, there were in the districts of this province 58 pioneer societies, founded mainly through the energy of Mr P C Lyon, who was on special duty with this object from November 1901 to February 1902. From the report it appears that there are now 67 societies, of which 32 are in Government estates, 16 in Wards' estates and 19 in private estates. The four societies in Midnapore were founded at the close of the year

4 The most interesting part of the report is the statistical information concerning each of the societies which is given in two tables at the end. A close examination of these tables shows, as Mr. Gourlay points out, that the progress of the movement must not be overestimated. It would not be difficult to make a show and create ephemeral societies, but to do work of an enduring character it will be necessary to go slowly and patiently, so that the people may themselves carry forward the movement and the societies be independent of Government aid.

5 The loans granted to members vary from one rupee to one hundred and one rupees The sixty-seven societies have 3,910 members, but during the year only 2,136 loans have been granted This means either that loans in many instances have been granted for a longer period than one year, or that loans given to members during the past year have not been repaid in this year, or that nearly half the members of the societies did not obtain loans It is probable that all three explanations may be accepted in part. The loans outstanding number 1,105, but there is no information to show how many of these loans are current and how many are overdue, and it would be well in future reports if any information could be given concerning defaulters The distribution of loans amongst members is very uneven. In Khanwatolla (No 29) the whole capital amounts to Rs 211, one man has been granted a loan of Rs 101, leaving Rs 110 to be divided between the other 10 members, and on the other hand in Gando (No 45), where the total capital is Rs. 300 and the reserve fund Rs 27-6, 148 persons have obtained loans, an average of Rs 2 per head. Some of the figures tend to suggest the doubt whether any real business has been done, for example, in Kushmore (No 1), 37 loans have been granted and 37 are outstanding. In Basudebpur (No 3) 9 loans have been granted and 9 are outstanding This suggests that the repayment of the loans was merely a paper transaction Unless the loan is repaid within a reasonable time out of the profits of the transaction for which

the money was lent, the societies will make little progress. The Registrar should pay special attention to this point.

6. The working capital of the societies is largely borrowed, but the Lieutenant-Governor is pleased to note that in 21 societies there are deposits amounting to Rs. 3,236 His Honour would be glad to have more information concerning the deposits of members, the rates of interest which are paid to depositors, and whether the deposits are made for a fixed period As it is most desirable that the societies should be run, as far as is practicable, upon local capital, the capital borrowed from Government under the terms of the Government of India's Resolution should, in future, be distinguished from other borrowed capital.

7. Another point to which the attention of the Registrar should be drawn is the non-payment of interest by the bank to its creditors The reason for this non-payment is not clear, as in almost all cases the cash in hand would amply cover the interest due As it is desirable that the societies should be run from the beginning as business concerns, the people should be taught to meet their liabilities to outsiders promptly The amount of cash in hand is very large, but this is probably due to the fact that statistics were collected at the end of March just before the season for giving out loans. The rate of interest charged to members is in almost all cases 12½ per cent. It seems impossible to run societies on business principles at a less rate No doubt in the future, when the societies have accumulated a capital of their own, it will be possible to decrease this rate, but at the same time it must be remembered that, though 12½ per cent. seems a high rate to a western mind, it is one-half of the lowest rate at which the raiyat can at present obtain small loans

8 Government has allotted a capital of Rs 45,000 for advances to societies during the current year 1905-06, but the Lieutenant-Governor approves of the policy of cautious progress laid down in the report, and is of opinion that the efforts of the Registrar should be concentrated on the existing societies rather than on founding new ones, the development of which he would be unable to watch At the beginning much will depend upon the personal influence of the Registrar, and it is most desirable therefore that that influence should be concentrated on a few societies. At the same time His Honour considers it most desirable to have one or two societies in every district of the province, as it is only by such pioneer work that modifications suited to the needs of the different districts of Bengal will be discovered

9. The Lieutenant-Governor desires to place on record his high appreciation of the assistance which Mr. D. M Hamilton and Mr Pal Chowdhury have given in the establishment of Co-operative Credit Societies, and he acknowledges with pleasure the enthusiasm and zeal with which Mr Gourlay has performed the duties of his office

ORDER —Ordered that a copy of the Resolution with a copy of the report be forwarded to the Board of Revenue, and that another copy be forwarded to Mr. Gourlay, for information.

By order of the Lieutenant Governor of Bengal,

R W CARLYLE,

Offg Chief Secretary to the Government of Bengal

The mean pressure, temperature, etc , are deduced from the traces of the Barograph and Thermograph

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A M of that day

p, passing temporary showers, d, drizzling rain, o, overcast; g, gloomy.

PLAGUE REGULATION E

Dated 28th August 1905

IN exercise of the powers conferred by sub-section (*1*) of section 2 of the Epidemic Diseases Act, 1897 (III of 1897), and by the Notification of the Government of India in the Home Department No 302, dated 4th February 1897, the Lieutenant-Governor of Bengal is pleased to prescribe the following revised rules for preventing the spread of plague in Calcutta:—

Commencement

1 These rules shall come into force at once

Definitions.

2 In these rules,—

(*1*) "Calcutta" means "Calcutta" as defined in the Calcutta Municipal Act, 1899;

(*2*) "Chairman" means the Chairman of the Corporation of Calcutta,

(*3*) "factory" means any premises wherein is carried on any process for, or incidental to, making, altering, repairing, ornamenting, finishing or otherwise adapting for use or sale any article, or part of an article and wherein steam, water or other mechanical power is used in aid of any such process, and

(*4*) "Health Officer" means a Health Officer appointed under rule 3, and includes any Assistant Health Officer or District Medical Officer appointed under rule 3 or rule 4

3 The Chairman may, subject to any general instructions issued by the Local Government,—

Appointment and pay of Health Officer and his staff

(*a*) appoint a person, either by name or by virtue of his office, to be Health Officer, whose duty it shall be to devise and carry out, under the Chairman's general directions, all measures necessary to prevent the spread of the plague,

(*b*) appoint such Assistant Health Officers and subordinate staff as he may consider necessary to assist the Health Officer in carrying out his duties, and

(*c*) fix the pay of the said officers and staff.

Division of Calcutta into sanitary circles or districts.

4 For the proper working of these rules, the Chairman may divide Calcutta into sanitary circles or districts of a convenient size, and may appoint one or more District Medical Officers for each such district.

Ward Committees.

5 In every ward or portion of a ward the Chairman may appoint Ward Committees, and may—

(a) assign to them such duties as he may deem fit in connection with disinfection and other measures for the discovery and prevention of plague, and

(b) provide them with such clerical and subordinate staff as he may consider necessary for the discharge of their duties

General sanitary precautions

6. (1) The Chairman may, by general order, direct that by a specified date any specified sanitary precautions of a simple nature, such as the limewashing of houses, the cleansing of latrines, or the removal of filth or rubbish, shall be carried out

(2) The persons to whom any such order is addressed shall be bound to comply with it

Assistance by Police

7. All Police Officers shall be bound to give to the Health Officer such assistance as he may consider necessary in carrying out these rules, after application for such assistance has been made by the Chairman to the Commissioner of Police

Report by householder

8 If in any house any person suffers from sudden fever, glandular swellings in the neck, armpits or groin, pain in the chest with cough and feeling of oppression, or delirium, or dies from such fever or with any of the foregoing symptoms, the owner of such house, or, if the owner be non-resident, the occupier, or the person who collects rent for the house or any part of it, or any person who would be bound, under section 532 of the Calcutta Municipal Act, 1899, to give information of a death in the house, shall forthwith report the occurrence of such illness or death to the Health Officer or at the nearest police station

Report by medical practitioner

9 Any medical practitioner who attends in any house a case which he has reason to believe to be a case of plague, or which presents symptoms which may be those of plague, shall forthwith report such illness to the Health Officer

Report from factories

10. If any person employed in a factory suffers from sudden fever, glandular swellings in the neck, armpits or groin, pain in the chest with cough and feeling of oppression, or delirium, or dies from such fever or with any of the foregoing symptoms, the occupier of such factory shall immediately report in writing to the Chairman the fact of such illness or death and the name and address of the employé

Right of entry and examination

11 (1) If the Health Officer has reason to believe that there is in any house any person who is suffering from plague, or from a disease which may in his opinion prove to be plague, the owner and occupier of such house shall permit the Health Officer to enter therein and examine all or any inmates thereof

(2) If any such inmate be a female who, according to the custom of the country, does not appear in public, the examination shall be made through a female doctor, female hospital assistant, or other female agency

Disinfection, cleansing, etc, by householder, and inspection by Health Officer

12 The owner and occupier of any house in which a case of plague, or a case which is suspected by the Health Officer to have been one of plague, has occurred, and the head of any family resident therein, shall comply with any direction that may be issued by the Health Officer with regard to—

(a) the disinfection and cleansing of the whole house,

(b) the disinfection or destruction of bedding, clothing and articles of a similar nature,

(c) the improvement of the sanitary condition of the premises,

(d) the removal, in consultation with a competent Engineer, of all partitions, erections or portions of house-walls which obstruct light and ventilation,

(e) the destruction of rats, and

(f) other sanitary matters,

and shall permit the Health Officer to enter his house or premises for the purpose of inspection

Provided that, when any apartment is occupied by a female who, according to the custom of the country, does not appear in public, the Health Officer shall not enter such apartment without giving notice and affording time to such female to withdraw, and shall, when entering such apartment, be accompanied, if possible, by a male member of the family

Disinfection, cleansing, etc, by Health Officer

13 (1) When a case of plague or suspected plague has occurred in a house, the Health Officer shall, if he considers it necessary, himself take measures for the disinfection of the whole house and for carrying out the other precautions referred to in rule 12.

(2) On the death or recovery or removal of any person suffering from plague or suspected plague, the Health Officer shall cause the room occupied by such person to be thoroughly disinfected, and may, if he thinks fit, cause to be similarly disinfected the whole or any part

of the building, and all clothing, bedding and other articles which are likely to have become contaminated shall at once be disinfected or destroyed, adequate compensation being paid.

(3) If disinfection cannot satisfactorily be effected otherwise, the Health Officer, with the sanction of the Chairman, may burn or otherwise demolish any hut or other temporary structure, adequate compensation being paid

(4) The Health Officer may take measures for the disinfection of any premises adjacent to a house in which a case of plague or suspected plague has occurred, and any other premises to which there is, in his opinion, danger of infection being conveyed from such house

General power of Health Officer to enter premises and destroy rats

14 If the Health Officer has reason to believe that rats are dying from plague in any premises, or that any premises are infested with rats, the owner and occupier of such premises shall permit the Health Officer to enter therein, and to take any measures which he may consider necessary for destroying and removing the rats

Prohibition of rag picking

15. (1) Except on conditions separately notified by the Government, no person other than a Municipal servant shall collect or transport rags or other refuse

(2) The Chairman may disinfect, or, at his discretion, destroy, any collections of rags in rag-pickers' houses or rag stores

Hospitals

16 (1) The Chairman may make such provision as he may deem necessary for hospitals for persons suffering from plague.

(2) No person shall be removed to such a hospital without his consent, and the friends and relatives of a sick person in such a hospital shall, if they so desire, be admitted to visit and attend on him

Compensation

17 The Chairman shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these rules

Control by Chairman

18 All powers conferred upon the Health Officer by these rules shall be exercised subject to the general control of the Chairman

Expenses.

19 All expenses incurred in carrying out these rules shall be paid from the Municipal Fund, but the Chairman may in any circumstances recover from any person any amount which such person would under similar circumstances be liable to pay under the Calcutta Municipal Act, 1899, or any rules or bye-laws made thereunder

IRRIGATION DEPARTMENT.

The 4th September 1905

No 22.—Notification.—It is hereby notified for general information that the Hon'ble the Lieutenant-Governor of Bengal proposes, under the provisions of Sections XI and XII of Act V (B C) of 1864, to pass the following Rules in supersession of those now in force on the Nadia Rivers, with effect from the 15th November 1905 :—

W. A. INGLIS,
Secy. to the Govt. of Bengal.

PROPOSED RULES

The rules shall apply to the undermentioned navigable channels, which are included under the designation "Nadia Rivers," viz. :—

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly,
(2) the river Hooghly, from Nadia to its junction with the river Mathabhanga,
(3) the river Jalangi, from the Ganges to Nadia,
(4) the river Bhairab, from the Ganges to Nadia,
(5) the river Mathabhanga, from the Ganges to its junction with the Hooghly,
(6) such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jalangi and the Mathabhanga rivers, respectively.

1. Every vessel entering, or making use of, the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel, notwithstanding that it was measured before.

2. Vessels for the purposes of the determination of tonnage shall be divided into two classes, as follows :—

Class I.—To include all vessels of the usual native types of build.
Class II.—To include all steamers, flats, barges and other square-built boats.

The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 and of these rules, be determined by the following measurements :—

Class I.—

(a) The product of one quarter the length of the vessel from stem to stern, measured outside and along the water-line, multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water-line to the bottom of the vessel, is to be taken as the number of maunds on which toll shall be levied.

(b) The measurement of the length is to be made in feet, rejecting inches. The measurements of the breadth and depth are to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

(c) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 25 maunds, rejecting any remainder of less than 25 maunds. In the case of vessels exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds, rejecting any remainder of less than 100 maunds.

Class II.—

(d) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one-half. For vessels of this class exceeding 5,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds.

(e) In the case of steamers that have been surveyed under Act VI of 1884, the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement.

In all cases, the gross tonnage of steamers, whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine-space.

(f) For vessels of Class II which are furnished with reliable way-bills or manifests, the gross maundage of cargo shown by the manifest may, at the option of the employer of the vessel, be taken as the maundage on which toll shall be charged: provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty. In the case of steamers that have been surveyed under Act VI of 1884, tolls shall be charged on the cargo, as thus determined, in addition to the tolls chargeable on the net tonnage of the steamer itself: provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause.

3. Measurements shall be made daily, as soon as possible, after a vessel arrives at the toll station. From the 1st April to the 30th September, measurements shall be made between the hours of 6 A.M. and 5 P.M., and tickets under Rule 5 shall be delivered between the hours of 7 A.M. and 6 P.M. From the 1st October to the 31st March, measurements shall be made between the hours of 7 A.M. and 4 P.M., and tickets under Rule 5 shall be delivered between the hours of 8 A.M. and 5 P.M.

EXISTING RULES

The following Rules having reference to the undermentioned navigable channels, viz —

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly,
(2) the river Hooghly, from Nadia to its junction with the river Matabhanga,
(3) the river Jallanghi, from the Ganges to Nadia,
(4) the river Bhairab, from the Ganges to Nadia,
(5) the river Matabhanga, from the Ganges to its junction with the Hooghly,
(6) such portions of the river Ganges as may be within 5 miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jallanghi, and the Matabhanga rivers, respectively,

have been passed this day by the Lieutenant-Governor of Bengal under the provisions of sections XI and XII of the "Canals Act, 1864" (No V, B L C), and will have effect from and after the 1st September 1879

1 Except as may be herein provided, every vessel, before leaving any toll-station, shall pay tolls in accordance with Schedule A appended to these rules

2 The tonnage of every vessel shall, for the purpose of the Canals Act, 1864, and of these rules, be determined by the following measurements —

(a) The product of half the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the water-line to the bottom of the vessel is to be taken as the number of maunds upon which toll shall be levied
(b) The measurement of the length is to be made in feet, rejecting inches, and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot
(c) In calculating the amount of toll to be levied any fraction of 100 maunds less than 25 maunds is to be omitted exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only, exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only, and exceeding 75 maunds as 75 maunds only Above 1,000 maunds no fraction of 100 maunds is to be charged
(d) In the case of steamers, the tonnage as determined by clauses (a), (b) and (c) shall be reduced by one-half as an allowance for engine and cabin space
(e) In the case of a steamer that has been surveyed under Act VI of 1884, the tonnage entered in the certificate shall be taken to be the tonnage of the steamer for the purpose of these rules, no further deduction being made for engine space

19 Measurement shall be made between the hours of 6 A M and 6 P M from April 1st to September 30th, and between 7 A M. and 5 P M. from October 1st to March 31st Tickets under Rule 12 shall be issued within the hours of 7 A M. and 5 P M in summer and 8 A M and 5 P.M in winter.

PROPOSED RULES

4 Every cargo vessel, immediately after entering the toll station limits, shall proceed to the measuring ghât or to such other place as the Toll Collector may direct, and shall remain there until it has been measured in accordance with these rules After measurement the vessel shall be removed from the measuring ghât without delay In any case the person in charge of a vessel shall place it in such situation as he may be required to by the Toll Collector

5 After measurement the measuring muharrir shall deliver to the person in charge of the vessel a pass in the form appended (Appendix E I) and shall inform such person verbally of the amount of toll payable by him The person in charge of the vessel shall then take the pass to the Toll Collector's Office, and shall there pay the toll demanded The Toll Collector shall then deliver to him a ticket in the form appended (Appendix E II), which shall bear the stamp of the Toll Collector's Office, and the signature of the Toll Collector, or in his absence, that of the Toll Daroga The vessel shall then be entitled to proceed without further charge

6 The person in charge of a vessel conveying passengers, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which are liable to be injured by detention, shall not be required to attend at the toll office, but shall pay toll to the measuring muharrir at the rate of six annas per oar, as provided in item I of the schedule of tolls hereto annexed, and the muharrir shall deliver to such person a ticket in the form appended (Appendix E III) which shall entitle the vessel to proceed without further charge

7 (a) All tolls are payable on demand, and shall be paid as provided in Rules 5 and 6 before a vessel is allowed to proceed

(b) Provided that vessels belonging to individuals or firms specially approved by the Superintending Engineer of the South-Western Circle, which approval may be withdrawn for any just cause, may be permitted to proceed without prepayment

(c) The person in charge of a vessel approved as in clause (b) shall, on passing a toll station, stop and deliver at the station a form specifying such particulars regarding the vessel and its cargo as may be required by the Superintending Engineer, South-Western Circle

8 The tickets mentioned in Rules 5 and 6 must be kept on board the vessel, and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in Rule 2, and shall demand payment of toll, and unless and until toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of Section IX of the Act

9 If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to pass along any one of the Nadia Rivers, she may be permitted to pass along any other of the rivers without extra charge, except as provided in Rule 13 If the vessel be unable to pass along any of the rivers, the Toll Collector may at his discretion and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel

10 The payment of toll at one toll station shall entitle a vessel to travel once along the whole length of the river on which that toll station is situated, whether or no the cargo is changed during the journey, except as provided in Rule 13

11 A vessel containing passengers, or used for fishing, shall pay toll only once in the same day provided that no passenger vessel shall be allowed this privilege unless returning empty, or conveying the same passengers as on the first trip The "day" to be reckoned from midnight to midnight

12 A cargo vessel, laden or empty, which has paid toll at a toll station, shall not be required to again pay toll if returning to the same toll station on the same day reckoned as in Rule 11, except as provided in Rule 13

13 A vessel which has been measured and paid toll accordingly shall, in case additional cargo is taken on board, or a part or whole of the original cargo is changed for a cargo on which a higher rate of toll is leviable, be subject to re-measurement whether on the same or another day, reckoned as in Rule 11, and to the payment of the amount by which the total toll leviable on the re-measurement exceeds that originally paid

14 Passenger boats having on board cargo other than what is necessary for the use of the passengers for the trip and which measure 25 maunds and upwards shall be dealt with as cargo boats

15 (a) Boats having on board only articles which are necessary for the use of the crew for the trip shall be dealt with as empty

(b) Empty jars, tins, casks, bags, or other receptacles used, or to be used only for the purpose of holding cargo shall not be considered as cargo

16 No cargo shall be taken out of any boat, whether measured or unmeasured, within toll station limits without the permission of the Toll Collector

17 Tickets and passes issued in respect of any vessel, boat, raft, or float are not transferable to any other vessel, boat, raft, or float.

18. (a) Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls.

EXISTING RULES

10 Immediately after entering the chowkey limits, the manjee of every cargo vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement

11 After measurement shall have been duly effected, the measuring mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix E I), and shall inform the manjee verbally of the amount of toll payable by him

12 The manjee shall take the pass to the Toll Collector s Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix E II) which shall entitle him to pass the chowkey limits free of all further charge This ticket shall bear the stamp of the Toll Collector s Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah

13 The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the mohurir in charge of the chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the mohurir a ticket in the form annexed (Appendix E III) which shall entitle such vessel to pass chowkey limits without further charge

6 If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge If the vessel be unable to pass along either river the Toll Collector may, at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel

7 Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours

8 An empty cargo vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time A vessel leaving the chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day

9 Boats or vessels which may have entered the Nadia Rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage

14 Passenger boats having on board cargo other than what is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats

15 Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip shall be considered as empty

16 No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector

17 Tickets and passes are not transferable

18 Passes collected at the chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled

PROPOSED RULES

(b) In case the person in charge of a boat desires to have a duplicate of the ticket mentioned in Rule 5, in order to make over to the owner of the boat or cargo, or for any other legitimate purpose not constituting an evasion or breach of these rules, the Toll Collector shall issue a duplicate at the time the request is made, whether at the time of issue of the original ticket or subsequently

19 Any vessel, raft float, or any number of vessels, rafts or floats fastened or connected together in any way, which, by reason of difficulty of proper control, or of excessive over-all length or breadth or depth, is of such a nature as, in the opinion of the Executive Engineer, Nadia Rivers Division, to be likely to cause unavoidable damage to the bandalling or other training or dredging works in the rivers, or to be likely to cause unavoidable obstruction to the traffic by grounding or sinking, is prohibited from passing into or along any of the channels comprised in the Nadia Rivers

20 A vessel which has been detained under these rules or under Section IX of the Act may not be removed from the Nadia Rivers without the order of the Toll Collector until the toll due has been paid During such detention the manji, owner or agent, must make arrangements for the safety of the vessel and cargo

21 All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Notification No 261, dated the 21st July 1890

22 The Supervisor may by written notice, to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the channels comprising the Nadia Rivers or on the banks

23 No person shall wilfully or negligently allow a vessel to sink in the channels comprising the Nadia Rivers without the permission of the Supervisor

24 In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same

25 When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the Toll Offices, or other prominent places, calling on those concerned to pay to the Toll Collector all toll which may be due, as well as the expenses incurred on the recovery of the vessel and cargo Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure prescribed in Section IX of the Act

26 The purchaser of a vessel sold under the provisions of Section IX of the Act shall have the right to take it out of the channels comprising the Nadia Rivers on the day of purchase, or within such time as may be allowed by the Toll Collector, without payment of tolls

27 When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent requiring the removal of the cargo without delay

28 If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel the notice prescribed in Rule 27 shall be effected by a notice exhibited in his office, and by advertisement in at least two local newspapers

29 All vessels, whether travelling or moored, in the channels comprising the Nadia Rivers, shall, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the lights prescribed above

EXISTING RULES

20. Any person who may have lost or mislaid his measurement ticket may apply for a duplicate Such application shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat

22 No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timber exceeding in all twenty in number, shall pass into or through any of the Nuddea Rivers at one time or abreast

23 No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea Rivers And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following

5 All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea Rivers, as well as boats used by Police Officers on actual duty, shall be exempted from paying tolls This shall not be held to apply to Police Officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation

21 Any officer of Government or other person claiming exemption under Rule 5 shall be supplied by the measuring mohurir with a certificate in the form annexed (Appendix E IV), and shall fill up and return such form to the mohurir who shall thereupon grant a passenger ticket in form (E III) In case of doubt as to the good faith of any claim to exemption from toll, the measuring mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector

25. Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand and on depositing such amount as the Board of Revenue may determine they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue

26. The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station The certificate shall mention the date of passing It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorised to receive payment thereof

PROPOSED RULES.

30 For any contravention of Rules 4, 7(a), 16, 17, 19, 20, 22, 23, 27, 29, or of any notice issued thereunder, the person in charge of the vessel, or other person in fault, shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs 50 or Rs 5 a day for any continuing infringement

MARINE DEPARTMENT

The 15th September 1905

No 92 Marine—It is hereby notified for general information that Hongkong is declared free from plague, and that the regulations for the prevention of the introduction of plague by sea, which were imposed in the ports of Orissa and Chittagong, against vessels arriving from that place, are hereby withdrawn

W A INGLIS,
Secy. to the Govt of Bengal

The 19th September 1905

No 93 Marine—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and in supersession of the rules sanctioned under Notification No 68 Marine, dated the 27th June 1905, the Lieutenant-Governor is pleased, with the previous sanction of the Governor General in Council, to make the following rules for regulating the grant to owners of motor vehicles of licenses to possess and transport petrol for use in such motor vehicles

1 In these rules—

(a) "motor vehicle" includes all vehicles propelled by mechanical means on ordinary roads and motor boats and launches,

(b) "petrol" includes "other dangerous petroleum" used for the propulsion of motor vehicles

2 (1) Licenses may be granted to the owners of motor vehicles—

(a) to possess petrol intended for use in motor vehicles,

(b) to transport petrol on motor vehicles for use in propelling such motor vehicles,

(c) to transport petrol by other means of conveyance by road, rail or water

(2) Such licenses for quantities not exceeding 40 gallons may be granted, in the town and suburbs of Calcutta, by the Commissioner or Deputy Commissioner of Police, and elsewhere by the District Magistrate or such other officer as the Local Government may from time to time, by order in writing, appoint Licenses for quantities exceeding 40 gallons will be granted by the Local Government

(3) The licenses under rule 2 (1), clauses (a) and (b), shall be granted in the annexed Form II and those under rule 2 (1), clause (c) in the annexed Form I

3 The licenses under clauses (a) and (b) of rule 2 (1) shall be granted free of charge, and those under clause (c) of that rule for a fee of Rs 5 The licenses shall remain in force for a period of one year, at the expiry of which they shall expire, but may be renewed

4 Every license shall be subject to the following conditions, namely —

(1) When not carried in a receptacle forming part of a motor vehicle the petrol shall not be kept, used or transported except in iron or steel vessels so substantially constructed as not to be liable, save by gross negligence or extraordinary accident, to be broken or become defective or insecure

Every such vessel shall be so constructed and maintained that no leakage, whether of liquid or vapour, can take place therefrom

(2) Every such vessel, when used for transporting or keeping petrol, shall have attached thereto a metallic or enamelled label in conspicuous characters, stating the description of the petrol with the addition of the words "highly inflammable" legibly and indelibly stamped or marked thereon, and with the addition of the name and address of the owner

(3) Every such vessel shall have an air-space equal to one tenth of its capacity to allow for expansion of the petrol

(4) No such vessel shall contain more than four gallons

(5) Before repairs are done to any such vessel, it shall, as far as practicable, be cleaned by the removal of all petrol and of all dangerous vapours derived from the same

(6) The store house or building in which the petrol is stored shall be well ventilated and constructed of uninflammable materials But any building having a capacity of not more than 10 gallons owned by the owner of a motor vehicle or a petty dealer may have its doors and windows constructed of wood

UNIVERSITY ENTRANCE EXAMINATION

PRIVATE CANDIDATES

1 A student who has not attended any H E School recognised by the University since the 1st September next preceding the Entrance examination, or who has been transferred after the 1st September to the school from which he appears without the consent of the Divisional Inspector of Schools will be treated as a private candidate

2 School teachers are classed as "Private candidates"

3 Private candidates desirous of sitting at the ensuing University Entrance examination must appear at a test-examination in one of the undermentioned schools —

(1) Dacca Collegiate School
(2) Mymensingh Zilla School
(3) Faridpur Zilla School
(4) Barisal Zilla School.

4 The test-examinations of the zilla schools will be held on the 8th January 1906 and the following days The date of examination of the Collegiate School should be ascertained from the Head Master of that school

5 Every private candidate must submit his application to the Head Master of one of the schools named above at least three weeks before the test examination, and satisfy the following conditions —

(a) that he has not failed at the test-examination of any Entrance school during the current session;
(b) that he has not left school from any class lower than the first, and
(c) that he has left the school in which he last read with a transfer certificate, or (in the case of a candidate who appeared at any previous examination) he is in possession of the Registrar's receipt

A school-master is required to produce a certificate from the Secretary of the school in which he has served as a *bonâ-fide* teacher for a period not less than six months, or if he has served in several schools, he must produce certificates from the Secretaries of each of them to prove that he has served as a *bonâ-fide* teacher in all of them.

6 Every private candidate must pay a fee of Rs 2 to the Head Master of the school at which he appears for examination After payment of the necessary expenses, the balance of the fees will be paid to the examiners as remuneration

7 He must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, and satisfy him as to his character, otherwise he will not be admitted to the test-examination

8 The Head Masters of the schools named above are requested to send to this office a statement showing the marks gained by each private candidate in each subject at the test-examination within a fortnight from the date of the said examination; and are authorised to sign the application forms of eligible candidates, which should be forwarded to this office for countersignature and return in due time

9 Private candidates should arrange to remit their examination fees, together with the application forms, direct to the Registrar, so as to reach him on or before the 31st January 1906

10 The next Entrance examination begins on the 12th March 1906.

F A AND B A EXAMINATIONS

1 Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bonâ-fide* teachers of recognised English schools will be admitted to the F A and B A examinations as private candidates, provided they have served in their respective capacities for a period of two academical years

Bonâ-fide teachers are those who hold paid appointments in English schools, teaching up to at least the Middle English standard

2 Exceptions to the above rule will be made in the case of those candidates who, after failure at a previous examination, have served for six months since the date of the last examination held by the University If, however, a candidate has not completed six months' service at the time of submitting his application, he must give a written guarantee that he will remain in his post until he completes six months' service before the examination

3. School-masters should submit, with their applications, certificates of character and length of service from the Secretaries of their respective schools, which will be retained and also the University certificates, in proof of their having passed the Entrance or F A examination, as the case may be Candidates who have previously failed at the examination should produce the Registrar's receipt in addition

4 Applications must reach this office on or before the 7th January 1906

5 Fees should be remitted by the candidates direct to the Registrar of the University of Calcutta, together with the application forms countersigned by the Inspector of Schools, so as to reach the office of the Registrar on or before the 12th February 1906

6 Under section 19 of the Indian Universities Act, candidates who intend to appear at the F A, B A or M A examination of the University of Calcutta, other than as regular students of some affiliated college, are requested in the first instance to apply for and obtain the permission of the Senate Their applications cannot be accepted unless they are supported by the permission of the Senate

5 The Head Master of an institution (one of those named above) should direct private students to appear before him not later than the 2nd January with their applications for admission to the Entrance Examination, and in the case of those candidates who have satisfied that test, he will cause them to sign their application forms in his presence, and will grant the necessary certificates, and then forward the applications to this office for counter-signature after which they will be sent by the Inspector *direct* to the candidates

6 Expedition is necessary in carrying out all these instructions, and candidates should be *most careful* to give their names and addresses written legibly and distinctly, so that no mistake may be likely to occur

7 *Under no circumstance should the entrance fee be sent to this office*

8 Private students will understand that the test examination of any schools other than those named above will not be accepted by this office

9 Addresses of private students should be supplied to this office

10 The Entrance Examination will be held on the 12th March 1906 and the following days

Simla, the 4th September 1905

No 4094—3-12—The Governor-General in Council is pleased, in exercise of the powers conferred by sections 5 and 7 of the Indian Explosives Act, 1884 (IV of 1884), to make the following amendments in the rules to regulate the transport and importation of explosives published by the notification in the Home Department No 5528, dated the 11th October 1901, as amended by notifications in the Home Department No 620Public, dated the 21st February 1902, and No 2346Public, dated the 11th June 1903

AMENDMENTS

I —In rule 1, Class 6, *Ammunition class*, *after* the words "Division 1 comprises exclusively— safety cartridges safety fuzes for blasting" *omit* the words—"Fuzes for shells, and tubes friction for guns, provided there be no more than five fuzes or 20 tubes in one package, and that the package be a hermetically sealed metal cylinder "

II —For rule 2 *substitute* the following, namely

"2 The following general rules shall be observed with respect to the packing of explosives for conveyance

(*1*) Unless the context otherwise requires—

the expression "outer package" means a box, barrel, case or cylinder, of wood metal or other solid material, of such strength, construction and character that it will not be broken or accidentally opened, nor become defective or insecure whilst being conveyed, and will not allow any explosive to escape,

the expression 'inner package' means a substantial case, bag, canister or other receptacle, made and closed so as to prevent any explosive from escaping,

the expression "authorized explosive" means exclusively an explosive included in a List of Authorized Explosives prepared by the Chief Inspector of Explosives with the Government of India, and published annually in the *Gazette of India*, and in force for the time being,

the expression "propellant" means an authorized explosive of Class 3 adapted and intended exclusively for use as a propelling charge in cannon or small arms, and

the expression "special authority" means a written authority granted by the Chief Inspector of Explosives, to which may be attached such conditions as may, in the opinion of the Chief Inspector of Explosives, be necessary to meet the special requirements of the case

(*2*) The interior of every package shall be free from grit and otherwise clean

(*3*) Save as hereinafter provided, there shall not be any iron or steel in the construction of any package unless the same is covered with suitable material so as effectually to prevent the exposure of such iron or steel

(4) Every package when actually used for the packing of one explosive shall not be used for the packing of any other explosive or any other article or substance

Provided that this rule shall not prevent the packing of inner packages containing a propellant in an outer package with inner packages containing gunpowder or another propellant

Provided also that this rule shall not prevent the packing of any article which is not of an inflammable or explosive nature, or liable to cause fire or explosion, in the same package as an explosive of the 1st Division of the 6th (Ammunition) Class

(5) Subject to the foregoing provisions, the following shall be the method of packing authorized explosives of the various classes, respectively, and the maximum amounts which may be in any one package

Class	Method of packing	Amount in any one outer package	Amount in any one inner package
Class 1	When the quantity in any one consignment does not exceed 5 lbs in amount, a single outer package, otherwise		
	A double package, the inner and outer packages being as above defined	100 lbs Provided that where gunpowder and propellant are packed together the amount shall not exceed— 50 lbs	100 lbs 25 lbs
Class 2	As for Class 1	50 lbs	50 lbs.
Class 3 Division 1, other than propellants	As for Class 1 provided that either the outer or inner package shall be thoroughly waterproof, and both shall be without metal in the construction thereof	60 lbs	5 lbs
Class 3, Division 1, propellants	As for Class 1	50 lbs	50 lbs
Class 3 Division 2, other than Picric Acid and Wet Guncotton	As for Class 1	50 lbs	50 lbs
Picric Acid	As for Class 1	Unlimited	Unlimited
Guncotton so wetted with water as to be absolutely uninflammable	As for Class 1, provided that the inner or outer package, or both of them, shall be of such a nature, and so closed, as to prevent any material loss of moisture during conveyance	Unlimited	Unlimited
Class 4	As for Class 1	50 lbs	50 lbs
Class 5	Packed in water A treble package, the innermost package being a bag permeable to water, enclosed in a case containing sufficient water to ensure the explosive being kept constantly wet, and the outer package containing sufficient water constantly to surround the case Both the case and the outer package shall be of such construction as will not allow water to escape If the explosive is of such character that it cannot be packed in a thoroughly wet condition, it shall be packed in accordance with conditions set forth in a special authority	200 lbs	25 lbs
Class 6, Division 1, other than Pin fire cartridges for pistols	A single outer package Provided that the above general rule (3) shall not apply to explosives of this Division Provided also that bulleted cartridges of a calibre exceeding 0 5 inch and belonging to this Division shall be packed in such a manner that the point of any bullet cannot come in contact with the cap of another cartridge	Unlimited	..*
Pin fire cartridges for pistols	(a) Not exceeding 50 in number in any one consignment —So packed in a single package that the bases lie alternately in opposite directions The bases and pins shall be so fitted into perforations in millboard or other suitable material as to prevent the firing of any one of the said cartridges by an explosion in any other of the said cartridges	50 in number	
	(b) Exceeding 50 in number —In an inner and outer package, the cartridges being packed in inner packages with millboard as above required.	2,500 in number	50 in number

Class	Method of packing	Amount in any one outer package	Amount in any one inner package.
Class 6, Division 2	Explosives made up into cartridges or charges for cannon, shells, torpedoes, mines blasting or other like purposes, shall be packed in such manner and in such quantity as is required for the same explosive when not so made up, provided that, where a double package is required, the enclosing case of such cartridges or charges may, if it satisfies the conditions required for an inner package, be held to be such inner package		
	Other ammunition of this Division —A single outer package	100 lbs	
Class 6, Division 3 other than Detonators and Electric Detonators	As for Class 1 Provided that bulleted cartridges of a calibre exceeding 0 5 inch and belonging to this Division shall be packed in such a manner that the point of any bullet cannot come in contact with the cap of another cartridge	50 lbs	2 lbs or 10 in number which ever be the greater
Detonators	(*a*) Not exceeding 1,000 in any one consignment —As for Class 1, provided that the detonators and the spaces between the same and between the sides of the inner package and the said detonators shall all be filled as far as practicable, with fine sawdust or other similar material, a layer of felt or other soft yielding material shall be placed between both ends of all the detonators and the interior of the inner package in which the same are placed, in such manner, and so secured, that both ends of the detonators will rest upon the said cotton wool or other material, every inner package, if of metal, to be lined throughout with paper or other soft material, and	1,000 in number	100 in number
	(*b*) Exceeding 1,000 detonators The detonators shall be packed in inner packages, with sawdust and cotton wool as above described Such inner packages shall be placed inside a substantial case of wood or metal, made and closed so as to prevent any of the inner packages escaping therefrom, and such case shall be placed inside an outer package in such manner and so secured as to leave a clear space of not less than three inches between the case and every part of the interior of the said outer package, notwithstanding that such clear space may, if preferred, be filled with sawdust, straw, or other similar material, or may contain a light framework or battens of wood to keep the case aforesaid in position in the outer package, and (*c*) where the number of detonators exceeds 5,000, such outer package shall be provided with handles or other contrivance by means of which it can be safely and conveniently carried	10,000 in number	100 in number
Electric Detonators	As for Class 1, provided that where the number in any outer package exceeds 3,000, such outer package shall be provided with handles or other contrivance, by means of which it can be safely and conveniently carried	5,000 in number	100 in number
Class 7, Division 1	Double package, the inner package being hermetically closed, and contained in an outer package as above defined	20 lbs	1 lb
Class 7, Division 2	Single outer package, provided that the above general rule (8) shall not apply to explosives of this Division	100 lbs	

(6) Nothing in this rule shall be deemed to prohibit the use of an additional package, whether inner or outer, provided that such additional package shall not be of such character as shall have been prohibited in writing by the Chief Inspector of Explosives

(7) An explosive which is not an authorized explosive shall be packed in such manner as may be directed by a special authority with reference to such explosive.

(8) On the outermost package there shall be affixed in conspicuous characters, by means of a brand or securely attached label or other mark, the word "Explosive," the name of the explosive, the number of the class and division to which it belongs, and the name of the manufacturer or sender

In the case of explosives of Classes 3 and 4, there shall be added the date of manufacture or issue from the factory, or such sign indicating such date as may be approved by the Chief Inspector of Explosives

Provided that in the case of cartridges or charges for cannon, shells, mines, blasting or other like purpose, which do not contain their own means of ignition, the marking shall be as for the explosive when not so made up

Provided also that in the case of explosives of Class 6, Division I (Safety Fuzes excepted), there shall be added the words 'Not liable to explode in bulk"

Provided also that in the case of Pin-fire cartridges for pistols there shall be added the words "Pin-fire cartridges"

Provided also that in the case of Safety Fuzes or Gunpowder the word "Explosive" and the number of the class and division may be omitted

Provided also that, where an outer package contains more than one explosive, the marking above required shall be affixed separately in respect of each explosive so contained

(9) To meet special cases exemption may be granted by special authority from the observance of any one or more of the conditions imposed by this rule."

III—For rule 8 *substitute* the following, namely

"8 An explosive shall not be imported by sea or land into British India, except under and in accordance with the conditions of a license to import the explosive granted under these rules

Provided that any explosive other than an explosive specified in rule 11 may, previous to the grant of an importation license, if it is included in a list published under clause (*1*) of rule 2 and for the time being in force, and if it is certified to be of British manufacture or, if not of British manufacture, if it is imported from the United Kingdom and covered by the certificate granted by one of His Majesty's Inspectors of Explosives in England, be landed in accordance with such regulations as the local Government may prescribe in this behalf, and be stored in a place set apart by the local Government for this purpose, or in any of such private magazines as the said Government may have notified as being suitable for this purpose Any such explosive of British manufacture may also be transported by rail to any of such private magazines previous to the grant of an importation license The Governor-General in Council may extend to any such explosive not of British manufacture regarding which he is satisfied that it has been manufactured under adequate official supervision the privilege of landing granted by this proviso but such explosives may not be transported by rail until an importation license has been granted

Before any explosive is landed under the proviso to this rule, the consignee shall give to the Chief Customs Officer of the Port such undertaking, with or without security as the said officer thinks sufficient, to obey, in the event of the explosive failing to satisfy the prescribed tests, such directions as to its disposal as the local Government may see fit to prescribe

If samples are taken by an officer deputed by the Chief Customs Officer on board the ship on its arrival the procedure shall be that prescribed in rule 15"

IV—For rule 14 *substitute* the following, namely

"14 No license shall be granted for the importation of any explosive of the description referred to in rule 13, unless it is an explosive authorized for manufacture in or importation into the United Kingdom for general sale and unless its importation is recommended by the Chief Inspector of Explosives with the Government of India and, if it is an explosive for which a test or examination has been prescribed by or under the orders of the Government of India unless samples of the explosive taken as hereinafter provided are certified by the Chemical Examiner or some other officer appointed by the local Government in this behalf to have passed the test or examination from time to time prescribed."

RESOLUTION ON THE ADMINISTRATION REPORT OF THE ORISSA PORTS FOR THE YEAR 1904-1905

No. 1527Marine

Government of Bengal.

MARINE DEPARTMENT.

Dated Calcutta, the 13th September 1905

Administration Report of the Orissa Ports for the year 1904-05.

RESOLUTION.

READ—

Letter No 717C, dated 20th July 1905, from the Commissioner of the Orissa Division submitting the Report on the Administration of the Orissa Ports for the year 1904-05

The report submitted by the Commissioner shows that the sea-borne trad of Orissa continues to decrease though only slightly. During 1903-04, th value of the trade was Rs 82,75,513, and this has now fallen to Rs. 81,04,752 or a decrease of 2 per cent. Compared with 1894-95, when the value of th trade was Rs. 1,19,94,126, the decrease during the decade has been 32 per cent This large decrease is almost entirely due to the falling off in the carriage o rice, much of which now goes by railway.

2 This shrinkage in the trade has naturally reacted on the shipping and the number of vessels visiting the ports has fallen off from 374 in 1894-95 to 215, or a decrease of 42 per cent During the previous year the number was 225. The tonnage of the vessels, as compared with last year, has, however, slightly increased

3. The receipts of the ports during the year amounted to Rs. 14,054, against Rs 15,582 in 1903-04, showing a decrease of Rs 1,528

4 The expenditure amounted to Rs. 15,451, against Rs. 14,615 in the previous year, showing an increase of Rs 836 The increase is specially marked in Balasore and is partly due to the cost of acquiring land for the Chandipur Flagstaff.

5 The expenditure during the year exceeded the receipts, but owing to the balance of Rs. 13,088 in hand, no contribution was required from Government.

6 The passenger traffic between Orissa and Calcutta is fairly steady Almost the whole of this traffic is with the port of Chandballi, and the numbers carried between Calcutta and this port and *vice versa* were 86,986

7 The ports were inspected by the Port Officer, Calcutta, during the year—and their condition found satisfactory. The erosion of Shortt's Island to the south-east continues during the south-west monsoon. The stone structure of the formerlight is now standing in the sea and is about 350 feet outside the high water-line of the island. The island is making up on its western side more rapidly than it is now cutting away to the eastward, although the new formation is very low and offers no protection at present. The two spits at the entrance of the lagoon continue to close and the lagoon is now dry at low water

8. The general health of the ports was, on the whole, good. One suspected case of plague was landed from the steamer *Curlew* and proved fatal Fifteen cases of cholera were landed from the steamers *Curlew* and *Jattra*, of which 12 proved fatal

By order of the Lieutenant-Governor of Bengal,

W. A. INGLIS,

Secretary to the Government of Bengal.

REPORT ON THE ADMINISTRATION OF THE INCOME-TAX IN BENGAL DURING THE THREE YEARS ENDING 31st MARCH 1905.

NOTIFICATION

No 407T.-S R.—The 11th September 1905.—The following extracts from the Report of the Board of Revenue on the Administration of the Income tax in Bengal during the three years ending 31st March 1905, are published for general information.

E. A. GAIT,
Offg. Secy to the Govt. of Bengal.

No 5703B, dated Calcutta, the 14th August 1905

From—H F SAMMAN, Esq., I C S, Offg Secy to the Board of Revenue, L P,
To—The Secretary to the Government of Bengal, Financial Department

Member in charge
THE HON BLE MR. K G GUPTA, I C S

I AM directed to submit the following report on the administration of Income-tax in the Lower Provinces during the triennium ending on the 31st March 1905.

Administration of the Income tax

2 Act II of 1886 was amended by Act XI of 1903 exempting income under Rs. 1,000 from liability to the tax, with effect from the beginning of 1903-04

Mufassal Establishment

4 In 1904-1905 a thorough reorganization took place in the assessing establishments in the mufassal, by reason of the diminution of work effected by the revision of the law. The number of assessors was reduced from 43 to 24, and they were posted to divisions instead of to districts Of these 24 assessors 3 were allotted to each of the Burdwan, Presidency, Rajshahi, Dacca, Bhagalpur, and Chota Nagpur Divisions, one each to the Chittagong and Orissa Divisions and 4 to the Patna Division. These 24 appointments were graded as follows —

Grade Rs	Number of appointments in the grade
100	12
90	6
80	6

At the same time the maximum limit of monthly travelling allowance was raised in the case of the lower grades from Rs. 50 and Rs 60 to Rs. 60 and Rs. 70, respectively

Each assessor was allowed a clerk on Rs. 20 and 2 peons on Rs 6 each per mensem, with the following exceptions —

(*a*) In the districts of the Chota-Nagpur Division other than Manbhum no clerk was allowed.

(*b*) In Darjeeling the peons were allowed to draw pay at the rate of Rs. 8 per mensem.

The clerical establishment entertained at the head-quarters was reduced to one clerk for each district. One clerk on Rs. 30 for six months, entertained in the offices of the Commissioners of the Burdwan, Rajshahi and the Patna Divisions and one for the whole year in the Presidency Division were abolished. The period of the entertainment of the clerk in the Orissa Commissioner's office was curtailed from eight to six months.

Calcutta Establishment

5. In Calcutta there was no change in the number of assessors, but the office clerks were reduced by eight.

Revenue derived from Income tax during the triennium

6. The receipts, charges and net revenue derived from the collection of Income-tax during each of the three years 1902-03, 1903-04 and 1904-05, were as follows —

Year	Receipts	Charges	Percentage of charges	Net revenue.
	Rs	Rs.	Rs	Rs
1904-05	50,36,527	1,67,787	3 3	48,68,740
1903-04	49,61,823	1,94,938	3 9	47,66,885
1902-03	58,66,787	2,12,463	3 6	56,54,324

It will be seen that in 1903-04 there was a decrease in the net revenue of 15 7 per cent., but this was followed by an increase of Rs. 1,01,855, or 2·1 per cent. in 1904-05 The decrease in the former year was wholly due to the enactment of Act XI of 1903. The average net receipts of the triennium shew a decrease of Rs 79,014, or 1 5 per cent, as compared with the figures of the preceding triennium. If, however, collections on incomes below Rs. 1,000 be excluded from the figures of the years 1899-1900 to 1902-03, the average annual net revenue of the triennium under report shows an increase of Rs. 5,41,010 or 12·8 per cent.

Demand on account of income tax

7. The number of persons finally assessed and the final demand during each year of the triennium were as follows —

Year	Number of persons finally assessed in			Final demand in		
	Calcutta	Other districts	Total of columns 2 & 3	Calcutta.	Other districts	Total of columns 5 & 6
1	2	3	4	5	6	7
				Rs	Rs	Rs
1904-1905	16 431	36 062	52,493	25 20,391	19,42,186	44,62,577
1903-1904	16 446	35 032	51,478	25,34,906	18,87 352	44,22 258
1902 1903	27,696	98 413	126,109	27 19 213	25,54,791	52,74,004

The final number of assessees and the final demand for the year 1904 1905 show an increase of 1,015 persons and Rs. 40,319 or 2 and ·9 per cent., as compared with the figures of 1903-1904, and a decrease of 73,616 persons and of Rs. 8,11,427 or 58 4 and 15·4 per cent., respectively, as compared with the figures of 1902-1903 Excluding exemptions under the recent legislation from the figures of 1902-1903, the number of persons finally assessed and the final demand for the year 1904-1905 rose by 6,051 persons and by Rs. 68,093 or by 13·03 and 1 5 per cent., respectively. Taking the average figures of three years, the final number of assessees and the final demand during the triennium under report shew a decrease of 43,389 persons and Rs. 1,21,072 or 36·1 and 2·5 per cent, respectively, as compared with the figures of the preceding triennium. If, however, the exemptions under Act XI of 1903 be excluded from the figures of the previous triennium and also from those of the first year of the triennium under report, both the average final number of assessees and the average final demand of the triennium under report shew an increase, viz., of 6,438 persons and Rs. 4,23,237, or 14 7 and 10·6 per cent., respectively. The increase is the result of more careful inquiry and assessment, of the more extended facilities of communication, of the expansion of trade and of the growth of prosperity.

Number of assessees and the amount of tax collected under Part IV, in the grade of Rs 1,000—1,250 during the triennium

8 The Government of India in their letter No. 7678S R, dated the 8th December 1904, drew attention to the relatively large increase in the number of assessees under Part IV in the grade of Rs 1,000—1,250 The following statement compares, the number of such assessees and the amount of tax collected during the triennium under report —

Year	Number of assessees under Part IV in the grade of Rs 1,000—1,250	Amount of tax collected under Part IV in the grade of Rs 1,000—1,250
		Rs
1904-05	15,234	3,04,673
1903-04	14,626	2,89,851
1902-03	10,697	2,13,528

The number of persons assessed and the amount of tax collected show an increase of 608 and 4,537 persons, or 4·2 and 42 4 per cent, and of Rs. 14,822 and Rs 91,145, or 5 1, and 42 7, respectively, as compared with the figures of the two preceding years The increase in 1903-04 is no doubt very striking Such increase, however, is by no means confined to Part IV, but extends to the same grade of assessees of various classes under Part I, in whose case the increase is even more pronounced and regarding whom there is no suspicion of over-assessment The fact is that the very substantial reduction in the number of assessees effected by Act XI of 1903 left the assessing Agency more time to make careful inquiries, which was the more necessary to do, as the result of the classification meant paying Rs. 20 or total exemption instead of merely the next lowest grade as previously. While it must be conceded that a few assessors were not judicious in making assessments and were guilty of excessive zeal, in the large majority of cases there was no over-assessment and the increase effected in the class under notice was the legitimate result of the change in the law, joined with greater care and thoroughness in investigating the grounds of exemption

Incidence of the demand on population

9 The following statement shows the proportion of persons assessed to the population and the villages in the province and the incidence of the tax during the triennium under report —

Year	Proportion of persons assessed to population		Proportion of persons assessed to villages		Number of persons in proportion to each rupee of tax assessed	Remarks
	Persons	Population	Persons	Villages		
1904-1905	1	1,418	26	100	17	
1903-1904	1	1,446	25	100	17	
1902-1903	1	590	62	100	14	

The large variations in the figures of the last two years of the triennium from those of the first year are due to the elimination of assessees with incomes below Rs 1,000.

Rural and the Urban incidence of the tax

10. The proportion of the tax paid in Calcutta in comparison with that paid in the rest of the province is exhibited below —

Year	Amount of tax realized in—		
	Calcutta	Rest of province	Total
	Rs	Rs	Rs
1902-1903	25,76,162	25,20,158	50,96,320
1903-1904	23,77,805	18,69,252	42,47,057
1904-1905 ...	24,30,449	19,23,604	43,54,053

The number of assessees in each year has already been compared in paragraph 7 above. It will be seen that during the last year under consideration Calcutta contributed 31·3 per cent. of the persons assessed and 55·8 per cent of the tax realized

As regards the assessments under Parts II and IV of the Act only, eight cities with a population of over 50,000 inhabitants contained between them 19 05 of the assessees in the province and contributed 46·6 per cent. of the tax collected.

The incidence of the tax in rural areas during the year 1904-1905 varied from Re. 1 to every 90 persons in Cuttack to Re. 1 to every four persons in Darjeeling.

Incidence of the tax according to incomes

11 The incidence of the tax according to the different rates of income is shown in the following abstract —

Class.	Rate of income	Percentage of assessees of each class	Percentage of collections contributed by each class
	Rs Rs		
I	1,000 but less than 1,250	37	8 5
II	1,250 ditto 1,500	11 8	3 9
III	1,500 ditto 1,750	9	3 7
IV	1,750 ditto 2,000	7 7	3 8
V to XIII	2,000 and over	34 5	80 1

The proportion of the number of assessees with incomes of less than Rs 2,000 a year was 65 5 per cent. and that of the amount paid by them 19 9 per cent

Assessments

12. Assessments were, with very few exceptions, completed three months before the expiry of the year. The few delays have been satisfactorily explained The circumstances of Calcutta are exceptional, nevertheless, nearly 95 per cent of assessments under Parts II and IV were finished by the end of the third quarter

Objections to the demand

13. The number of persons originally assessed and that of the petitions or objections instituted before District Officers, Commissioners, and the Board, during the triennium, are shown in the following table —

Year	Number of persons originally assessed	Number of petitions or objections instituted before District Officers	Number of petitions or objections instituted before Commissioners	Number of petitions for revision of assessment filed before the Board	Total of columns 3 to 5
1	2	3	4	5	6
1904 05	53,554	6 614	467	23	7,104
1903 04	52,864	8,499	488	17	9,004
1902 03	1,27,749	11,656	456	11	12,123

The percentages of objections to assessments for the whole province were 13 3 in 1904-05, 17·03 in 1903-04 and 9·5 in 1902-03 The increase in the last two years of the triennium is generally attributed to the raising of the minimum income assessable. On the one hand many of those who had been previously assessed at Rs 1,000 or slightly more took the opportunity of the

change of law to attempt to escape assessment altogether, on the other hand in some cases the assessing staff were perhaps unduly zealous in placing in the lowest class persons whose incomes had been previously estimated at slightly less than Rs 1,000. It must be remembered that it is in very rare cases that any accurate data are available on which to base assessments, and that it is not easy to draw the exact line of distinction. As regards objections in Calcutta, the Collector writes —

"One circumstance, which prominently differentiates the work of Calcutta from that of the mufassal is, that in the latter place the more well to-do classes are widely known and attract the attention of their neighbours, and when authentic accounts are not filed the assessing staff can, without very great difficulty, obtain useful information from the residents of the locality. In Calcutta, on the other hand, the popular attitude of unconcern towards their neighbours' affairs adds to the difficulty of the local enquiries, and the more refined methods of evasion prevailing among certain classes demand greater care and circumspection on the part of the assessing staff"

Exemptions and result of revision

Year	No of persons exempted	Amount of tax remitted
		Rs
1904 05	1,061	1,21,656
1903 04	1,386	1,55,054
1902 03	1,640	1,25,516

14 The figures on the margin compare the number of persons exempted on revision and the amount of tax remitted by District Officers, Commissioners and the Board, during the triennium under report

Collections of Income tax

15. The following statement compares the amount of the tax collected under each part of the Act during the last three years —

Year	Part I—Salaries, pensions, annuities and gratuities	Part II—Profits of companies	Part III—Interest on securities	Part IV—Other sources	Total
	Rs	Rs	Rs	Rs	Rs
1904-05	6,76,446	5,47,676	90,707	30,39,224	43,54,053
1903-04	6,40,536	5,67,465	76,787	29,62,269	42,47,057
1902-03	7,36,344	6,60,037	75,066	36,24,873	50,96,320

Of the increase under Parts I, III and IV in 1904-05, Calcutta contributed Rs 33,157, Rs 13,905 and Rs. 29,757, or 92 3, 99·9 and 38·7 per cent., respectively The increase under Part III is due to the new issues of several debenture loans, while that under Part IV is due to the greater promptitude in finishing the assessment work and in disposing of objections. The increase under Part IV in other districts is attributed to the increase in the final demand which is explained in paragraph 7 of the report. The decrease under Part II is due to the falling off in the profits of the Jute Mills in Calcutta and of the coal trade generally The banking business also fell off considerably The total collections on account of tax under all parts during the year 1904-05 show an increase of Rs. 1,06,996 or 2 5 per cent. over those of 1903-04, and a decrease of Rs. 7,42,267 or 14 6 per cent as compared with the figures of 1902-03. The decrease is, of course, due to the elimination of assessees with incomes below Rs. 1,000, who had contributed Rs. 8,79,520 or 17 3 per cent of the total collections of the latter year.

The gross collections during the year 1904-05, including arrears of tax, penalties, etc., amounted to Rs. 45,57,828, as compared with Rs 44,76,327 in 1903-04 and Rs 53,33,898 in 1902-03.

The percentage of tax collected under each part on the total amount of tax collected during the year 1904-05 was as follows —

Part	I—Salaries	15·5
"	II—Profits of companies	12 6
"	III—Interest on securities	2·1
"	IV.—Other sources	69·8

The percentage of collections on the final demand on account of tax alone during the year 1904-05 was 97·6, as compared with 96 04 and 96·6 in the two previous years, respectively The percentage of collections on the final demand on account of tax, penalties, etc., both current and arrear, excluding advance payments and excess collections, was 95 09 as compared with 93·5 in 1903-04 and 93 7 in 1902-03 The districts of Bankura, Midnapore, Bogra, Pabna, Dacca, Faridpur, Gaya, Champaran, Malda, Cuttack and Ranchi succeeded in collecting the entire demand on account of tax within the year The prescribed standard of 95 per cent was not reached in Hazaribagh, 24-Parganas and Singhbhum

Outstanding balances of Income tax

16 The outstanding balance on account of tax, penalties and costs for the year 1904-05, as compared with the two previous years, is shown below :—

Year	Balance on account of—			
	Tax	Penalties	Costs	Total
	Rs	Rs	Rs	Rs
1904-05	1,24,572	10,419	3,241	1,38,232
1903-04	2,10,358	12,870	4,472	2,27,700
1902-03	2,22,099	23,558	6,275	2,51,932

The sum of Rs 1,38,232 includes Rs. 12,728 for the year 1903-04 and Rs 7,648 for 1902-03 Calcutta alone returns a balance amounting to Rs 1,12,809, as compared with Rs 2,00,613 in 1903-04 and Rs 1,97,448 in 1902 03 The heavy balance in Calcutta is due to the fact that assessments to the value of Rs 1,07,404 under Parts II and IV were made during the last quarter of the year and consequently the tax could not be realized within it Of the total balance of Rs. 1,38,232, Rs. 78,580 are reported to be under realization, Rs 49,223 are doubtful and Rs 10,429 are probably irrecoverable

Coercive measures

17 The following statement compares the demand, collection and balance on account of penalties, fines and costs for the last three years —

Year	Demand		Collection		Balance		Remarks
	Penalties and fines	Costs	Penalties and fines	Costs	Penalties and fines	Costs	
	Rs	Rs	Rs	Rs	Rs	Rs	
1904 1905	15 888	8 325	8 623	6 259	7 260	2 066	
1903 1904	15 803	8 682	8 636	6 499	7 167	2 183	
1902 1903	30 100	12 576	12 797	8 682	17 301	3 893	

Expenditure

18 The total expenditure during the year 1904-05, including the cost of establishments in the Commissioners' and Board's offices and the remission allowed on the collection of tax by employers amounted to Rs. 1,67,787, as compared with Rs 1,94,938 in the year 1903-04 and Rs. 2,12,463 in the year 1902-03, showing a decrease of Rs. 27,151 and Rs 44,676, respectively

23 The main feature of the period under report is the passing of Act XI of 1903 and exemption of incomes under Rs 1,000 The extent of relief afforded by this wholesome measure may be judged from the fact that in the following year (1903-1904, the number of assessees dropped from 126,109 to 51,478, or by 59 2 per cent, though the falling off in the demand was only 16 1 per cent Whatever complaint could reasonably be urged against the tax has now been removed. The administration of the tax has been carried no smoothly on the whole, and the Board's acknowledgments are due to Commissioners and District Officers generally for their management of the Department

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE POLICE DEPARTMENT IN BENGAL FOR THE YEAR 1904.

RESOLUTION—No 4518J—D

The Report on the Administration of the Police Department for the year 1904

The Report for the year 1903 and the Resolution of the Government thereon

Mr R W Carlyle, C.I.E., I.C.S., was in charge of the office of Inspector-General of Police for the first three months of 1904, Mr. A V. Knyvett, C.I.E., of the Bengal Police, officiated for three months, and for the remainder of the year Mr. C. J. Stevenson Moore, I.C.S., by whom the present report has been submitted, was in charge.

2 There was during the year under review no change in the sanctioned strength of the superior staff of the police force The subordinate staff was increased by 88 officers and men, of whom the majority were appointed for investigation work Sub-Inspectors were recruited partly by examination and partly by promotion, but mainly by nomination, recruitment by examination has since been abolished The new appointments were distributed among the Divisions in proportion to the strength of the investigating force entertained in each, the natives of each being regarded as having the first claim to the vacancies so allotted to it

The course of instruction at the Training School at Bhagalpur was extended from 20 to 42 weeks, with the result that only 8 candidates out of 93 failed to pass the final examination, as against 45 out of 170 in the preceding year The Lieutenant-Governor is glad to observe the attention that is being paid to practical training, and hopes that the defects in the teaching of the vernacular languages to Probationary Assistant Superintendents will be remedied This is manifestly a most important part of the course

3 The marked decrease in the number of departmental punishments, which was the lowest recorded during the last 18 years, may be taken to indicate an improvement in the discipline of the police On the other hand, the Lieutenant-Governor regrets to observe that 277 members of the force were convicted of offences under the Indian Penal Code. While fewer officers were punished under that Code than in 1903, the number of men convicted was excessive, being 1 2 per cent of the entire force The number of cases of torture instituted against the police showed a satisfactory decrease from 19 in 1903 to 5 in the year under report, and it is gratifying to learn that of these only 1, which ended in a conviction for simple assault, was declared to be true There were 83 charges of extortion, but of these 59 were either declared false or dismissed under section 203 of the Criminal Procedure Code, or ended in discharge or acquittal, while only 15 resulted in punishment, judicial or departmental.

The health of the force was hardly as good as in the preceding year, and the average detention of the sick in hospital was slightly longer The figures indicate the necessity for improvement in hospital accommodation, and it will be interesting to observe the result of the scheme, which the Inspector-General proposes to introduce in the most unhealthy districts, of supplying mosquito nets and treating the men systematically with quinine

4. The work of the town chaukidars and town constables continues to be unsatisfactory. The fact that only 229 arrests were reported from 32 districts as having been made by night watchmen shows how inefficient this part of the force is. The decision to replace town chaukidars by constables is amply justified, and it is hoped that the change will lead to better results in this branch of police work. The possibilities of improvement are indicated by the figures returned for Bhagalpur, where the number of A forms was almost

doubled and the number of arrests rose from 9 to 26 during the six months in which the town police were under the Principal of the Training School. At the same time there are indications that good work can be done even with the present staff when the District Superintendent of Police himself takes an active personal interest in it.

5 The necessity for restricting the number of village chaukidars to actual requirements and the advisability of reducing and amalgamating charges when opportunity occurs have been emphasized in the Resolutions of the last two years, but nevertheless there was a further addition of 879 men to the village police during 1904. The Lieutenant-Governor desires once more to impress upon District Officers the necessity for scrutinizing strictly any proposal to add to the number of chaukidars The systematic inquiries now being made seem to show that, so far from any increase being necessary, the number at present employed is in many cases susceptible of reduction His Honour has read with interest the remarks which the Inspector-General has made on the subject of recruitment and the introduction of the dafadari system Mistakes have, no doubt, been made, the wrong class of men have in some cases been appointed, and the Lieutenant-Governor is inclined to think that experienced chaukidars who have done good service might more often be promoted to the post of dafadar, provided that they are persons of sufficient influence to exercise a due control. His Honour is also confirmed in the view, favoured by the Police Commission, that the menial classes are more amenable to order and ordinarily maintain better watch and ward than the higher castes, and it would be unwise to make any special effort to obtain recruits from the latter It is satisfactory to observe that, while there was, owing to the discontinuance of the practice of granting rewards for regular attendance at parade, a decrease in the number of chaukidars rewarded, the amount expended on this account increased considerably, with the result that the average value of the rewards paid, which in 1903 was Rs 3-8, rose last year to Rs 5-8. This indicates a sounder system of apportionment, as rewards, when given at all, ought to be worth receiving During the cold weather of 1904-1905 Mr H Savage, C S I, was placed on deputation to enquire into the improvement of the village panchayat system His report is under the consideration of the Government, and Sir Andrew Fraser believes that the reforms which he has suggested, and which have already been initiated in several districts, will lead to the selection of a better class of men to serve on panchayats, to a decided improvement in the village police organization, and to a more equitable incidence of the chaukidari tax

6 The Lieutenant Governor observes with satisfaction the success which is said to have attended the system of beats established along the embankments in the 24 Parganas and the convictions obtained through patrol boats in Mymensingh and Khulna The system is at present in an experimental stage Mr. Bramley, who has been again this year placed on special duty in connection with this matter, will shortly submit a complete report to Government upon the scheme for the establishment of a separate River Police Force

7 The Lieutenant-Governor notes the objections raised by the Inspector-General of Police to the supplying of police to private individuals There is a slight decrease this year as compared with 1903, and in the absence of evidence that police have been employed to protect private claims which are not clear and unassailable, His Honour is not in a position to pass general orders in the matter The Inspector-General of Police will be directed to report for the orders of Government particulars of cases where the dispute was of such a petty nature that the employment of police was undesirable or where it would have been in his opinion preferable that the force should have been paid by Government.

8. Among the improvements introduced during the year, the Lieutenant-Governor is glad to notice that the police have been relieved of responsibility for exercising surveillance over all wandering gangs, their duties in this connection being restricted to such gangs as are known or suspected to be criminal or oppressive; that closer relations have been established between the District Police and the Criminal Investigation Department, and that the office inspection work of District Superintendents has been reduced.

9. The total number of cognizable offences reported during the year was 178,864 This shows a slight increase on the figures of 1903. Of the cases instituted before the police, which were sent up by them for trial, 86 8 per cent ended in conviction, and in addition to these there were 2,670 cases in which Magistrates issued processes against accused persons not so sent up, the ratio of convictions to acquittals in these being approximately as 1 to 2. The percentage of convictions in sessions cases was 72 9, which is slightly higher than in the preceding year. The districts showing the worst results were Murshidabad, Faridpur, Puri and Manbhum The falling off in Puri, where 94 per cent of the persons sent up for trial were convicted in 1903 and only 28 8 per cent. in 1904, particularly demands notice.

10 The number of cases declared false shows a decrease of 387 The percentage of prosecutions to false cases rose from 11 5 to 12 8, but that of conviction fell slightly from 41 2 to 40 8 The diversity in the results obtained in different districts is certainly extraordinary, and the best are far from reassuring. Thus in the Sonthal Parganas there were 118 false cases, 22 prosecutions and 19 convictions, while for Chittagong the corresponding figures are 64, 1 and 0, respectively The obstacles in the way of the successful and systematic treatment of this form of crime are, no doubt, considerable, for, apart from the inherent difficulty of proving a negative and the pitfalls of procedure, persons found to have been falsely charged are as a rule content to leave well alone rather than anxious to undergo the trouble and the expenditure of time and money necessary to secure the judicial punishment of the false informants against them It is said that in such cases the matter is not infrequently settled out of Court, the suggestion being that the guilty party does not, therefore, altogether escape, but such a result cannot, in view of the fact that offences of the kind involved are all non-compoundable, be regarded with complaisance The matter certainly calls for the earnest and sustained attention of District Officers, and the difficulties felt ought not to deter individual Magistrates from taking action whenever there are good grounds for believing that a false charge has been maliciously preferred The falling off from 525 to 508 in the number of cases in which compensation was awarded under section 250 of the Criminal Procedure Code is somewhat discouraging, and it seems to the Lieutenant Governor that much more frequent use might be made of this useful provision

In connection with prosecutions under section 182 or 211 of the Indian Penal Code for false charges made before the police which do not come to trial, it should be remembered that a prosecution can be instituted under section 182 with the sanction of the police officer before whom the charge has been preferred, or, where the matter has not come before a Court, under section 211 without any sanction being required. It should, therefore, be impressed upon police officers that, when reporting a case to be false, they should invariably state whether the informant should be prosecuted or not and give the reasons for their recommendation. This would act at once as a check upon the reporting of cases as false without good grounds and would impose upon the magistracy the duty of coming to a decision as to the course to be followed in each case. The Inspector General suggests that full information regarding the results of departmental proceedings taken in respect of cases returned as false by the police and eventually found by the Courts to be true should be incorporated in future reports. The Lieutenant-Governor readily accepts this suggestion and directs that effect be given to it.

11. The number of remands granted in the trial of police cases was somewhat greater than in the preceding year. The percentage of cases disposed of in two hearings was 50 as against 51 2 in 1903 This slight falling off may be accounted for by the increase in the percentage of cases in which previous convictions were proved and adjournments were required for the purpose of procuring the necessary evidence, sometimes more or less formal. In some instances also, the excessive number of remands was undoubtedly due to the magistracy being overworked, as in Mymensingh, where the results were the worst in the whole province, only 28 1 per cent of the cases being disposed of in two hearings. There was an improvement in the number of cases remanded six times and over; but the number (2,049) is still too large. The

Lieutenant Governor is persuaded that a stricter supervision over criminal work by District Officers would lead to an improvement in this matter

12 An examination of the detailed figures regarding serious crime shows that the steady diminution of riots, which was remarked upon in last year's Resolution, has continued, and it is satisfactory to find that the number of true cases of rioting and unlawful assembly was—with one exception, which occurred in 1881—the smallest recorded since 1871. The decrease was fairly general, save as regards the Patna Division, in which there was a decided increase As in the previous year, the Dacca Division heads the list with 292 cases, preventive action under section 107 of the Criminal Procedure Code had also to be taken there to a much greater extent than in any other Division, the number of persons bound down being 62 per cent of the total for the whole province This is due to the character of the people, but there is a noticeable fall even in this Division as compared with recent years, and the Lieutenant Governor notes with pleasure the marked suppression of rioting apparent in the district of Backergunge, especially as this is accompanied by a decrease in the number of proceedings taken under sections 106 and 107 of the Code. These results are attributed to the effect of the survey and settlement operations

The number of serious offences against the person increased from 5 414 to 5,817 The number of murders (418) was the highest recorded since 1897, the Dacca Division heading the list in this respect also as well as in regard to cases of culpable homicide Attention was directed in last year's Resolution to the increase in crime falling under the heads of dacoity, robbery and cattle theft, and it is very satisfactory to notice the improvement here shown during 1904 The number of dacoities fell from 342 to 293, the lowest figure returned since 1899, and the result is doubtless due to the successful prosecution of gang cases, for which the police deserve the greatest credit The districts which suffered most were Midnapore and Purnea. The dacoities in the former were the work of local bad characters, to control whom steps have been taken In Purnea there is reason to believe that depredations from beyond the frontier were responsible for a considerable portion of the crime, and this impression receives support from the increase of dacoities on the frontier of Jalpaiguri Robberies also decreased considerably in 1904, and reported cases of cattle theft fell from 2,2?8 to 1,949 Considering that this figure probably does not represent even approximately the number of cases which actually occurred, the Lieutenant Governor hopes that the special efforts which have undoubtedly been made to repress this form of crime will be maintained

A decrease is noticeable also in the number of burglaries The returns relating to prosecutions for bad livelihood call for no remark, except that there seems to be some variation, not always corresponding with the incidence of offences against property, in the use made in different Divisions of section 110 of the Criminal Procedure Code

13 An increase is reported in the number of railway offences Thefts on railways rose from 3,036 to 4,293, and there was, under the head of obstruction cases, an advance from 5? to 65, which is all the more unsatisfactory, as only 8 cases ended in conviction. Strong measures should be taken to repress this dangerous form of crime, and possibly more use might be made of the experiment of quartering additional police in cases in which the villagers fail to assist in the detection of the offenders.

14. An interesting section of the report deals with the work of the Criminal Investigation Department, of which, in addition to his ordinary duties, Mr Knyvett was in charge during the year and did valuable work. The collation of statistics of the classes habitually addicted to crime in Bengal and the recording of histories of known criminals were taken up energetically, and enquiries connected with coinage and forged currency notes are said to be in progress The long list of gang cases which were under trial during the year and which were dealt with by the Department, and their results, are the best evidence of the utility of the Department The cases alluded to led to the conviction of no less than 175 persons under sections 400 and 401 of the Indian Penal Code, besides several who were sentenced under other sections, and in the course of their investigation 164 dacoities, 4 robberies

and 112 burglaries and thefts were traced The Lieutenant-Governor notes with satisfaction the cordial relations between the Criminal Investigation Department and the Calcutta Police, and the good service done in this connection by Mr Knyvett and Mr. Bignell, Commissioner of Police, demands special acknowledgment.

15. The Lieutenant-Governor desires to acknowledge the efficient administration of the Department during the year, and to thank Mr Stevenson-Moore for his careful and interesting report.

ORDER —Ordered that copies of this Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and all Commissioners of Divisions for information

Singhbhum.—Rainfall at Sadar 3 40 Rearing of *tussar* nearly finished Prospects of crops good Cattle-disease reported from thana Ghatsila Fodder and water sufficient Rice sells at 12 seers per rupee

General Summary.—Rain was general all over the Province, the fall being very heavy in North and East Bengal and in portions of Bihar, but moderate in Orissa, where more rain is still wanted The heavy fall caused floods in some districts of East Bengal and Bihar doing some damage to the young paddy Transplantation of winter paddy is almost over, and harvesting of jute and early rice is still going on in places Prospects generally fair Cattle-disease is reported from nine districts. Water abundant. Fodder is sufficient except in parts of the 24-Parganas, Pabna, Mymensingh, Tippera and Darbhanga Price of common rice is rising rapidly, especially in the districts of East Bengal, owing to heavy rains and consequent floods

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF AUGUST 1905

THE most conspicuous feature of last month's weather was the total absence of any cyclonic storm, no less than three of which are ordinarily anticipated in August. There was, on the other hand, a strong and steady monsoon current blowing up the Bay of Bengal and across the Province, giving rain, on the whole, far in excess of the normal, though in considerable defect in Orissa, Chota Nagpur and South-West Bengal. In these last divisions the mean temperature for the month was 1° or 2° above the normal mean and in the rest of the Province only just below, and in Assam 1° below normal.

The calendar month commenced with a continuation of the same sort of weather which had marked the last days of July. An area of very uniform low pressure and consequently gentle winds occupied the whole western part of the Province, while a normal pressure gradient maintained a fairly steady monsoon in the north of the Bay. This state of things, accompanied by very general rain and considerable coolness, continued until about the 7th, when a general fall of the barometer, most marked in the east, was accompanied by a spreading out of the trough of low pressure along the base of the Himalayas to the north of the Province. This gave a more westerly trend to the winds at the head of the Bay and a consequent diminution of rainfall on the Circars coast, the landward component diminishing the humidity of the air. Rain continued very general over the rest of the Province, and particularly heavy in the northern districts, including Assam and Bihar. A slight return westward of the area of lowest pressure on the 10th and 11th did not seriously affect the general character of the weather. Day temperatures had remained quite abnormally low all this time.

On the 12th the barometer rose rapidly over the whole northern part of the area, raising the pressure of the Province to a very uniform level, with a consequent almost complete lull in the wind which was accompanied by a corresponding lessening of the pressure gradient in the Bay. This change of pressure distribution continued in the same sense until there was not more than 1th of an inch of difference in the height of the barometer over the whole area on the 17th and only $\frac{1}{10}$th on the 18th. This was accompanied by a diminution in the area of precipitation on the 13th and 14th, though rain continued heavy in the sub-Himalayan districts. On the following days rain seemed still further scattered and ceased almost entirely on the 18th, except in Burma, where the monsoon current began to revive. From the 19th onward the more normal steeper pressure gradient began to be restored across the south of the Bay, and a subsequent progressive fall of the barometer in the north-west of the Province on the 21st, 22nd, and 23rd gradually entirely restored the monsoon current and rain. Essentially typical monsoon conditions remained until the end of the month with steadily increasing rain and low temperature.

Summary of weather.—A strong monsoon prevailed during the whole month with only one break of about five days' duration just after the middle of the month. Wind velocities were much higher than usual for the month, especially at the head of the Bay. There were no cyclonic storms and only one or two extremely shallow depressions of no significance whatever.

Summary of pressure.—Mean pressure for the month was nearly normal with a trifling general excess and a very slight defect in the Patna division of Behar.

Summary of temperature.—Owing to the unusually continuous and heavy rain the mean temperature for the month was below normal in the north and east of the Province and Burma, but above normal in South-West Bengal, Chota Nagpur and Orissa. This was mainly governed by the day temperature, as nearly everywhere the nights were a little warmer than usual. The highest temperature recorded was 97·9 at Saugor Island and the lowest [illegible] in Darjeeling.

Summary of rainfall.—Rain was continuous and heavy during the whole month, being in considerable excess on the total. The excess was more than 100 per cent over a large part of Behar and nearly as much in North and East Bengal, but there was considerable defect in South-West Bengal, Orissa and Chota Nagpur. Calcutta, for instance, had [illegible] half as much rain as usual.

The number of rainy days was about normal in South-West Bengal and Chota Nagpur. In East and even more in North Bengal, the number of wet days was greater than usual. Orissa alone had less than the ordinary number of wet days.

The comparison of the actual rainfall in the various large divisions of the Province with the normal is most accurately and conveniently shown in the form of a percentage. The figures representing the rainfall for the month, calculated in this way, are included in the table below under the heading of August. This table really gives a condensed summary of the rainfall statistics of the present year up to date for each meteorological division, the first

eight columns giving the actual average rainfall in each division in each month, expressed as a percentage of the normal, while the ninth column gives the total rainfall for the first eight months expressed as a percentage of the rainfall for that period

The mean pressure, temperature, etc, are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. Rainfall reported on any day is for 24 hours preceding 8 A M of that day.

3 Any objection to the proposed settlement, whether urged by creditors or by other persons interested in the estate, which may be communicated to the Local Government in writing within six months from the date of this notification, will be duly considered

SCHEDULE

IN THE MATTER OF THE BENGAL SETTLED ESTATES ACT, 1904 (Act III (B C) of 1904) and IN THE MATTER of a proposed Instrument of Settlement to be executed by Maharaja Bahadur Sir Jotindra Mohan Tagore, K C S I

To HIS HONOUR SIR ANDREW HENDERSON LEITH FRASER, K C S I, *Lieutenant-Governor of Bengal*

The application of Maharaja Bahadur SIR JOTINDRA MOHUN TAGORE, K C S I, under Section 3 of the Bengal Settled Estates Act, 1904

SHEWETH

1 That the applicant, the son of the late Horo Coomar Tagore, is the representative of the elder branch of the Tagore family of Calcutta, was born in the year 1831 He is one of the largest Zemindars in Bengal In January 1870 he was appointed a Member of the Bengal Legislative Council and on the expiry of his term of office he was appointed a second time The title of Raja Bahadur was conferred upon him on the 17th March 1871 and on the 1st January 1877 he received the title of Maharaja, and on the 1st February following he was appointed a Member of the Legislative Council of the Governor-General of India In the year 1879 the applicant was appointed a second time and in 1881 a third time as a Member of the Legislative Council of the Governor General In 1880 he was created a Companion of the Most Exalted Order of the Star of India and on the 24th May 1882 a Knight Commander of the same Order In the year 1882 the applicant was elected President of the Faculty of Arts of the Calcutta University and was appointed to be a Member of the Education Commission and of the Jury Commission On the 1st January 1880 the title of Maharaja Bahadur was conferred on the applicant as a personal distinction and on the 1st January 1891 by Foreign Department Notification of that date the title of Maharaja which had been conferred upon him in the year 1877 as a personal distinction was declared to be hereditary

2 The applicant is desirous of effecting a settlement of the immoveable properties hereinafter mentioned of which he is in possession in his own right which are held by him in permanent heritable and transferable right and to which he is solely entitled and also of the moveable properties hereinafter mentioned of which he is in possession and to which he is absolutely entitled

3 The reasons for such application are that the applicant is desirous of ensuring that the dignity of the hereditary title and the position of the Tagore family of which the applicant is the head shall be maintained by successive Maharajas and with such object that the properties referred to in the last preceding paragraph hereof shall be set apart from the estate of the applicant and brought into settlement to follow the devolution of the hereditary title to guard by the settlement of such properties against waste and extravagance in the future and the degrading and disastrous consequences thereof and to afford and secure to successive life tenants a certain and sufficient income to enable them to maintain or to assist them in maintaining the dignity and position aforesaid

4 The said immoveable properties are particularly described in the several parts of the first schedule hereto The properties mentioned and described in the first part of the first schedule hereto are situated in the several Districts of Rangpur, Dinajpur Bogra, Hooghly, Burdwan, Murshidabad, Birbhum, Midnapore, Nadia, Darbhanga, 24-Parganas, Jessore, Purnea, Muzaffarpur, Faridpur, Arrah and Bhagalpur The immoveable properties mentioned and described in the second part of the said first schedule are situated within

the local limits of the Corporation of Calcutta and the immoveable properties mentioned and described in the third part of the said first schedule are situated within the local limits of the several Municipalities of Calcutta, Baranagore, Ariahdah, Madhupur (Sonthal Parganas) and Cossipur, Chitpur

5 The description of the immoveable property fourthly mentioned in the first part of the said first schedule, namely, Mahal Mahamad Aminpur in the District of Hooghly, represents the eight annas undivided share of the entirety of such Mahal, the other eight annas undivided share being held by the sons of the late Raja Pramatha Nath Roy of Dighapatia The respective undivided shares are separate in management and the *juma wasil* of the share held by the applicant is entirely distinct from the *juma wasil* of the share held by the said Kumars of Dighapatia, the revenue payable to Government being definitely apportioned to the respective shares under separate accounts The applicant being in fact solely entitled to the said eight annas share held by him and being in possession thereof and entitled thereto for a permanent, heritable and transferable right, interest and estate therein is desirous that such share should be included in the proposed settlement as a property to which he is solely entitled

6 The moveable properties which the applicant is desirous of including in the settlement consist of jewellery, books and manuscripts mentioned or described in the second and third schedules hereto Such moveable properties are in the possession of, and are the absolute property of, the applicant, who proposes to include them in the settlement in order that they may be treated as heirlooms

7 The income yielded annually by the several immoveable properties situate in the several districts mentioned and described in the first part of the first schedule and the revenue rates and taxes payable to the Government annually in respect thereof are shown in that part of such schedule

8 The income yielded annually by the several immoveable properties mentioned and described in the second part of the first schedule hereto and the rates and taxes payable to the Local Authority therein mentioned in respect thereof are shown in that part of such schedule

9 The immoveable properties mentioned and described in the third part of the first schedule hereto are residential buildings and country houses in the possession or occupation of the applicant or of members of his family and as such they yield no annual or other income

10 There are no incumbrances held by secured or unsecured creditors enforceable against the applicant or the aforesaid immoveable and moveable properties, and beyond ordinary claims of tradesmen and others in respect of current household and other expenses, the applicant is not at present indebted to any person whomsoever

11 A draft of the proposed instrument of settlement is submitted with this application

The applicant therefore applies for permission to make a settlement of the lands, hereditaments and premises, jewellery and other moveable property mentioned and described in the foregoing application and the schedules thereto persuant to the Bengal Settled Estates Act, 1904

JOTINDRA MOHAN TAGORE

I, Maharaja Bahadur Sir Jotindra Mohan Tagore, K C S I, the applicant abovenamed, do declare that what is contained in the above written application is true to my knowledge except as to matters stated on information and belief, and that as to those matters I believe the same to be true

Hindu Law shall be the nearest in degree to the settlor at the time of such failure and when this ultimate direction and appointment shall take effect and if there shall then be two or more such persons in the like degree of kindred to the Settlor to the eldest of such persons absolutely to the exclusion of the other and others of them

6 PROVIDED ALWAYS and it is hereby declared that it shall be lawful for the Settlor at any time by deed revocable or irrevocable or by will or codicil to direct the payment after his death out of the rent issues and profits of the said lands hereditaments and premises hereby settled or any of them or any part thereof to any person or persons whomsoever of any sum or sums of money and whether by way of annuity or otherwise and to charge the said lands hereditaments and premises hereby settled or any of them, or any part or parts thereof with the payment of the said sum or sums of money but so nevertheless that the total amount so to be made payable as aforesaid shall not exceed one-third part or share of the aggregate annual income of the said land hereditaments and premises hereby settled

7. PROVIDED ALWAYS and it is hereby declared that in the event of there being no natural sons of the said second tenant for life or of the said third tenant for life as the case may be to succeed under the limitations hereinbefore contained to the lands hereditaments and premises hereby settled no person shall be taken in adoption by or to the said second tenant for life or third tenant for life as the case may be except from among the descendants in the direct male line from the said late Mahshai Huro Coomar Tagore the father of the Settlor and in the event of any adoption or pretended adoption of a son by or to the said second tenant for life or third tenant for life as the case may be otherwise than from among such descendants aforesaid the lands hereditaments and premises hereby settled shall not pass to such adopted son but shall immediately devolve on the person next in remainder as if no adoption of a son by or to the said second tenant for life or third tenant for life as the case may be had been made

8 PROVIDED ALSO that during the minority of any person for the time being entitled to the said lands hereditaments and premises under this settlement either as tenant for life or absolutely and also during the period within which under the said Act an adoption of a son to a deceased tenant for life may be made for the purposes of this settlement and pending such adoption the said lands hereditaments and premises shall be managed for the benefit of the person or persons for the time being entitled or to become entitled to the same under this settlement or for the benefit of the person or persons otherwise becoming entitled as the case may be by a manager or managers to be appointed from time to time by the guardian or guardians of the minor beneficiary (if any) under this settlement or if there be no such guardian by the legal representative or representatives of the tenant for life last in possession of the said lands hereditaments and premises or failing such appointment by a manager or managers duly appointed by a competent Court

AND THESE PRESENTS FURTHER WITNESS that the Settlor under and by virtue and in further pursuance of the said Act and with the permission and approval aforesaid doth hereby assign unto the said Collector of   and his successors in office ALL AND SINGULAR the jewellery and other moveable property mentioned and described in the said Second and Third Schedules hereto and now being in the possession of the Settlor TO HAVE AND TO HOLD the said jewellery and other moveable property hereinbefore expressed to be hereby assigned unto the said Collector of   and his successors, in office UPON TRUST to permit the same to be used and enjoyed by the person for the time being and from time to time entitled under the settlement hereby made to the said lands hereditaments and premises and for the same estate as such person under the settlement hereby made shall have in the said lands hereditaments and premises AND it is hereby declared that as soon as conveniently may be after the execution of these presents an inventory shall be taken of such jewellery and other moveable property and such inventory (subject to its being revised as occasion shall require) shall be signed by every person for the time being entitled to the use and enjoyment of the said jewellery and other moveable property under the Trust hereinbefore contained and also by the Trustee for the time being and the said jewellery and other moveable property shall at all times be properly preserved and when necessary repaired by and at the expense of the usufructuary thereof for the time being but the said jewellery and other moveable property or any part thereof may with the previous consent of the said Local Government from time to time be sold or exchanged or with the like consent the form and fashion of the said jewellery may be altered at the expense of the usufructuary thereof for the time being provided the intrinsic value thereof be not diminished and the sale-proceeds of the said jewellery or other moveable property if sold shall be invested in the purchase of other jewellery or moveable property in substitution for that which may be so sold PROVIDED ALWAYS that after the usufructuary for the time being shall have signed the inventory aforesaid the Trustee shall not be bound to see to the preservation of the said jewellery and other moveable property or any part thereof and shall not be responsible for any omission or neglect on the part of the usufructuary with respect to the preservation thereof nor for loss or damage occasioned by any other act or omission on the part of the usufructuary but the Trustee shall not be precluded from interfering for the protection of the property when and as he shall think fit either of his own accord or at the instance of any person presumptively entitled under the settlement hereby made

IN WITNESS whereof the said Maharajah Bahadur Sir Jotindra Mohon Tagore, K C S I, hath hereunto set his hand and seal the   day of   190

[Here follow the schedules, which are duplicates of the three schedules appended to the application, *ante*]

RULES FOR THE RAIYATWARI SETTLEMENT OF THE SUNDARBANS TRACTS

NOTIFICATION.

No 3261T.—R—The 19th September 1905—By Notification No 3103T—R, dated the 4th November 1904, published in the *Calcutta Gazette* of the 9th idem, the rules in Sections II, III and IV of the Waste Lands Manual, 1898, have been declared under suspension until further orders, as regards waste lands in the Sundarbans and in the Saugor Islands The following rules are laid down for the settlement of waste lands in those tracts, direct with cultivating raiyats, as an experimental measure

Lands available for lease.

2 The "waste lands" to which these rules apply include all lands ungranted and unoccupied at the disposal of Government, or those which, from any cause or under any circumstances whatsoever, revert to Government, in the Sundarbans of the 24-Parganas and Khulna, and which have not been declared either a reserved or a protected forest under the Forest Act, VII of 1878

Right of Government to withhold land from being settled

3 The Government reserves to itself the right of withholding the settlement of any land by special order made at any time before the settlement is finally made

Rights in the lands which are reserved by Government.

Proprietory rights

4 Government retains its proprietary rights in the lands which may be settled

To minerals on lands settled

5 The Government reserves to itself the right to all minerals on the lands which may be settled, together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals

Right of Government to fishery, etc

6 Government reserves all rights of fishery, and the control of all channels and streams It is not the intention of Government that any raiyat of an estate shall be prevented from catching fish for his own use in the enclosed water of any *khal* within the estate

Land to be subject to rights of way, etc.

7 The land shall be subject to all existing rights of way and water and other easements, and to any exceptions and reservations which may be particularised in the lease

Right reserved to the public

8 A tow-path not less than 25 feet in width on each side of every navigable stream and channel shall ordinarily be reserved by Government for the use of the public

Common lands

9 Government reserves to itself the right to regulate the conditions as to the use of any lands which may be reserved for the common use of the villagers

Liability of land to cesses

10 The land shall be subject to any cesses, such as road and public works cesses, or any other which may hereafter be imposed by law, in addition to the assessment to be paid

Acquisition of land leased

11. Any land of any holding, which may at any time be required for a public purpose, may be taken up by Government free of cost, a deduction being made in the amount of assessment payable, proportionate to the area so taken up and compensation being paid for the value of any improvement or property thereon under the provisions of the law in force for the time being for the acquisition of land for public purposes.

Rights of the raiyat

12 It is the intention of Government that settlements shall be made with resident cultivating raiyats, and to prevent the intervention of middlemen who will be merely rent collectors between Government and the actual cultivators All lands that may be settled with such raiyats shall be heritable

Transferability of holding

13 The raiyat will have the right to transfer his holding to one who is already or who becomes a resident and cultivating raiyat, and provided that the previous sanction of the Collector is obtained to the transfer and that the transferee's total holding in the estate does not thereby exceed 100 bighas

Subdivision of the holding

14 A raiyat will be permitted to transfer a part of his holding, subject to the consent in writing of the Collector, which consent will ordinarily be given on the same conditions as in the case of the transfer of the whole holding (para 13)

Exchange of lands

15 Exchange of lands between raiyats of the estate will ordinarily be permitted, but will be subject to the consent of the Collector in writing

Subletting

16. The right to sublet the lands of a holding either on produce or cash rents is not granted The Government reserves to itself the right to resume any lands which may be sublet and to settle them direct with the actual cultivator.

It is not the intention of Government that this condition shall be worked harshly or indiscriminately, *e g*, a widow or guardian of minors or temporarily incapacitated person would be permitted to sublet the lands of his holding But the creation of a class of raiyats of large holdings with cultivators under them and permanently paying rents to them would not be allowed

Duties of the raiyats

17 Every raiyat must reside on the estate, or, if outside the estate, then within such distance of the estate as the Collector may approve If he fails to do so, the Collector may require him to give up his lands or transfer them to a person who must be approved by the Collector

Residence on the estate

It is not the intention of Government that this rule should be worked harshly, nor to prohibit temporary absences from the estate for the purpose of labour or service It is only intended to prevent the growth of a class of absentee raiyats

18 The raiyat must proceed to reclaim and cultivate his holding with due diligence Government reserves the right to resume any lands which are not cultivated within a resonable time and to settle them with other raiyats

To cultivate the lands

19 The position and extent of his allotment will be pointed out to the raiyat, and artificial boundary marks will be erected so far as may be necessary to indicate his holding, and these will have to be maintained by the raiyat If they are not maintained, they may be repaired at his expense, and the cost of such repair will be recoverable as an arrear of rent

Maintenance of boundary marks

20 The outer bunds of the estate so far as they are necessary will be maintained by Government But the raiyat will be bound to maintain such interior bunds as he may be specifically required to maintain and which are mentioned in the terms of his lease If he fails to properly maintain them, they may be repaired by Government, and the expense of such repair may be recovered from him as an arrear of rent.

Maintenance of embankments

21 The raiyat must repay any loan advanced to him on the due dates

Repayment of loan.

22 The raiyat must pay his rent on the due dates If he fails to do so, the rent will be recovered under the law in force for the time being for the recovery of rents.

Payment of rent.

Administration

23 These settlements will be carried out under the orders of the Collector of the district in which the lands are situated, and shall be under his control He will be assisted by such establishments as may be given to him for this purpose He will be under the control of the Commissioner of the Division, and the Commissioner will be under the control of the Board of Revenue

In carrying out these raiyatwari settlements, considerable discretion is allowed to the Collector, but the following points will demand his attention

24. Waste lands which are to be settled under these rules should be blocked into estates of convenient size The boundaries of these estates should be demarcated by natural and artificial marks where necessary, and should be surveyed and connected with a trijunction mark of the Revenue Survey and accurately shown in a skeleton trace of the Revenue Survey map of the district

Estates to be formed and surveyed and their sites defined.

25 When the estate has been demarcated and surveyed, it will be given a name and number and entered in register 32

26. A scheme and an estimate must then be prepared for the necessary protective bunds and for the requisite clearing of the jungle It will have to be considered how far the clearing of the jungle must be done by Government, or how far it should be done by the raiyat who may take settlement

Estimate of Government work of reclamation

27 An estimate of the number of holdings into which the estate may be divided must then be made This estimate will depend on the average size of each holding and the number of homestead sites which will be required

Estimate of capacity of the estate

28 The estate must then be laid out by the selection of a suitable site or sites for the requisite number of homesteads, sites for tanks, for roads' for a margin of 25 feet for towing paths and roads along the edge of khals and water channels, a site or sites for a market, a reservation of some common land for general use of the raiyats near the homestead site, and possibly also some jungle or land for firewood and jungle produce and some grazing land

Laying out of the estate

For sanitary reasons, care should be taken not to allow any homestead site to abut on any water channel or reservoir from which drinking-water is likely to be taken.

29. It may be necessary that the cultivable land should be blocked out into convenient blocks of lands of a fairly uniform class. In any case care must be taken not to give all the best lands to the first comers. Lands will have a special value either from propinquity to the homesteads or from exceptional fertility or exceptional protection from floods, etc The first

comers may naturally expect to receive a fair proportion of their holding from the best lands, but, if they are given large holdings entirely from the best lands, it will be very difficult to secure subsequent raiyats.

The sites and blocks should be surveyed after demarcation and plotted on the estate map.

Applications for holdings.

30. Applications by *bonâ fide* cultivators for raiyatwari holdings shall be in writing and may be on plain paper, and may be presented to the Collector, or to the local officer in charge of the estate who shall forward them to the Collector with his recommendations. The applicant shall give full particulars regarding his present residence, and should state whether he desires to receive a loan, and, if so, how much and what security he can give.

Allotment of lands.

31. As stated above in paragraph 29, care must be taken not to give all the best lands to the first comers. It will be best to give a raiyat only a reasonable proportion of his holding from each class of land into which the estate is blocked. In giving out the holdings, lands should be settled continuously without jungle and waste intervening between the holdings. It is not necessary that all the lands of a raiyat should be in one block, but only unnecessary subdivision of a raiyat's holding should be avoided. In the first settlement of raiyats, the raiyats themselves should be freely consulted as to their own preferences and so far as these are reasonable and not mutually incompatible, and so far as they comply with the rules laid down their wishes should be adopted.

Limit of area.

32. The maximum area for an original grant should be 75 bighas and the minimum 10 bighas. It will be well, however, not to give at first holdings in excess of what the applicant can be reasonably expected to fully cultivate in a few years. Comparatively well-to-do applicants who can afford to pay for hired labour may get larger holdings than those who are poor and may have to go away and labour for their subsistence for a large part of the year. Under the system of giving proportionately lands from the blocks of each class it will be quite possible from time to time to increase the holdings of raiyats who bring all their lands under cultivation and are able to cultivate more lands.

Every care must be taken not to encourage or assist the practice of subletting lands, by giving large holdings which the occupant cannot personally reclaim either by himself or by hired labour and which, if he cultivates them at all, he can only cultivate by subletting.

It must be remembered that it will be difficult in practice, as it would be a measure of harshness to oust a raiyat from a large part of his holding because he had only been able to cultivate a portion of it. A settlement, such as these rules provide for, is a matter of continual adjustment, and it will be much easier to add to a raiyat's holding than to take away from it. His holding may be diminished under the provision of rule 18, but this will be looked upon as a harsh measure. The original area allotted should be therefore strictly limited to the applicant's means of cultivation and probable requirements as measured by the number of working members of his family and his ability to employ hired labour. Ten bigahs to a plough is probably a fair estimate. A 20-bigha allotment will probably ordinarily be amply sufficient as a first allotment.

Demarcation of allotments.

33. Allotments must be sufficiently marked off and demarcated by natural or artificial boundary marks. After demarcation the allotments must be surveyed and plotted on the estate map. This survey should be sufficiently accurate to afford a record in case of boundary marks being removed and disputes arising. The estate map may be divided into block sheets or other convenient sheets, and rough working sheets may be used to first sketch in the allotments proposed and more accurate maps of the holdings as they are effectively occupied and cultivated and finally confirmed may afterwards be prepared.

Loans without interest may be given.

Loans.

34. These loans may not exceed Rs. 200 in all to one family, and should not exceed—

	Rs.
in first year	100
„ second „	80
„ third „	20

They may be given in cash or in grain. Great care must be taken in granting such loans which, for the most part, must at first at least be unsecured. A certain amount of safety will be obtained if a group of settlers take a loan on joint and separate liability, and this should be secured, if possible. But ordinarily all the security there will be for the loan will consist of the value of such improvement as the borrower may make to his holding and of the value of any homestead he may erect. It will be a safeguard if loans are advanced gradually as it is seen that the applicant is improving his holding and building his homestead. Settlers who expend labour in this way are also less likely to abscond and may therefore be expected to repay their loan in due course.

It is further to be considered that it is not desirable to encourage a too impecunious class of settlers, though this need not deter the Collector from assisting poor raiyats who have become poor by misfortune rather than through their own incapacity. Such may come to his notice in Government *khas* mehals.

Repayment of loans

35 An instalment bond will be taken for the repayment of these loans Repayment should begin from the 4th year and should be completed by the end of the 10th year Any instalment not paid on due date may be recovered, with interest from that date at 6¼ per cent per annum as an arrear of rent

Rate of assessment

36 Subject to such rates as may be from time to time fixed by the Board, rent shall be charged for lands settled under these rules for every standard bigha—

From 1st to 3rd year	4th year	5th year	6th year	7th and 8th year
Rent free	2 to 4 annas	4 to 8 annas	8 to 1 rupee	Re 1 to 1 8

After the 8th year the rent will be Re 1 8 to 2 Government reserves to itself the right to charge a special rate of rent for special land, viz, for land which may be cleared and on which crops have been grown, and also for land on which buildings may be erected for residential quarters

37 A copy of the rules 4 to 23 will be given to every settler and will be hung up in the estate cutcherry They must be carefully explained to every applicant, who should be told that he can only obtain lands on these conditions and should be required to execute a *kabuliyat* agreeing to these terms

Establishment for the management

Resident officer

38 It will be necessary to have an efficient and responsible officer resident on or near the estate to carry out the following amongst other duties —

(1) To carry out the works of reclamation and improvement, such as embankments, tanks, roads, jungle clearing, so far as it is done by Government This may possibly be done by a separate works establishment

(2) Demarcate the reserved and public lands, and see that they are not encroached upon

(3) Inquire into the history of applicants who apply to him direct and submit recommendations to the Collector

(4) Receive and point out their allotments to the settlers

(5) Demarcate the allotments on the ground and survey and plot them on the map of the estate

(6) Keep up a record of the allotments made in a register which will show —

Serial number of holding
Name of settler and father's name.
Name of village and thana from which he has come
Date of giving possession of allotment
Block and plot numbers
Area of each plot

(7) To watch the tenants and report if they leave the estate without notice Reasonable absence to enable the raiyats to earn a living by work off the estate at times when they can do little to their own holdings need not be objected to

(8) To recommend as to loans and pay out the same when they are paid by instalments

(9) To watch the progress of clearance and cultivation and the building of homesteads generally, and more particularly in the case of those who have received or are receiving advances

(10) Arrange for markets and supplies

(11) Generally to see that the wants of the community are supplied as far as possible and to protect their interests

Quarters

39 It will be probably necessary to give the officer in charge of the estate quarters and a cutcherry, if not on each estate in a central situation for a group of two or more estates

A small rest-house for inspecting officers will probably also be desirable

No 3317T R —The 21st September 1905 —The Board of Revenue, Lower Provinces, having submitted, for consideration by the Lieutenant-Governor of Bengal, a report by the Collector of Midnapore, under section 11 of the Bengal Embankment Act, II (B C) of 1882, for the construction of a sluice across the Toper khal at Khoniadv in the district of Midnapore, at an estimated cost of Rs 10,835, the Lieutenant-Governor is pleased, under the provisions of section 14 of the aforesaid Act, to order that the sluice shall be constructed in accordance with the plans prepared by the Executive Engineer, Cossye Division, and approved by the Chief Engineer, Irrigation Department, Bengal The cost will be realized from the zamindars of the estates benefited by the scheme

(4) the river Bhairab, from the Ganges to Nadia,
(5) the river Mathabhanga, from the Ganges to its junction with the Hooghly,
(6) such portions of the river Ganges as may be within five miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jalangi and the Mathabhanga rivers, respectively

1 Every vessel entering, or making use of, the Nadia Rivers shall be liable to measurement for the purpose of ascertaining the tolls payable In case of any reasonable doubt, the persons appointed by the Lieutenant-Governor to collect tolls and officers to whom such persons are subordinate shall have authority to again measure a vessel, notwithstanding that it was measured before

2 Vessels for the purposes of the determination of tonnage shall be divided into two classes, as follows —

Class I —To include all vessels of the usual native types of build

Class II —To include all steamers, flats, barges and other square built boats

The tonnage of every vessel, whether laden or empty, shall, for the purposes of Act V of 1864 and of these rules, be determined by the following measurements —

Class I —

(*a*) The product of one quarter the length of the vessel from stem to stern, measured outside and along the water-line, multiplied by the greatest interior breadth of the vessel, multiplied by the interior depth from the water line to the bottom of the vessel, is to be taken as the number of maunds on which toll shall be levied

(*b*) The measurement of the length is to be made in feet, rejecting inches The measurements of the breadth and depth are to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot

(*c*) The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 25 maunds, rejecting any remainder of less than 25 maunds In the case of vessels exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds, rejecting any remainder of less than 100 maunds

Class II —

(*d*) For vessels of Class II the number of maunds obtained by the system of measurement prescribed for Class I shall be increased by one-half For vessels of this class exceeding 5,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any remainder of less than 500 maunds

(*e*) In the case of steamers that have been surveyed under Act VI of 1884, the gross tonnage entered in the certificate shall be accepted as the tonnage of the steamer in lieu of measurement

In all cases, the gross tonnage of steamers, whether as entered in the certificate, or as determined by measurement, shall be reduced by one-third as an allowance for engine space

(*f*) For vessels of Class II which are furnished with reliable way-bills or manifests, the gross maundage of cargo shown by the manifest may, at the option of the employer of the vessel, be taken as the maundage on which toll shall be charged provided that the amount of tollage shall in no case be less than the amount which would be payable in respect of the tonnage of the vessel when empty In the case of steamers that have been surveyed under Act VI of 1884, tolls shall be charged on the cargo, as thus determined, in addition to the tolls chargeable on the net tonnage of the steamer itself provided that firms or individuals who wish to make use of this rule must be approved by the Superintending Engineer of the South-Western Circle, and that such approval may be withdrawn for any just cause

3 Measurements shall be made daily, as soon as possible, after a vessel arrives at the toll station From the 1st April to the 30th September, measurements shall be made between the hours of 6 A M and 5 P M, and tickets under Rule 5 shall be delivered between the hours of 7 A M and 6 P M From the 1st October to the 31st March, measurements shall be made between the hours of 7 A M and 4 P M, and tickets under Rule 5 shall be delivered between the hours of 8 A M and 5 P M

EXISTING RULES

The following Rules having reference to the undermentioned navigable channels, viz —

(1) the river Bhagirathi, throughout its whole course from the Ganges to Nadia, or to its junction with the Hooghly,
(2) the river Hooghly, from Nadia to its junction with the river Matabhanga,
(3) the river Jallanghi, from the Ganges to Nadia,
(4) the river Bhairab, from the Ganges to Nadia,
(5) the river Matabhanga, from the Ganges to its junction with the Hooghly,
(6) such portions of the river Ganges as may be within 5 miles of the entrance for the time being of the Bhagirathi, the Bhairab, the Jallanghi, and the Matabhanga rivers, respectively,

have been passed this day by the Lieutenant-Governor of Bengal under the provisions of sections XI and XII of the "Canals Act, 1864" (No V, B L C), and will have effect from and after the 1st September 1879

1 Except as may be herein provided, every vessel, before leaving any toll-station, shall pay tolls in accordance with Schedule A appended to these rules

2 The tonnage of every vessel shall, for the purpose of the Canals Act, 1864, and of these rules, be determined by the following measurements —

(a) The product of half the length of the vessel from stem to stern, measured along the water-line, multiplied by the interior greatest breadth of the vessel, multiplied by the depths from the water-line to the bottom of the vessel, is to be taken as the number of maunds upon which toll shall be levied
(b) The measurement of the length is to be made in feet, rejecting inches, and the measurement of the breadth and depth in feet and quarters of a foot, rejecting portions of less than a quarter of a foot
(c) In calculating the amount of toll to be levied, any fraction of 100 maunds less than 25 maunds is to be omitted, exceeding 25 and not exceeding 50 maunds is to be charged as 25 maunds only, exceeding 50 maunds and not exceeding 75 maunds is to be charged as 50 maunds only, and exceeding 75 maunds as 75 maunds only Above 1,000 maunds no fraction of 100 maunds is to be charged
(d) In the case of steamers, the tonnage as determined by clauses (a), (b) and (c) shall be reduced by one-half as an allowance for engine and cabin space
(e) In the case of a steamer that has been surveyed under Act VI of 1884, the tonnage entered in the certificate shall be taken to be the tonnage of the steamer for the purpose of these rules, no further deduction being made for engine space

19 Measurement shall be made between the hours of 6 A M and 6 P M from April 1st to September 30th, and between 7 A M. and 5 P M. from October 1st to March 31st Tickets under Rule 12 shall be issued within the hours of 7 A.M. and 5 P M. in summer and 8 A.M. and 5 P.M. in winter.

PROPOSED RULES.

4 Every cargo vessel, immediately after entering the toll station limits, shall proceed to the measuring ghât or to such other place as the Toll Collector may direct, and shall remain there until it has been measured in accordance with these rules After measurement the vessel shall be removed from the measuring ghât without delay In any case the person in charge of a vessel shall place it in such situation as he may be required to by the Toll Collector

5 After measurement the measuring muharrir shall deliver to the person in charge of the vessel a pass in the form appended (Appendix E I) and shall inform such person verbally of the amount of toll payable by him The person in charge of the vessel shall then take the pass to the Toll Collector's Office, and shall there pay the toll demanded The Toll Collector shall then deliver to him a ticket in the form appended (Appendix E II), which shall bear the stamp of the Toll Collector's Office, and the signature of the Toll Collector, or in his absence, that of the Toll Daroga The vessel shall then be entitled to proceed without further charge

6 The person in charge of a vessel conveying passengers, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which are liable to be injured by detention, shall not be required to attend at the toll office, but shall pay toll to the measuring muharrir at the rate of six annas per oar, as provided in item I of the schedule of tolls hereto annexed, and the muharrir shall deliver to such person a ticket in the form appended (Appendix E III) which shall entitle the vessel to proceed without further charge

7 (a) All tolls are payable on demand, and shall be paid as provided in Rules 5 and 6 before a vessel is allowed to proceed.

(b) Provided that vessels belonging to individuals or firms specially approved by the Superintending Engineer of the South-Western Circle, which approval may be withdrawn for any just cause, may be permitted to proceed without prepayment

(c) The person in charge of a vessel approved as in clause (b) shall, on passing a toll station, stop and deliver at the station a form specifying such particulars regarding the vessel and its cargo as may be required by the Superintending Engineer, South-Western Circle

8 The tickets mentioned in Rules 5 and 6 must be kept on board the vessel, and must be produced for inspection when demanded by any person authorised to collect tolls, or by any officer to whom such person is subordinate If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in Rule 2, and shall demand payment of toll, and unless and until toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of Section IX of the Act

9 If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to pass along any one of the Nadia Rivers, she may be permitted to pass along any other of the rivers without extra charge, except as provided in Rule 13 If the vessel be unable to pass along any of the rivers, the Toll Collector may at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel

10 The payment of toll at one toll station shall entitle a vessel to travel once along the whole length of the river on which that toll station is situated, whether or no the cargo is changed during the journey, except as provided in Rule 13

11 A vessel containing passengers, or used for fishing, shall pay toll only once in the same day provided that no passenger vessel shall be allowed this privilege unless returning empty, or conveying the same passengers as on the first trip The "day" to be reckoned from midnight to midnight

12 A cargo vessel, laden or empty, which has paid toll at a toll station, shall not be required to again pay toll if returning to the same toll station on the same day reckoned as in Rule 11, except as provided in Rule 13

13 A vessel which has been measured and paid toll accordingly shall, in case additional cargo is taken on board, or a part or whole of the original cargo is changed for a cargo on which a higher rate of toll is leviable, be subject to re-measurement whether on the same or another day, reckoned as in Rule 11, and to the payment of the amount by which the total toll leviable on the re-measurement exceeds that originally paid

14 Passenger boats having on board cargo other than what is necessary for the use of the passengers for the trip and which measure 25 maunds and upwards shall be dealt with as cargo boats

15 (a) Boats having on board only articles which are necessary for the use of the crew for the trip shall be dealt with as empty

(b) Empty jars, tins, casks, bags, or other receptacles used, or to be used only for the purpose of holding cargo, shall not be considered as cargo

16 No cargo shall be taken out of any boat, whether measured or unmeasured, within toll station limits without the permission of the Toll Collector

17. Tickets and passes issued in respect of any vessel, boat, raft, or float are not transferable to any other vessel, boat, raft, or float

18. (a) Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls

EXISTING RULES

10 Immediately after entering the chowkey limits, the manjee of every cargo vessel shall take such vessel to the measuring ghât, and such vessel shall remain there until it shall have been measured in accordance with the rules for measurement

11 After measurement shall have been duly effected, the measuring mohurir shall deliver to the manjee of the vessel a pass in the form annexed (Appendix E I), and shall inform the manjee verbally of the amount of toll payable by him

12. The manjee shall take the pass to the Toll Collector's Office, and shall then pay the amount of the toll demanded from him. He shall then receive a ticket in the form annexed (Appendix E II) which shall entitle him to pass the chowkey limits free of all further charge This ticket shall bear the stamp of the Toll Collector's Office and the signature of the Toll Collector, or in his absence that of the Toll Darogah

13 The manjee or other person in charge of a vessel conveying passengers only, or laden with horses, cattle, fowls, or other live-stock, or with fruit, fish, or other articles which may be likely to be spoiled by detention, shall not be required to attend at the Toll Office, but may pay toll to the mohurir in charge of the chowkey boat at the rate of four annas for each oar of the vessel, and shall receive from the mohurir a ticket in the form annexed (Appendix E III) which shall entitle such vessel to pass chowkey limits without further charge

6 If a vessel on which toll has been duly paid be unable, by reason of the shallowness of the water, or of any other natural obstacle, to prosecute her voyage up the river, she may, provided she returns to the toll station without unloading or taking in cargo, be permitted to pass along the other river (if any) without extra charge If the vessel be unable to pass along either river, the Toll Collector may, at his discretion, and after consideration of the circumstances of the case, refund the amount of toll which may have been paid on such vessel

7 Every boat or vessel carrying passengers, or used for fishing, shall pay tolls only once in the same day' provided that no passenger vessel shall be allowed this privilege unless returning empty or conveying the same passengers as on the first trip The word "day" in this and the following rule shall mean a day between sunrise and sunset, and shall not mean 24 hours

8 An empty cargo vessel or boat leaving and returning empty to the station limits on the same day, having paid toll, shall not be required to pay toll a second time A vessel leaving the chowkey limits laden, and paying toll accordingly, shall not be required to pay toll again if returning empty on the same day

9 Boats or vessels which may have entered the Nadia Rivers unladen or partially laden, and paid toll accordingly, shall, if they receive on board any additional freight, be subject to re-measurement and to the payment of any additional amount of toll which may be leviable on account of the additional maundage

14 Passenger boats having on board cargo other than what is necessary for the passengers for the trip, and which measure 25 maunds and upwards, shall be dealt with as cargo-boats

15 Empty boats having on board articles which are only requisite for the subsistence of the crew for the trip shall be considered as empty

16 No cargo shall be taken out of any boat, either measured or unmeasured, within the toll limits without the permission of the Toll Collector

17 Tickets and passes are not transferable

18 Passes collected at the chowkey boats shall be brought back into the Toll Office on the morning of the following day and counterfoiled

PROPOSED RULES.

(b) In case the person in charge of a boat desires to have a duplicate of the ticket mentioned in Rule 5, in order to make over to the owner of the boat or cargo, or for any other legitimate purpose not constituting an evasion or breach of these rules, the Toll Collector shall issue a duplicate at the time the request is made, whether at the time of issue of the original ticket or subsequently

19 Any vessel, raft float, or any number of vessels, rafts or floats fastened or connected together in any way, which, by reason of difficulty of proper control, or of excessive over-all length or breadth or depth, is of such a nature as, in the opinion of the Executive Engineer, Nadia Rivers Division, to be likely to cause unavoidable damage to the bandalling or other training or dredging works in the rivers, or to be likely to cause unavoidable obstruction to the traffic by grounding or sinking, is prohibited from passing into or along any of the channels comprised in the Nadia Rivers

20 A vessel which has been detained under these rules or under Section IX of the Act may not be removed from the Nadia Rivers without the order of the Toll Collector until the toll due has been paid During such detention the manji, owner or agent, must make arrangements for the safety of the vessel and cargo

21 All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Notification No 261, dated the 21st July 1890

22 The Supervisor may by written notice, to be posted at the Toll Offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the channels comprising the Nadia Rivers or on the banks

23 No person shall wilfully or negligently allow a vessel to sink in the channels comprising the Nadia Rivers without the permission of the Supervisor

24 In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor and his subordinates shall offer every assistance in removing the same

25 When a sunken vessel has been recovered, the Supervisor shall cause notices to be posted at the Toll Offices, or other prominent places, calling on those concerned to pay to the Toll Collector all toll which may be due, as well as the expenses incurred on the recovery of the vessel and cargo Should the sum due be not paid within fifteen days of the date of notice, the boat and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold, under the procedure prescribed in Section IX of the Act

26. The purchaser of a vessel sold under the provisions of Section IX of the Act shall have the right to take it out of the channels comprising the Nadia Rivers on the day of purchase, or within such time as may be allowed by the Toll Collector, without payment of tolls.

27 When any laden vessel, which has sunk, has been recovered, or when any laden vessel has been seized under the provisions of the Act or of these rules, the Supervisor shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay

28 If the Supervisor be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in Rule 27 shall be effected by a notice exhibited in his office, and by advertisement in at least two local newspapers

29 All vessels, whether travelling or moored, in the channels comprising the Nadia Rivers, shall, between sunset and sunrise, carry a white light in a lantern on the fore-part of the vessel where it can be distinctly seen from all sides All steam vessels in motion shall carry the lights prescribed by the Board of Trade Regulations Barges or boats attached to a steam vessel, whether in motion or moored, shall carry the lights prescribed above.

EXISTING RULES.

20 Any person who may have lost or mislaid his measurement ticket may apply for a duplicate. Such application shall be in writing, and shall set forth clearly the circumstances of the loss, and shall be verified by the applicant. The Toll Collector, if he be satisfied that no fraud has been intended, shall supply a duplicate on receipt of a fee of eight annas in the case of a passenger boat or empty boat, and one rupee in the case of a laden boat

22 No fleet of vessels or rafts lashed together and exceeding 150 feet in length, or carrying or floating timber exceeding in all twenty in number, shall pass into or through any of the Nuddea Rivers at one time or abreast.

23 No single vessel or raft carrying or floating a greater number than twelve timbers shall pass into, or out of, or through, any of the Nuddea Rivers And no single vessel or raft carrying or floating more than six timbers shall pass into or through any of the aforesaid rivers between the 1st of December of any year and the 1st of July following

5. All vessels which may be employed solely in conveying troops on military duty, or military stores, or which may be employed solely in work connected with the maintenance or improvement of the Nuddea Rivers, as well as boats used by Police Officers on actual duty, shall be exempted from paying tolls This shall not be held to apply to Police Officers in transit from one district to another, unless for the purpose of making an arrest or for holding an investigation

21 Any officer of Government or other person claiming exemption under Rule 5 shall be supplied by the measuring mohurir with a certificate in the form annexed (Appendix E IV), and shall fill up and return such form to the mohurir who shall thereupon grant a passenger ticket in form (E III) In case of doubt as to the good faith of any claim to exemption from toll, the measuring mohurir may detain the vessel for which exemption is claimed, and report the case for the orders of the Toll Collector

25. Owners and agents of steamers who may desire to avoid the delay consequent on payment of toll on passing toll stations may give notice to the Board of Revenue of their desire and willingness to pay toll in Calcutta on demand and on depositing such amount as the Board of Revenue may determine they shall be furnished with a certificate which shall entitle the steamer or flat to pass any toll station without detention, the amount of toll due on account thereof being paid in Calcutta on demand, or deducted from the amount deposited with the Board of Revenue

26 The Commander of any vessel or vessels obtaining the privilege mentioned above shall leave at the toll station a certificate of having passed the toll station The certificate shall mention the date of passing It will be attached as a voucher to the bill, which will be presented for payment to the owners or agents of the vessel by the officer in Calcutta authorised to receive payment thereof.

PROPOSED RULES.

30 For any contravention of Rules 4, 7(c), 16, 17, 19, 20, 22, 23, 27, 29, or of any notice issued thereunder, the person in charge of the vessel, or other person in fault, shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs 50 or Rs 5 a day for any continuing infringement

MARINE DEPARTMENT

The 21st September 1905

No 94Marine—It is hereby notified that under section 9 of the Chittagong Port Commissioners Act, 1887, Mr J Stuart, Traffic Manager, Assam-Bengal Railway, is appointed to be a Commissioner of the Port of Chittagong, in the place of Mr W Chadwick, resigned

W A INGLIS,
Secy to the Govt of Bengal

The 19th September 1905

No 93Marine—In exercise of the powers conferred on him by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and in supersession of the rules sanctioned under Notification No 68Marine, dated the 27th June 1905, the Lieutenant-Governor is pleased, with the previous sanction of the Governor General in Council, to make the following rules for regulating the grant to owners of motor vehicles of licenses to possess and transport petrol for use in such motor vehicles.

1 In these rules—

(*a*) "motor vehicle" includes all vehicles propelled by mechanical means on ordinary roads and motor boats and launches,

(*b*) "petrol" includes "other dangerous petroleum" used for the propulsion of motor vehicles

2 (1) Licenses may be granted to the owners of motor vehicles—

(*a*) to possess petrol intended for use in motor vehicles,

(*b*) to transport petrol on motor vehicles for use in propelling such motor vehicles,

(*c*) to transport petrol by other means of conveyance by road, rail or water

(2) Such licenses for quantities not exceeding 40 gallons may be granted, in the town and suburbs of Calcutta, by the Commissioner or Deputy Commissioner of Police, and elsewhere by the District Magistrate or such other officer as the Local Government may from time to time, by order in writing appoint Licenses for quantities exceeding 40 gallons will be granted by the Local Government

(3) The licenses under rule 2 (1), clauses (*a*) and (*b*), shall be granted in the annexed Form II, and those under rule 2 (1), clause (*c*) in the annexed Form I

3 The licenses under clauses (*a*) and (*b*) of rule 2 (1) shall be granted free of charge, and those under clause (*c*) of that rule for a fee of Rs 5 The licenses shall remain in force for a period of one year, at the expiry of which they shall expire, but may be renewed

4 Every license shall be subject to the following conditions, namely —

(1) When not carried in a receptacle forming part of a motor vehicle the petrol shall not be kept, used or transported except in iron or steel vessels so substantially constructed as not to be liable, save by gross negligence or extraordinary accident, to be broken or become defective or insecure

Every such vessel shall be so constructed and maintained that no leakage, whether of liquid or vapour, can take place therefrom

(2) Every such vessel, when used for transporting or keeping petrol, shall have attached thereto a metallic or enamelled label in conspicuous characters, stating the description of the petrol with the addition of the words "highly inflammable" legibly and indelibly stamped or marked thereon, and with the addition of the name and address of the owner

(3) Every such vessel shall have an air-space equal to one-tenth of its capacity to allow for expansion of the petrol

(4) No such vessel shall contain more than four gallons

(5) Before repairs are done to any such vessel, it shall, as far as practicable, be cleaned by the removal of all petrol and of all dangerous vapours derived from the same

(6) The store house or building in which the petrol is stored shall be well ventilated and constructed of uninflammable materials But any building having a capacity of not more than 40 gallons owned by the owner of a motor vehicle or a petty dealer may have its doors and windows constructed of wood

(7) Where a store-house forms part of, or is attached to, another building, and the intervening floor or partition is of an unsubstantial or inflammable character, or has an opening therein, the whole of such building shall be deemed to be the store house, and no portion of such store-house shall be used as a dwelling or as a place where persons assemble.

A store-house shall have a separate entrance from the open air distinct from that of any dwelling or building in which persons assemble

(8) The amount of petrol which may be kept by the owner of a motor vehicle, whether or not upon motor vehicles, shall not exceed 60 gallons at any one time

(9) The amount of petrol which may be transported under a license granted under rule 2 (1), clause (c), shall not exceed 60 gallons

(10) The filling or replenishing of any vessel with petrol shall not be carried on, nor shall the contents of any such vessel be exposed, in the presence of fire or artificial light, except a light of such construction, position and character as not to be liable to ignite any inflammable vapour arising from the petrol; and no fire or artificial light capable of igniting inflammable vapour shall be brought within dangerous proximity of the place where any vessel containing petrol is being kept

(11) In the case of all petrol kept or transported for the purpose of, or in connection with, any motor vehicle—

(a) all due precautions shall be taken for the prevention of accidents by fire or explosion, and for the prevention of unauthorised persons from having access to any petrol kept or transported, and to the vessels containing, or intended to contain, or having actually contained the same, and

(b) every person managing or employed on, or in connection with, any motor vehicle shall abstain from every act whatever which tends to cause fire or explosion, and which is not reasonably necessary, and shall prevent any other person from committing any such act

(12) The store-house shall be liable to inspection by any police officer not lower in rank than Inspector of Police, or by any other officer whom the Local Government may depute for that purpose

5 The general rules for the possession and transport of dangerous petroleum in force in the province of Bengal for the time being shall, except so far as they are inconsistent with the foregoing rules, apply to petrol kept or transported for use in motor vehicles

DACCA DIVISION

UNIVERSITY ENTRANCE EXAMINATION

PRIVATE CANDIDATES

1 A student who has not attended any H E School recognised by the University since the 1st September next preceding the Entrance examination, or who has been transferred after the 1st September to the school from which he appears without the consent of the Divisional Inspector of Schools will be treated as a private candidate.

2 School teachers are classed as "Private candidates."

3 Private candidates desirous of sitting at the ensuing University Entrance examination must appear at a test-examination in one of the undermentioned schools,—

(1) Dacca Collegiate School.
(2) Mymensingh Zilla School.
(3) Faridpur Zilla School
(4) Barisal Zilla School.

4 The test-examinations of the zilla schools will be held on the 8th January 1906 and the following days The date of examination of the Collegiate School should be ascertained from the Head Master of that school

5 Every private candidate must submit his application to the Head Master of one of the schools named above at least three weeks before the test examination, and satisfy the following conditions —

(a) that he has not failed at the test-examination of any Entrance school during the current session,
(b) that he has not left school from any class lower than the first; and
(c) that he has left the school in which he last read with a transfer certificate, or (in the case of a candidate who appeared at any previous examination) he is in possession of the Registrar's receipt.

A school-master is required to produce a certificate from the Secretary of the school in which he has served as a *boná-fide* teacher for a period not less than six months, or if he has served in several schools, he must produce certificates from the Secretaries of each of them to prove that he has served as a *boná-fide* teacher in all of them

6 Every private candidate must pay a fee of Rs 2 to the Head Master of the school at which he appears for examination After payment of the necessary expenses, the balance of the fees will be paid to the examiners as remuneration

7 He must be accompanied, for the purpose of identification, by some person known to the officer conducting the examination, and satisfy him as to his character, otherwise he will not be admitted to the test-examination

8 The Head Masters of the schools named above are requested to send to this office a statement showing the marks gained by each private candidate in each subject at the test-examination within a fortnight from the date of the said examination, and are authorised to sign the application forms of eligible candidates, which should be forwarded to this office for countersignature and return in due time

9 Private candidates should arrange to remit their examination fees, together with the application forms, direct to the Registrar, so as to reach him on or before the 31st January 1906

10 The next Entrance examination begins on the 12th March 1906.

F A AND B A EXAMINATIONS

1 Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bona-fide* teachers of recognised English schools will be admitted to the F A and B A examinations as private candidates, provided they have served in their respective capacities for a period of two academical years

Boná-fide teachers are those who hold paid appointments in English schools, teaching up to at least the Middle English standard

2 Exceptions to the above rule will be made in the case of those candidates who, after failure at a previous examination, have served for six months since the date of the last examination held by the University If, however, a candidate has not completed six months' service at the time of submitting his application, he must give a written guarantee that he will remain in his post until he completes six months' service before the examination

3. School-masters should submit, with their applications, certificates of character and length of service from the Secretaries of their respective schools, which will be retained and also the University certificates, in proof of their having passed the Entrance or F A examination, as the case may be Candidates who have previously failed at the examination should produce the Registrar's receipt in addition

4 Applications must reach this office on or before the 7th January 1906.

5 Fees should be remitted by the candidates direct to the Registrar of the University of Calcutta, together with the application forms countersigned by the Inspector of Schools, so as to reach the office of the Registrar on or before the 12th February 1906

6 Under section 19 of the Indian Universities Act, candidates who intend to appear at the F A, B A or M A examination of the University of Calcutta, other than as regular students of some affiliated college, are requested in the first instance to apply for and obtain the permission of the Senate Their applications cannot be accepted unless they are supported by the permission of the Senate.

NOTICES TO MARINERS.

THE following Notices are published for general information

W A INGLIS,
Secretary, Marine Department

CALCUTTA, *the 23rd September 1905*

CHINA—HONGKONG WATERS

Wan chu chau—Rock in anchorage, north eastward

No 368 (first publication)—The British Admiralty has given notice (No 844 of 1905) of the existence of a rock, with a depth of one fathom over it, in the Typhoon anchorage, north-eastward of Wan chu chau or Stone cutters island, situated in a position from which the sheers at the Cosmopolitan dock bear S 47° E, distant 6¼ cables, and the northern extremity of Wan chu chau S 75° W

Approximate position, lat 22° 19¾′ N, long 114° 9′ E

(*Variation Nil in 1905*)

This Notice affects the following Admiralty Charts—Macao to Pedro Blanco, No 3026, approaches to Hongkong, No 1180, Hongkong, No 1466, Hongkong waters, No. 3280 Also, China Sea Directory, vol III, 1904, page 69

PACIFIC OCEAN—THE PHILIPPINE ISLAND—SAMAR, NORTH COAST

Biri channel—Non-existence of shoals

No 369 (first publication)—The British Admiralty has given notice (No 856 of 1905) that a recent survey shows that the shoals in Biri channel shown on the Chart as E.D, at distances of one mile S 45° W and 1½ miles S 78° W from the western extremity of Tinau island, do not exist, they have therefore been expunged from the Charts

Approximate position of western point of Tinau island, lat 12° 37′ N, long 124° 25¼′ E

(*Variation Nil in 1905*)

This Notice affects the following Admiralty Charts—St Bernardino and Mindoro straits, No 2577, St. Bernardino strait, No. 3370 Also, Eastern Archipelago, part I, 1902, page 353

PACIFIC OCEAN—PHILIPPINE ISLAND—LUZON, NORTH COAST

Pulupari (Palupart) island—Reef to the north-westward

No 870 (first publication) —The British Admiralty has given notice (No 859 of 1905) that a reef, on which a depth of 2 fathoms was obtained, has been reported to the north-westward of Pulupari or Palupart island, situated in a position from which that island bears S. 56° E, distant 1¼ miles

Approximate position, lat 14° 14′ N, long 122° 7′ E

From this position the reef extended in a north-westerly direction for a distance of 1¼ miles, the depths over it varying from 2 to 6 fathoms, and ending abruptly in deep water, it is covered with dark green seaweed, and is, therefore, difficult to distinguish

(Variation 1° Easterly in 1905)

This Notice affects the following Admiralty Chart —St Bernardino and Mindoro straits, No 2577 Also, Eastern Archipelago, part I, 1902, page 374

PACIFIC OCEAN—PHILIPPINE ISLANDS—MINDANAO, SOUTH COAST

No 871 (first publication) —The British Admiralty has given notice (No 860 of 1905) that the undermentioned shoals are reported to exist on the eastern side of Illana bay, in the following approximate positions —

a A shoal on which a vessel struck, situated at a distance of 5 miles S 23° W from Malabang fort, this has been placed on the Chart as a rock with a depth of less than 6 feet over it

b A coral shoal, with a depth of 3½ fathoms over it, situated at a distance of 4½ miles S 35° W from Malabang fort

These shoals have been marked P D, in consequence of the inaccuracy of the coast as shown on the Chart by which their positions were determined

Approximate position, Malabang fort, lat 7° 34′ N, long 124° 3′ E

(Variation 1° Easterly in 1905)

This Notice affects the following Admiralty Chart —Sulu sea, No 2578, Also, Eastern Archipelago, part I, 1902, page 397

REPORT ON THE ADMINISTRATION OF THE STAMP DEPARTMENT DURING THE THREE YEARS ENDING THE 31st MARCH 1905

NOTIFICATION

No. 448T.-S.R.—The 16th September 1905.—The following extracts from the Report from the Board of Revenue on the Administration of the Stamp Department for the triennium ending the 31st March 1905, are published for general information.

E. A. GAIT,
Offg. Secy. to the Govt. of Bengal

No 5514B., dated Calcutta, the 9th August 1905

From—H. F SAMMAN, Esq, Offg Secretary to the Board of Revenue, L P,

To—The Secretary to the Government of Bengal, Financial Department.

THE HON'BLE MR. K G GUPTA, I C.S., *Member in charge.*

I AM directed to submit, for the information of Government, the following report on the administration of the Stamp Department during the three years ending the 31st March 1905.

FINANCIAL RESULTS

13 The progress of the revenue derived from the sale of stamps during the last five triennial periods may be gathered from the following figures —

Year	Receipts	Charges *	Net revenue	Percentage of increase of the net revenue of each triennium over the triennium 1890 91 to 1892-93
	Rs	Rs	Rs	
Average of three years —				
1890 91 to 1892 93	1,49,83,961	3,60,403	1,46,23,558	
1893 94 to 1895-96	1,64,82,973	3,96,485	1,60,86,468	10 0
1896 97 to 1898 99	1,75,71,697	4,21,P84	1,71,50,313	17 2
1899 00 to 1901 02	1,85,73,092	4,66,876	1,81,06,216	2? 8
1902 03 to 1904 05	2,00,90,574	5,15,624	1,95,74,950	33 8

* Exclusive of the cost of general supervision

14 The revenue collected under both the Stamp and Court fees Acts during the year 1904 05 amounted to Rs 2,08,65,770 and exceeded the receipts of any other year during the triennium, being Rs 10,30,2?6 more than in 1903-04 and Rs. 12,95,332 more than in 1902 03 The increase of revenue occurred under both judicial and non-judicial stamps. While the receipts under the latter head received a set back in 1903-04, the receipts from the sale of court-fee stamps increased steadily throughout the triennium There has been a corresponding steady increase in the total charges during the past three years, although the general result shows an increase in the annual net income The total charges during 1904 05 amounted to Rs 5,26,222, giving an increase of 0·2 and 6 2 per cent. over the figures of 1903-04 and 1902 03, respectively.

A —JUDICIAL STAMPS

16 The sale-proceeds of court-fee stamps (excluding stamps for copies), rose steadily during the past three years The receipts during 1904-05 amounted to Rs 1,41,18,166 against Rs 1,34,39 977 in 1903-04 The increase is mainly attributed to larger resort to the Civil Courts, to the payment of heavy probate duties in respect of some large estates in Calcutta, and to the institution of suits of higher value in the Small Cause Court in Calcutta The enquiries held by Revenue Officers under section 19H(3) of the Court-fees Act, VII of 1870, as amended by Act XI of 1899, have led to a more careful valuation by applicants for the grant of probates and letters of administration There was an increase in the receipts from the sale of stamps for copies and of plain paper The total receipts under the former head amounted to Rs 8,17,614 against Rs. 7,82,975 in 1903-04 and Rs. 7,67,522 in 1902-03. Under the latter head the total receipts amounted to Rs ?,16,934 and, compared with the receipts of the preceding two years, show an increase of Rs 16,044 and Rs 24,?31, respectively

B —NON JUDICIAL STAMPS

17 Non Judicial stamps show an increase of revenue of Rs. 2,39,321, or 4·5 per cent, when compared with 1903-04. The increase was shared by all classes of stamps.

18. (a) *Impressed stamps.*—The revenue derived from the sale of impressed stamps (the most important item among non-judicial stamps) fell from Rs 35,59,677 in 1902-03 to Rs. 34,89,903 in 1903-04. In the subsequent year (1904 05), however, it exceeded by Rs. 75,319 the receipts of 1903 04 No general explanation can be given for these fluctuations, which were by no means uniform throughout the Province, the causes assigned are in most cases of a purely local character.

19 (*b*) *Hundis or inland bills of exchange.*—The revenue derived from the sale of *hundi* or bill-of exchange stamps showed a progressive increase during the past three years. The receipts during 1904-05 were Rs 1,48,201, which exceeded those of 1903-04 and 1902-03 by Rs. 16,341 and Rs 22,715 respectively The largest increase occurred in Calcutta, and is attributed by the Collector of Calcutta to the stringent measures adopted by him in bringing to book those who attempted to evade payment of the proper duty. The prosecutions instituted against Marwari traders in respect of unstamped *hundis* have probably had a wholesome effect, but the increase of revenue under this head must, to a large extent, be the result of increased commercial activity.

20. (*c*) *Impressed labels or special adhesive stamps* —Receipts from the sale of impressed labels, which are used only in Calcutta, fell from Rs 8,45,401 in 1902-03 to Rs 7,98,593 in 1903-04, but rose again by Rs. 81,408 in the following year. The increase is attributed by the Collector of Calcutta to the increasing popularity of this class of stamps in Calcutta. The Commissioner of the Presidency Division writes —

> "This surmise may be partially correct, considering that, as compared with the preceding year, there was only a nominal increase in the sales of non-judicial impressed sheets in Calcutta, but the main cause of increase must be looked for elsewhere Both impressed sheets and impressed labels can be used in respect of the same description of documents Preference shown to one or the other class of stamps by the public merely means a transfer of the duties imposed on the same class of documents from one head to another It does not account for the increase of revenue derived from that class of documents, taking the two descriptions of stamps together by means of which it is levied. A part of the increase no doubt represents the normal growth of revenue from year to year, but a part is probably due to increased commercial prosperity"

21 (*d*) *One-anna receipt stamps*—The income from one-anna receipt stamps continues to rise steadily from year to year. The receipts during 1904 05 amounted to Rs 4,83,983 and show an increase of Rs 17,385, or 3 7 per cent., as compared with 1903 04 and of Rs 42,245, or 9 5 per cent, over 1902 03 The increase no doubt is satisfactory, but the tendency to evade the legal obligation still exists, otherwise the receipts would have been much larger The increase was largest in Calcutta, where it is attributed, in great measure, to the improvement of trade. It is reported that a large number of bills-of-exchange payable on demand used to find their way into the Calcutta market without being stamped, stringent measures were accordingly adopted and prosecutions instituted against the offenders, this had a salutary effect. An ingenious attempt to avoid the payment of stamp duty on receipts for the value of goods sold was brought to notice by the Collector of Calcutta in 1903 and thwarted A certain large firm of importers abandoned the practice, customary among European merchants in Calcutta, of taking from purchasers demand promissory notes, stamped by the firm, for the value of goods sold on credit and delivered, or granting a stamped receipt in case of cash payment, and adopted the following procedure instead On receipt of part payment very shortly after delivery of the goods, the firm would address a written memorandum to one of their collecting sirkars in which it was stated that so much had been paid by the purchaser on account of goods delivered. The sirkar would then give the purchaser this memorandum as a temporary receipt, and after a few days call for payment of the balance due, taking with him a second memorandum purporting to inform the sirkar himself of the total value of goods delivered to the purchaser. On receipt of payment of the outstanding balance the sirkar would write and sign the word "closed" on the back of this second memorandum, which he would then give to the purchaser in exchange for that previously given as a temporary receipt Neither of these memoranda was stamped, although the second served as a final quittance, no further receipt being given. The firm produced legal opinion in support of their action, but the Board, after consulting the Legal Remembrancer and Advocate-General, held that the second memoranda were liable to duty as receipts and insisted on their being stamped as such in future.

22. (*e*) *Foreign Bill Stamps.*—These stamps are sold chiefly in Calcutta for bills-of-exchange, cheques and promissory notes drawn or made out of British India and chargeable with a duty of more than one anna. The receipts

from this source during the past year amounted to Rs 71,919 which, compared with the receipts of the years 1903-04 and 1902-03, shows an increase of Rs 15,128 and Rs 18,484 respectively. The increase is attributed to the briskness of trade, especially in piece-goods, during this period.

23 (*f*) *Stamps for Legal Practitioners' licenses* —The amount of revenue realised from the sale of these stamps during 1904-05 was Rs. 1,70,618, which shows an increase of Rs 6,834 and Rs 10,042, respectively, over the receipts of the years 1903-04 and 1902-03. The increase is due to the increase in the number of legal practitioners.

24 (*g*) *Share transfer Stamps.*—Sales of these stamps, which are used for the payment of stamp duty on transfers of the shares of public companies and associations, were effected in Calcutta, Jalpaiguri and Darjeeling. The revenue during 1904-05 amounted to Rs 55,983, which, compared with Rs 38,098 and Rs. 28,295, the receipts of the years 1903-04 and 1902 03, shows an increase of Rs 17,885 and Rs 27,688 or 46 9 and 97 8 per cent., respectively No special reasons are assigned for the increase It has been brought to notice that the increase in the sale of share-transfer stamps is not commensurate with the increase in the number of limited companies and the consequent increase in the share transactions of these companies The Board have asked for further information on the subject.

25 (*h*), *Notarial Stamps* —These are one-rupee foreign bill stamps over-printed with the word "Notarial" under rule 15(*d*) of the rules issued with the Notification of the Government of India, No 786S.R., dated the 17th February 1899 They were sold in 15 out of 46 districts during 1904-05 The sales of the year amounted to Rs 1,417 in comparison with Rs. 1,367 and Rs 1,594 during the two previous years

26 (*i*) *Forms for Cheques or Receipts.*—Forms for cheques and receipts are impressed with one-anna stamps by the Controller of Printing and Stationery, in accordance with rule 7 of the Rules issued with the Notification of the Government of India, No. 786S R , dated the 17th February 1899, on receipt of a certificate of payment from the Calcutta Collector's office Hitherto the practice had almost exclusively been confined to European firms and Banking Corporations, but the Marwari and other native traders have gradually come to realize the utility of this procedure as a safeguard against abstraction Cheque forms of different kinds issued by the Accountant-General, Bengal, for the use of Incorporated Local Funds, are also impressed in the office of the Controller of Printing and Stationery with one anna stamps and issued to all treasuries in Bengal. The receipts of the year 1904 05 from this source amounted to Rs. 1,07,?74, against Rs. 98,303 and Rs 92,008 in the years 1903 04 and 1902-03

ARRANGEMENTS FOR THE SALE OF STAMPS

27 The total number of vendors engaged in the sale of judicial and non-judicial stamps during the year 1904-05 was 6,237, shewing a decrease, as compared with the previous two years, of 16 and 584 persons, respectively In some districts the decrease is attributed to the reduction in the number of stamp-vendors at district and subdivisional head-quarters and in large towns, resulting from the orders of the Board contained in their Circular Order No. 9 of April 1903 These orders were the outcome of enquiries made by the Board, as promised in paragraph 23 of their last Triennial Report, as to the increase of vendors in any locality beyond a number which will allow to each sufficient remuneration for the sale of stamps to induce him to pay reasonable attention to his duties as a vendor. In other districts the decrease in the number of stamp vendors is attributed to the cancelment of the licenses of a number of vendors on account of death and diminished income of the vendors, and also for failure on their part to keep a sufficient stock of stamps, to take out supplies regularly and to submit accounts for periodical inspection.

The expenditure during the past year exceeded that of the preceding year by Rs. 13,299, and that of the year 1902-1903 by Rs. 15,082. There was an increase in respect of both judicial and non-judicial stamps and

plain paper The increase was the necessary result of increased sales. The average discount per vendor during the triennium under report was Rs 52, as against Rs. 45 of the previous triennium

PUNITIVE ACTION OF THE COURTS AND REVENUE OFFICERS

29 The total number of cases dealt with by the Civil Courts during the last year of the triennium was 2,109, in comparison with 1846 in 1903-1904 and 1884 in 1902-03. There was an advance of Rs. 585 in the duty and penalty realised by the Civil Courts in comparison with the realisations of the preceding year, and of Rs. 507 in comparison with those of 1902-1903 There was an increase of 474 in the number of cases decided, and of Rs. 38,954 in the duty and penalty realised by Revenue Officers as compared with the figures of the preceding year, and an increase of 477 in the cases decided and of Rs 19,392 in the duty and penalty realised in comparison with 1902-1903. The increase in the number of cases is attributed to the more careful examination of documents by Civil Courts and Revenue Officers and to ignorance on the part of the public of the changes made by Act II of 1899

30 The number of cases instituted was 325, in which 352 persons were brought to trial against 356 cases and 376 persons in the preceding year, and 220 cases and 252 persons in the year 1902-1903. The fines imposed amounted to Rs 5,014 against Rs 3,747 in 1903-1904 and Rs 1,557 in 1902-1903, while the amount distributed in rewards was Rs 4,271 as against Rs 2,420 in 1903-1904 and Rs 551 in 1902 1903 The number of persons convicted was 334, the average fine imposed was therefore Rs 15, which is considerably larger than the average for the corresponding year of the previous triennium.

WORKING OF SECTION 19H ADDED TO THE COURT FEES ACT VII OF 1870 BY ACT XI OF 1899

31 The number of cases reported to the Collector as well as the amount of the deficit duty required fell off in 1904-1905 as compared with the preceding years Of the cases reported during 1904-1905, 80 3 per cent. were enquired into, the corresponding percentages in the two preceding years were 81 1 and 78 2. The proportion borne by the deficit duty realized to the amount originally paid was 8 7, 8 2 and 14 0, respectively, during the three years of the triennium

GENERAL REMARKS AND MISCELLANEOUS

35 *Reference to the High Court under section 57*—In February 1903 a reference was made by the Board under section 57 of the Indian Stamp Act, II of 1899, on the subject of the liability to stamp duty of the bills of-lading issued by the Rivers Steam Navigation Company Two points were referred for the decision of the High Court —First, whether the ordinary bills-of-lading used by the Company which related to the carriage of goods by inland navigation, and not by a sea going vessel, were bills-of-lading within the meaning of the Stamp Act, 1899, and as such liable to stamp duty under that Act, and secondly, whether in those cases where, for an increased payment, the Company takes upon itself all risks attending goods while on board of a ship or vessel, the documents were liable to be stamped as policies of sea-insurance under the Act The High Court held that as regards the first point the documents were bills-of-lading within the meaning of the Indian Stamp Act, 1899, and that as regards the second point the documents were not policies of sea-insurance but contracts for sea-insurance and were therefore not liable to be stamped as policies of sea-insurance under the Act The case has been fully reported in the Indian Law Reports, Calcutta Series, Volume XXX, page 565.
